Terminal Classic In The Maya Lowlands:

The Terminal Classic in the Maya Lowlands Arthur Andrew Demarest, Prudence M. Rice, Don S. Rice, 2005 The Terminal Classic in the Maya Lowlands revisits one of the great problems in Mayan archaeology the apparent collapse of Classic Maya civilization from roughly A.D. 830 to 950. During this period the Maya abandoned their power centers in the southern lowlands and rather abruptly ceased the distinctive cultural practices that marked their apogee in the Classic period. Archaeological fieldwork during the past three decades however has uncovered enormous regional variability in the ways the Maya experienced the shift from Classic to Postclassic society revealing a period of cultural change more complex than acknowledged by traditional models. Featuring an impressive roster of scholars The Terminal Classic presents the most recent data and interpretations pertaining to this perplexing period of cultural transformation in the Maya lowlands. Although the research reveals clear interregional patterns the contributors resist a single overarching explanation. Rather this volume's diverse and nuanced interpretations provide a new more properly grounded beginning for continued debate on the nature of lowland Terminal Classic Maya civilization. A Consideration of the Terminal Classic Period in the Southern Maya Lowlands Gregory A. Wolff, 1997 *Geographies of Power* Sandra L. López Varela, Antonia E. Foias, 2005 Twelve contributors present the contents of the Terminal Classic the Mayan Lowlands Central America ceramic complexes in their area of study and discuss them against the complexity and diversity of social processes illuminated by recent investigations. Contents: An Introduction to Geographies of Power Sandra L. Lopez Varela and Antonia E. **The Petexbatun Regional Archaeological Project** Arthur Andrew Demarest, 2006 Then based on the project's findings Demarest presents interpretive reconstructions of the linked histories of the Pasión River kingdoms and correlates these interpretations with the variable evidence and culture histories of other regions of the Classic Maya lowlands. He points out that only through linking such accurate regional culture histories can we begin to understand the eighth through tenth century changes in Classic Maya civilization. The volume describes how the Petexbatun project addressed this challenge in its research design structure and large multicentered zone of study. Building on the previous twenty years of Harvard research in adjacent zones the Vanderbilt projects succeeded in reconstructing events and processes throughout the Pasión River Valley the largest single inland trade route of the ancient Maya world. **The Ancient Maya, 6th Edition** Robert J. Sharer, Loa P. Traxler, 2006 The rich findings of recent exploration and research are incorporated in this completely revised and greatly expanded sixth edition of this standard work on the Maya people. New field discoveries new technical advances new successes in the decipherment of Maya writing and new theoretical perspectives on the Maya past have made this new edition necessary. **Fine Paste Wares in the Late and Terminal Classic Maya Lowlands** Mary Elizabeth Pye, 1985 Cities of the Maya in Seven Epochs, 1250 B.C. to A.D. 1903 Steve Glassman, Armando Anaya, 2014-01-10 Telling the story of the Maya peoples from their earliest beginnings to the start of the 20th century this book divides the 3 000 year time span into seven distinct sections.
