

THE ARABS

A SHORT HISTORY FOR AMERICANS

BY PHILIP K. HITTI

The Arabs A Short History For Americans

K Morrison

The Arabs A Short History For Americans :

A Short History of the American People Robert Granville Caldwell, 1925 **History of Arab Americans** Aminah Al-Deen, 2018-11-02 This concise reference covers the diverse roots of Arabs in America tracing the changing face of this community from the 19th century until today From the restrictive immigration laws that the United States Congress passed against Arabs in the early 20th century to the backlash against this community following September 11 Arab Americans have faced both successes and challenges in their quest to become part of American culture This timely study explores the history of this multifaceted people from their traditions to their religious beliefs to the role women play in society their roots in war torn countries and the impact of the War on Terrorism on their collective psyche An easy to read narrative and chronologically arranged chapters reveal the enduring story of Arab American immigration and immersion Topics include perceptions of Arab immigrants being Arab American in an age of terrorism framing an American identity and faith beliefs and community practices both Orthodox Christian and Muslim Throughout the work profiles of famous Arab Americans underscore the importance of this culture to our American identity featuring St Jude Children s Research Hospital founder Danny Thomas rapper Omar Offendum and others **Daily Life of Arab Americans in the 21st Century** Anan Ameri, Holly Arida, 2012-04-06 This much needed study documents positive Arab American contributions to American life and culture especially in the last decade debunking myths and common negative perceptions that were exacerbated by the 9 11 attacks and the War on Terror The term Arab American is often used to describe a broad range of people who are ethnically diverse and come from many countries including Lebanon Syria Palestine Jordan Iraq Saudi Arabia Yemen Oman United Arab Emirates Qatar Bahrain and Kuwait Some Arab Americans have been in the United States since the 1880s The terrorist attacks of September 11 2001 did serve to highlight the necessity for Americans to better understand the discrete nations and ethnicities of the Middle East This title documents the key aspects of contemporary Arab American life including their many contributions to American society It begins with an overview of the immigrant experience but focuses primarily on the past decade examining the political family religious educational professional public and artistic aspects of the Arab American experience Readers will understand how this unique experience is impacted by political events both in the USA and in the Arab world **A Short History of the Arabs** Francesco Gabrieli, 1965 **The Making of Arab Americans** Hani J. Bawardi, 2014-05-01 While conventional wisdom points to the Arab Israeli War of 1967 as the gateway for the founding of the first Arab American national political organization such advocacy in fact began with the Syrian nationalist movement which emerged from immigration trends at the turn of the last century Bringing this long neglected history to life The Making of Arab Americans overturns the notion of an Arab population that was too diverse to share common goals Tracing the forgotten histories of the Free Syria Society the New Syria Party the Arab National League and the Institute of Arab American Affairs the book restores a timely aspect of our understanding of an area then called Syria that comprises modern day Syria Lebanon

Jordan Israel and Palestine Hani Bawardi examines the numerous Arab American political advocacy organizations that thrived before World War I showing how they influenced Syrian and Arab nationalism He further offers an in depth analysis exploring how World War II helped introduce a new Arab American identity as priorities shifted and the quest for assimilation intensified In addition the book enriches our understanding of the years leading to the Cold War by tracing both the Arab National League s transition to the Institute of Arab American Affairs and new campaigns to enhance mutual understanding between the United States and the Middle East Illustrated with a wealth of previously unpublished photographs and manuscripts *The Making of Arab Americans* provides crucial insight for contemporary dialogues

America's Arab Nationalists Aaron Berman,2022-11-04 *America s Arab Nationalists* focuses in on the relationship between Arab nationalists and Americans in the struggle for independence in an era when idealistic Americans could see the Arab nationalist struggle as an expression of their own values In the first three decades of the twentieth century from the 1908 Ottoman revolution to the rise of Hitler important and influential Americans including members of the small Arab American community intellectually politically and financially participated in the construction of Arab nationalism This book tells the story of a diverse group of people whose contributions are largely unknown to the American public The role Americans played in the development of Arab nationalism has been largely unexplored by historians making this an important and original contribution to scholarship This volume is of great interest to students and academics in the field though the narrative style is accessible to anyone interested in Arab nationalism the conflict between Zionists and Palestinians and the United States relationship with the Arab world **The Rise of the Arab American Left** Pamela E.

Pennock,2017-02-07 In this first history of Arab American activism in the 1960s Pamela Pennock brings to the forefront one of the most overlooked minority groups in the history of American social movements Focusing on the ideas and strategies of key Arab American organizations and examining the emerging alliances between Arab American and other anti imperialist and antiracist movements Pennock sheds new light on the role of Arab Americans in the social change of the era She details how their attempts to mobilize communities in support of Middle Eastern political or humanitarian causes were often met with suspicion by many Americans including heavy surveillance by the Nixon administration Cognizant that they would be unable to influence policy by traditional electoral means Arab Americans through slow coalition building over the course of decades of activism brought their central policy concerns and causes into the mainstream of activist consciousness With the support of new archival and interview evidence Pennock situates the civil rights struggle of Arab Americans within the story of other political and social change of the 1960s and 1970s By doing so she takes a crucial step forward in the study of American social movements of that era **A History of Islam in America** Kambiz GhaneaBassiri,2010-04-19 Muslims began arriving in the New World long before the rise of the Atlantic slave trade Kambiz GhaneaBassiri s fascinating book traces the history of Muslims in the United States and their different waves of immigration and conversion across five

centuries through colonial and antebellum America through world wars and civil rights struggles to the contemporary era The book tells the often deeply moving stories of individual Muslims and their lives as immigrants and citizens within the broad context of the American religious experience showing how that experience has been integral to the evolution of American Muslim institutions and practices This is a unique and intelligent portrayal of a diverse religious community and its relationship with America It will serve as a strong antidote to the current politicized dichotomy between Islam and the West which has come to dominate the study of Muslims in America and further afield [A Manual for American Servicemen in the Arab Middle East](#) William D. Wunderle, 2008-05 An American officer presents an invaluable handbook for dealing with cultural issues in the Middle East during military operations [The Arab-American Handbook](#) Nawar Shora, 2009 Tune up your knowledge of the Arab and Muslim worlds with this easy to read text The Arab American Handbook contains useful reference material and comment by a wide variety of participants and observers The book includes a thumbnail history the essentials of Islam social insights cultural norms The perfect tool for teachers employers travelers law enforcement Government workers and the general public will find that they can quickly penetrate the stereotypes and misconceptions to appreciate the tenor and nuance of Arab and Muslim life Without a better grasp of this subject the citizens of liberal democracies are unsafe at home and at a disadvantage in the global competition for hearts and minds
