field but Henry Seltzer is no stranger to breaking new ground in astrology. In this latest contribution he graces us with pioneering insights on Eris, a dwarf planet that he proves deserves consideration. The pages are filled with well-researched chart examples and analysis supporting his archetypal views on how Eris functions in a horoscope. This book deserves space in your mind and on your shelf. Seltzer's contributions on Eris is a definite enhancement to astrological theory. Bane of Worlds Anthony James, Following his successful mission to recover the missing warship ESS Crimson, Captain John Duggan finds himself unredeemed in the eyes of his superiors. His duties resume and this time he's given something easy: escort a cargo ship to a distant planet and bring it home safely. But war is never so predictable and a straightforward mission becomes something much more important. The outcome may well determine the future of humanity. Someone has terrible plans for the ESS Crimson and Duggan is about to find himself party to endless destruction. Even as worlds die, a new threat is waiting on the horizon. Bane of Worlds is a universe-spanning sci-fi adventure which continues the *Survival Wars* series. *Brute Force* Dean Wesley Smith, 2002. At the dawn of the twenty-fourth century, with colonies spanning fifty star systems, mankind has created the Confederation of Allied Worlds. When trouble erupts, the Confederation's solution is swift, savage, and supremely effective: dispatch small teams of elite warriors. Deadly fighters like Tex, one of the most decorated soldiers in the Confederation's arsenal, have survived covert operations in every steaming hellhole. As a result, he knows more than enough about the Confederation's most brutal and amoral activities, which makes him wonder: Is it mere coincidence that all missions assigned to veteran teams seem to be suicide missions? Fortunately, the new assignment doesn't have the markings of a lethal affair. Tex is dispatched to the Ulysses star system, a backwater group of inconsequential planets populated with misfits and malcontents. What he doesn't know is that this lowly cluster secretly harbors perhaps the greatest threat ever faced by the Confederation. Worse yet, the shadowy Protectorate behind the mission intends to make certain Tex does not survive. But Tex hasn't earned his reputation as a well-honed killing machine for nothing. *Brute Force* Xbox and the Xbox Logos are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. Humanity is fighting against an implacable foe. The Ghosts, a ruthless alien race, seem hell-bent on wiping out mankind. They have a vast warfleet and their technology is advancing at a terrible rate. Captain John Nathan Duggan and his crew are given a mission: find the missing ESS Crimson and bring it home. Little does Duggan realize this is no ordinary mission. As he struggles against enemies both within and without, he desperately tries to unlock the mystery surrounding the Crimson's disappearance and the unknown weapons it carries. He soon discovers the missing warship might be the only hope for salvation that mankind has left. Bane of Worlds Book 2.
