Daruvala, 1962 Contemporary Conflicts in Southeast Asia Mikio Oishi, 2015-11-30

This book looks at major contemporary conflicts intra and interstate in Southeast Asia from a conflict management perspective Starting with the view that the conventional ASEAN conflict management methods have ceased to be effective it looks for new conflict management patterns and trends by investigating seven contemporary cases of conflict in the region Focusing on the incompatibilities involved in each case and examining how they have been managed whether by integration co existence elimination or maneuvering around the conflict the book sheds new light on the significance of managing conflict in achieving and maintaining the stability of the Southeast Asian region It makes a significant theoretical contribution to the field of peace and conflict studies by proposing the concept of mediation regime as the key to understanding current conflict management within ASEAN

The Scars of Southeast Asia: Understanding the Human Toll of Conflict Pasquale De Marco, 2025-03-19 In the annals of history the Vietnam War stands as a somber reminder of the devastating consequences of war and the complexities of international conflicts This comprehensive book delves into the depths of this tumultuous period shedding light on the historical political and human dimensions of the war that deeply scarred Southeast Asia and reverberated across the globe The book begins by examining the roots of the conflict tracing its origins to the aftermath of World War II and the subsequent division of Vietnam along the 17th parallel It explores the ideological clashes and regional tensions that fueled the war as well as the role of the United States and its domino theory in escalating the conflict With meticulous research and poignant storytelling the book delves into the human cost of the war It unveils the staggering civilian casualties the destruction of infrastructure and the lasting legacy of suffering caused by the indiscriminate use of chemical weapons The plight of refugees displaced from their homes and seeking asylum in foreign lands is also brought to light The book also examines the anti war movement that gained momentum during the conflict It highlights the protests demonstrations and acts of civil disobedience that challenged the government s narrative and called for an end to the war These movements reflected a growing disillusionment with the conduct of the war and its heavy human toll The fall of Saigon in 1975 marked a turning point in the war leading to the reunification of Vietnam under communist rule However the legacy of the war extended far beyond the battlefield The book explores the impact of the war on the United States leading to a period of soul searching and re evaluation of its role in international affairs and the limits of

military intervention Through a multidisciplinary approach this book provides a comprehensive understanding of the Vietnam War It illuminates the complexities of the conflict its causes consequences and enduring impact contributing to a more nuanced understanding of this chapter in history This book is an essential resource for anyone seeking a deeper understanding of the Vietnam War and its profound implications on Southeast Asia and the world If you like this book write a review

Post-Conflict Development in East Asia Brendan M. Howe, 2016-04-08 East Asia is a region deeply affected by conflict Colonial ideological and national wars have left their scars and legacies on regional international and national governance Yet East Asian post conflict development experiences have been viewed as remarkably successful The three largest economies of East Asia Japan China and South Korea have all experienced dramatic growth but immediately prior to their periods of expansion all experienced the devastating impacts of international conflicts and or civil upheaval These post conflict development success stories do not however tell the whole tale Other states in East Asia and in particular certain regions within some of these states while apparently emerging from similar conflictual backgrounds have experienced far less positive transitions This volume critically assesses measurements of success in East Asian post conflict development from a human centered perspective This involves a major re evaluation of accepted accounts of domestic governance and international relations in East Asia from both a comparative and inter disciplinary viewpoint Case study rich this volume provides policy prescriptions for East Asian donors and actors in an effort to provide Asian solutions for Asian problems

The Making of Southeast Asia Amitav Acharya, 2013-02-22 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as The Quest for Identity in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial

crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world *Diversity and Development in Southeast Asia* Guy J. Pauker, Frank H. Golay, Cynthia H. Enloe, 1977 Monograph discussing future problems relating to trends in economic and social development regional cooperation and interethnic relations in South East Asia considers relationships between national level economic policies and economic integration objectives incl The role of ASEAN and political problems particularly social conflict among ethnic groups and increasing political power in Viet Nam and Indonesia etc and comments on the North South dialogue and the new international economic order References and statistical tables
