The American Right Wing Readings In Political Behavior

Adam J. Berinsky

The American Right Wing Readings In Political Behavior:

Search for the American Right Wing William B. Hixson Jr., 2015-03-08 This book is a creative synthesis of the published scholarly research on the contemporary American right wing from the rise of Senator Joseph McCarthy to the election of Ronald Reagan as President Unlike most other syntheses it directly engages that research by critically analyzing the major explanations emerging from it Emphasizing neither the lives and backgrounds of the scholars that he discusses nor paradigms within the social sciences as a whole William Hixson focuses on the way the concepts of individual researchers have interacted with accumulating evidence on the American right and how this evidence has led to new and more comprehensive theories Hixson first summarizes and evaluates the research on the major developments analyzed by scholars the social sources of McCarthyism the radical right of the early 1960s George Wallace s constituency in his Presidential campaigns and the emerging new right of the late 1970s He then compares the interpretations of the two most influential students of the right wing Seymour Martin Lipset and Michael Paul Rogin Finally he offers his own explanations suggesting that the right wing is both a mass and elite phenomenon that its durability comes from its appeal to the upwardly mobile especially in economically expanding regions and that far from being either traditionalist or reactive it represents a proactive defense of values associated with late nineteenth century modernization Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

New Directions in Public Opinion Adam J. Berinsky, 2015-12-21 The field of public opinion is one of the most diverse in political science Over the last 60 years scholars have drawn upon the disciplines of psychology economics sociology and even biology to learn how ordinary people come to understand the complicated business of politics But much of the path breaking research in the field of public opinion is published in journals taking up fairly narrow questions one at a time and often requiring advanced statistical knowledge to understand these findings As a result the study of public opinion can seem confusing and incoherent to undergraduates To engage undergraduate students in this area a new type of textbook is required The second edition of *New Directions in Public Opinion* brings together leading scholars to provide an accessible and coherent overview of the current state of the field of public opinion Each chapter provides a general overview of topics that are at the cutting edge of study as well as well established cornerstones of the field Each contributor has made substantive revisions to their chapters and three chapters have been added on genetics and biology immigration and political extremism and the Tea Party Suitable for use as a main textbook or in tandem with a lengthier survey this book comprehensively covers the topics of public opinion research and pushes students further to explore critical topics in

contemporary politics **Right-Wing Populism in America** Chip Berlet, Matthew N. Lyons, 2016-05-06 Right wing militias and other antigovernment organizations have received heightened public attention since the Oklahoma City bombing While such groups are often portrayed as marginal extremists the values they espouse have influenced mainstream politics and culture far more than most Americans realize This important volume offers an in depth look at the historical roots and current landscape of right wing populism in the United States Illuminated is the potent combination of anti elitist rhetoric conspiracy theories and ethnic scapegoating that has fueled many political movements from the colonial period to the present day The book examines the Jacksonians the Ku Klux Klan and a host of Cold War nationalist cliques and relates them to the evolution of contemporary electoral campaigns of Patrick Buchanan the militancy of the Posse Comitatus and the Christian Identity movement and an array of millennial sects Combining vivid description and incisive analysis Berlet and Lyons show how large numbers of disaffected Americans have embraced right wing populism in a misguided attempt to challenge power relationships in U S society Highlighted are the dangers these groups pose for the future of our political system and the hope of progressive social change Winner Outstanding Book Award Gustavus Myers Center for the Study of Bigotry and Human Rights in North America *The Oxford Handbook of the Radical Right* Jens Rydgren, 2018 The radical right an introduction Jens Rydgren Ideology and discourse The radical right and nationalism Tamir Bar On The radical right and islamophobia Aristotle Kallis The radical right and anti semitism Ruth Wodak The radical right and populism Hans Georg Betz The radical right and fascism Nigel Copsey The radical right and euroscepticism Sofia Vasilopoulou Issues Explaining electoral support for the radical right Kai Arzheimer Party systems and radical right wing parties Herbert Kitschelt The radical right and gender Hilde Coff Globalization cleavages and the radical right Simon Bornschier Party organization and the radical right David Art Charisma and the radical right Roger Eatwell Media and the radical right Antonis A Ellinas The non party sector of the radical right John Veugelers and Gabriel Menard The political impact of the radical right Michelle Hale Williams The radical right as social movement organizations Manuela Caiani and Donatella Della Porta Youth and the radical right Cynthia Miller Idriss Religion and the radical right Michael Minkenberg Cross national links and international cooperation Manuela Caiani Political violence and the radical right Leonard Weinberg and Eliot Assoudeh Case studies The radical right in France Nonna Mayer The radical right in Germany Austria and Switzerland Uwe Backes The radical right in Belgium and the Netherlands Joop J M van Holsteyn The radical right in Southern Europe Carlo Ruzza The radical right in the UK Matthew J Goodwin and James Dennison The radical right in the Nordic countries Anders Widfeldt The radical right in Eastern Europe Lenka But kov The radical right in post soviet Russia Richard Arnold and Andreas Umland The radical right in post soviet Ukraine Melanie Mierzejewski Voznyak The radical right in the United States of America Christopher Sebastian Parker The radical right in Australia Andy Fleming and Aurelien Mondon The radical right in Israel Arie Perliger and Ami Pedhazur The radical right in Japan Naoto Higuchi **The American Right Wing** James D. Bales, 1964 The Christian

