Modern British Playwriting: The 1950s David Pattie, 2012-12-06 Essential for students of theatre studies Methuen
Drama's Decades of Modern British Playwriting series provides a comprehensive survey and study of the theatre produced in each decade from the 1950s to 2009 in six volumes Each volume features a critical analysis and reevaluation of the work of four key playwrights from that decade authored by a team of experts together with an extensive commentary on the period
Modern British Playwriting The 1950s provides an authoritative and stimulating reassessment of the theatre of the decade together with a detailed study of the work of T S Eliot by Sarah Bay Cheng Terence Rattigan David Pattie John Osborne Luc Gilleman and Arnold Wesker John Bull The volume sets the context by providing a chronological survey of the 1950s a period when Britain was changing rapidly and the very fabric of an apparently stable society seemed to be under threat It explores the crisis in the theatrical climate and activity in the first part of the decade and the shift as the theatre began to document the unease in society before documenting the early life of the four principal playwrights studied in the volume Four scholars provide detailed examinations of the playwrights work during the decade combining an analysis of their plays with a study of other material such as early play drafts interviews and the critical receptions of the time An Afterword reviews what the writers went on to do and provides a summary evaluation of their contribution to British theatre from the perspective of the twenty first century **Revisiting and Revising the Fifties in Contemporary US Popular Culture** Eleonora

Ravizza, 2020-05-25 In this book Eleonora Ravizza analyzes how contemporary American popular culture has represented and reproduced the fifties By investigating the cultural work of films and TV series from the last two decades the book uncovers the inherent limitations of a revisionist take on the fifties Ravizza argues that due to the visual nature of the fifties crystallized in American consciousness through the widespread influence of television most contemporary attempts to rework and rewrite the regressive gender queer and racial politics fall short of such a revisionist reevaluation **Typical Men**

Andrew Spicer, 2001-04-12 Typical Men is the first book length study of masculinity in British cinema and offers a broad and lively overview from the Second World War to the present day Spicer argues that masculinity in popular fiction can best be understood as a range of dynamic and competing cultural types which rise and fall in relation to shifting patterns of film production audience taste and social change Specific chapters are devoted to each of the major types debonair gentlemen civilian professionals action adventurers the Everyman Fools and Rogues criminals rebels and damaged men which trace their changing histories through innovative readings of key films together with a fresh look at the performances of particular stars including James Mason Kenneth More Michael Caine and Sean Connery A final chapter explores the complex and hybrid types that have evolved within a volatile and unstable contemporary British cinema now part of an array of

interrelated media images of masculinity Typical Men will be of keen interest to those concerned with the cultural history of gender and its detailed and carefully contextualised interpretations of films afford a reappraisal of British cinema history especially the neglected and despised 1950s Andrew Spicer's Typical Men is a major intervention in debates about masculinity in the cinema It takes a lot of intellectual risks and locates cinematic stereotypes of masculinity in a cinematic and cultural context It is trenchant and original and redefines the field of gender representation Sue Harper Professor of Film History University of Portsmouth The strength of this elegantly and wittily written book is that in the precision of its detail about individual performances actors and films it never loses sight of its argumentative threads Brian McFarlane Screening the Past Stewart Parker Marilyn J. Richtarik, 2012-09-06 Meticulously researched and engagingly written this is the first biography of the important Irish playwright Stewart Parker It illuminates the genesis and meaning of such classic plays as Spokesong and Pentecost works that continue to shed light on Northern Ireland's past present and future in the context of Parker's life and times **The New Elizabethan Age** Irene Morra, Rob Gossedge, 2016-09-30 In the first half of the twentieth century many writers and artists turned to the art and received example of the Elizabethans as a means of articulating an emphatic and anti-Victorian modernity By the middle of that century this cultural neo-Elizabethanism had become absorbed within a broader mainstream discourse of national identity heritage and cultural performance Taking strength from the Coronation of a new young Queen named Elizabeth the New Elizabethanism of the 1950s heralded a nation that would now see its modern televised monarch preside over an imminently glorious and artistic age This book provides the first in-depth investigation of New Elizabethanism and its legacy With contributions from leading cultural practitioners and scholars its essays explore New Elizabethanism as variously manifested in ballet and opera the Coronation broadcast and festivities national historiography and myth the idea of the Young Elizabethan celebrations of air travel and new technologies and the New Shakespeareanism of theatre and television As these essays expose New Elizabethanism was much more than a brief moment of optimistic hyperbole Indeed from modern drama and film to the reinternment of Richard III from the London Olympics to the funeral of Margaret Thatcher it continues to pervade contemporary artistic expression politics and key moments of national pageantry *Verse Drama in England, 1900-2015* Irene Morra, 2016-10-20 Verse Drama in England 1900-2015 provides a critical and historical exploration of a tradition of modern dramatic creativity that has received very little scholarly attention Exploring the emergence of a distinctly modern verse drama at the turn of the century and its development into the twenty-first it counters common assumptions that the form is a marginal fundamentally outdated curiosity Through an examination of the extensive and diverse engagement of literary and theatrical writers directors and musicians Irene Morra identifies in modern verse drama a consistent and often prominent attempt to expand upon revitalize and redefine the contemporary English stage Dramatists discussed include Stephen Phillips Gordon Bottomley John Masefield James Elroy Flecker T S Eliot W H Auden Ronald Duncan Christopher Fry John Arden Anne Ridler Tony Harrison

Steven Berkoff Caryl Churchill and Mike Bartlett The book explores the negotiation of these dramatists with the changing position of verse drama in relation to constructions of national and communal audience aesthetic challenge and dramatic heritage Key to the study is the self conscious positioning of many of these dramatists in relation to an assumed mainstream tradition and the various critical responses that that positioning has provoked The study advocates for a scholarly revaluation of what must be identified as an influential and overlooked tradition of aesthetic challenge and creativity **London calling**
