Hunter,Marylyn D Ritchie,Tiffany A Murray,Teri E Klein,David Baker,2021-11-29 The Pacific Symposium on Biocomputing

PSB 2022 is an international multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance. Presentations are rigorously peer reviewed and are published in an archival proceedings volume. PSB 2022 will be held on January 3-7, 2022, in Kohala Coast, Hawaii. Tutorials and workshops will be offered prior to the start of the conference. PSB 2022 will bring together top researchers from the US, the Asian Pacific nations, and around the world to exchange research results and address open issues in all aspects of computational biology. It is a forum for the presentation of work in databases, algorithms, interfaces, visualization, modeling, and other computational methods as applied to biological problems, with emphasis on applications in data-rich areas of molecular biology. The PSB has been designed to be responsive to the need for critical mass in sub-disciplines within biocomputing. For that reason, it is the only meeting whose sessions are defined dynamically each year in response to specific proposals. PSB sessions are organized by leaders of research in biocomputing's hot topics. In this way, the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field.

Termination of Tenancies for Tenant Default Great Britain: Law Commission, 2006-10-31. Following on from a consultation paper, Consultation paper 174, ISBN 0117302562, published in January 2004, this report contains proposals for reform of the law regarding the termination of a tenancy during its term by a landlord due to the tenant having broken the terms of the tenancy agreement. It sets out in the form of a draft Bill a new statutory scheme for the termination of tenancies, including a new concept of tenant default to replace the current law of forfeiture. The proposed scheme would define the circumstances in which a landlord may seek to terminate a tenancy early, require the landlord to warn the tenant of the impending action by giving a written notice, and confers enhanced protection on those with interests deriving out of the tenancy. The report is divided into eight parts with three appendices, and issues considered include problems with the current law of forfeiture of tenancies and the case for reform, the various components of the proposed scheme, including the concept of tenant default and the stages of a landlord's termination claim, and the role of the court.