Right & US Foreign Policy in the 21 st Century Mohd Afandi Salleh,2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000 2009 During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security

George C. Wallace and the Politics of Powerlessness Jody Carlson,2023-04-14 This is the only complete study of the Wallace phenomenon It covers all of the presidential campaigns and views wallace from a variety of vantage ints historical context content anal ysis of speeches and analysis of elec tion data including voting statistics and attitudinal patterns of supporters Poli tics of Powerlessness examines na tionwide support for George C Wal lace in the presidential campaigns of 1964 1968 1972 and 1976 A number of election and candidate preference surveys are used as sources of data on supporters An understanding of Wal lace s appeal is provided through an examination of themes noted through out his speeches and an analysis of his political history from biographical sources personal interviews and newspaper accounts of the time The picture of Wallace that emerges is one of a man who saw himself as a crusader for his supporters interests while de liberately heightening and intensifying their feelings of powerlessness as a means of getting votes Carlson shows that Wallace voters were not marginal They did not reflect a loss of status nor were they simply outside the mainstream of political life They were very much like major party voters with the exception of their feel ings of political powerlessness that me about by increased government rticipation in state politics This work informed not only by a careful anal ysis but by interviews with Wallace many of his followers and people active in his campaigns The work has the additional advantage of having follow up analyses and interviews as late as 1978 In this sense it represents not only a scholarly analysis of the Wallace phenomenon but the most up to date analysis as well

Decisions for Sustainability Thomas Dietz,2023-06-08 Decisions by individuals organisations and nations shape the well being of humans and other

species the environment and sustainability Decisions for Sustainability examines how we can make better decisions concerning our future It incorporates sociological psychological and economic perspectives to highlight our strengths and weaknesses in decision making and suggest strategies to influence both individual and societal decisions Sustainability challenges from local land use and toxic contamination to climate change and biodiversity loss illustrate how we can improve decision making and what factors lead to conflict How we use science in the face of uncertainty is also examined and a range of ethical criteria for good decisions are proposed Emphasizing the need for diversity in decision making and clarifying the relationship between reform and societal transformation this book provides a comprehensive view of what we know about decision making and how we can do better in the face of sustainability challenges **The Other Side of the Sixties** John A. Andrew, 1997 Contains primary source documents *Pentecostalism in Colombia* Cornelia Butler Flora, 1976 This sociological study details the nature of the Pentecostal movement in Colombia the comparative patterning of precedent conditions in a regional system and among individuals the comparative internal structure of the movement and its reflection in the membership and the consequences of the movement s emergence and survival on municipios and individuals
