Carnal Knowing Margaret R. Miles, 2006-09-01 When we look at Michelangelo's David we see a nakedness that expresses physical prowess self knowledge and spiritual discipline What do we see when we look at Hans Baldung's Eve the Serpent and Death or Master Francke's Martyrdom of Saint Barbara Why should those naked female images symbolize wantonness and shame How do ideas about nakedness formed at the dawn of Christianity continue to shape today's sexual values What must women do to take their bodies back This revolutionary study by Margaret R Miles formerly Bussey Professor of Historical Theology at the Harvard Divinity School and author of the acclaimed *Images as Insight* sifts through centuries of Christian writing and religious ritual and above all Western art to reveal the origins of our attitudes toward women's bodies and their encoded meanings Broad enough to encompass fourth century descriptions of Christian baptism and contemporary theories of representation *Carnal Knowing* is a brilliant startling work of scholarship whose implications extend far beyond the academy to the way we live and see **Cistercian Fathers and Forefathers** Thomas

Merton, 2018-09-15 This volume of previously uncollected studies makes a notable contribution to Merton's extensive and influential legacy This volume includes pieces on eleventh and twelfth century monastics by Thomas Merton perhaps the most significant American Catholic spiritual writer of the twentieth century The essays are difficult to locate elsewhere the conference transcriptions are available only here **Symbolic Blackness and Ethnic Difference in Early Christian**

Literature Gay L Byron, 2003-10-04 How were early Christians influenced by contemporary assumptions about ethnic and colour differences Why were early Christian writers so attracted to the subject of Blacks Egyptians and Ethiopians Looking at the neglected issue of race brings valuable new perspectives to the study of the ancient world now Gay Byron's exciting work is the first to survey and theorise Blacks Egyptians and Ethiopians in Christian antiquity By combining innovative theory and methodology with a detailed survey of early Christian writings Byron shows how perceptions about ethnic and color differences influenced the discursive strategies of ancient Christian authors She demonstrates convincingly that in spite of the contention that Christianity was to extend to all peoples certain groups of Christians were marginalized and rendered invisible and silent Original and pioneering this book will inspire discussion at every level encouraging a broader and more sophisticated understanding of early Christianity for scholars and students alike The Jewel of the Church Gerald of

Salvation Through Temptation Benjamin E. Heidgerken, 2021-06-04 Salvation through Temptation describes the development of predominant Greek and Latin Christian conceptions of temptation and of the work of Christ to heal and restore humankind in the context of that temptation focusing on Maximus the Confessor and Thomas Aquinas as well developed examples of Greek and Latin thought on these matters Maximus and Thomas represent two trajectories concerning the woundedness of human emotionality in the wake of the primordial human sin Heidgerken argues that Maximus stands in essential continuity with earlier Greek ascetic theology which conceives of the weakness of fallen humankind in demonological categories so that the Pauline law of sin is bound to external demonic agents that act upon the human mind through thoughts desires and sensory impressions For Thomas on the other hand this wound consists primarily of an internal disordering of the faculties that results from the withdrawal of original grace concupiscence or the fomes peccati Yet even in this framework the devil plays a significant role in Thomas's account of postlapsarian temptation On the basis of these differing frameworks for human temptation Heidgerken demonstrates the centrality of Christ's exemplarity in the Greek account and the centrality of Christ's moral perfections in the Latin account As a consequence of these emphases the Greek tradition of Maximus places distinct limits on the ability of human emotionality even that of Christ to be perfected in this life whereas Thomas's approach allows Christ to completely embody a perfected form of human emotionality in his earthly life Reciprocally Thomas's account of Christ's moral perfections and virtue places distinct limits on his affirmation of Christ's experience of postlapsarian temptation whereas Maximus's account allows for Christ to experience interior forms of temptation that more closely mirror the concrete moral experiences and circumstances of fallen human beings Salvation through Temptation recommends a retrieval of early ascetic theology and demonology as the best contemporary systematic and ecumenically viable approach to Christ's temptation and victory over the devil

Under the Sky of My Africa Catharine Theimer Nepomnyashchy, Nicole Svobodny, Ludmilla A. Trigos, 2006-05-30 A wide ranging consideration of the nature and significance of Pushkin's African heritage Roughly in the year 1705 a young African boy acquired from the seraglio of the Turkish sultan was transported to Russia as a gift to Peter the Great This child later known as Abram Petrovich Gannibal was to become Peter's godson and to live to a ripe old age having attained the rank of general and the status of Russian nobility More important he was to become the great grandfather of Russia's greatest national poet Alexander Pushkin It is the contention of the editors of this book borne out by the essays in the collection that Pushkin's

African ancestry has played the role of a wild card of sorts as a formative element in Russian cultural mythology and that the ways in which Gannibal's legacy has been included in or excluded from Pushkin's biography over the last two hundred years can serve as a shifting marker of Russia's self definition. The first single volume in English on this rich topic, *Under the Sky of My Africa*, addresses the wide variety of interests implicated in the question of Pushkin's blackness: race studies, politics, American studies, music, mythopoetic criticism, mainstream Pushkin studies. In essays that are by turns biographical, iconographical, cultural, and sociological in focus, the authors representing a broad range of disciplines and perspectives take us from the complex attitudes toward race in Russia during Pushkin's era to the surge of racism in late Soviet and post-Soviet contemporary Russia. In sum, *Under the Sky of My Africa* provides a wealth of basic material on the subject as well as a series of provocative readings and interpretations that will influence future considerations of Pushkin and race in Russian culture.
