The Four Modes of Seeing Elizabeth Carson Pastan, 2017-07-05 Borrowing its title from Madeline Harrison Caviness s influential work on the modes of seeing articulated by the twelfth century cleric Richard of Saint Victor this interdisciplinary collection brings together the work of thirty scholars from England France Germany Italy Switzerland and the United States Each author has contributed an original article that engages with ideas formulated in Caviness s wide ranging scholarship The historiographic introduction discusses themes in Caviness s publications and their importance for art historical and medieval studies today The book s thematic matrix groups together essays concerned with The Material Object Documentary Reconstruction Post Disciplinary Approaches Multiple Readings Gender and Reception Performativity Text and Image Collecting and Consumption and Politics and Ideology The contributors include curators art historians historians and literary scholars Their subjects range from medieval stained glass to the nineteenth century Gothic Revival the Sachsenspiegel and Mel Gibson s The Passion of the Christ Many foreground issues of gender reception and textuality which have permeated Caviness s scholarship Some also present approaches to sites that have been the subject of important studies by Caviness including Canterbury Chartres Reims Saint Denis Sens and Troyes The volume offers a broad range of methodological approaches to key topics in the study of medieval imagery and thus highlights the vitality of the field today

John Ruskin and the Fabric of Architecture Anuradha Chatterjee, 2017-10-02 Through the theoretical lenses of dress studies gender science and visual studies this volume analyses the impact John Ruskin has had on architecture throughout the nineteenth and twentieth centuries It explores Ruskin s different ideologies such as the adorned wall veil which were instrumental in bringing focus to structures that were previously unconsidered John Ruskin and the Fabric of Architecture examines the ways in which Ruskin perceives the evolution of architecture through the idea that architecture is surface The creative act in architecture analogous to the divine act of creation was viewed as a form of dressing By adding highly aesthetic features to designs taking inspiration from the veil of women s clothing Ruskin believed that buildings could be transformed into meaningful architecture This volume discusses the importance of Ruskin s surface theory and the myth of feminine architecture and additionally presents a competing theory of textile analogy in architecture based on morality and gender to counter Gottfried Semper s historicist

perspective This book would be beneficial to students and academics of architectural history and theory gender studies and visual studies who wish to delve into Ruskin s theories and to further understand his capacity for thinking beyond the historical methods The book will also be of interest to architectural practitioners particularly Ruskin s theory of surface architecture

After Taste Kent Kleinman,2012 AfterTaste Expanded Practices in Interior Design is an edited volume comprising texts interviews and portfolios that collectively document new theories and emerging critical practices in the field of interior design The material is informed by but not limited to the annual AfterTaste symposia hosted by Parsons The New School of Design The book s central argument is that the field of interior design is inadequately served by its historical reliance on taste making and taste makers and more recently from a set of theoretical concerns derived from architecture the volume seeks to set an expanded frame by advancing new voices and perspectives in both the theory and practice of interior design considered as an independent discipline In 2007 the Department of Architecture Interior Design and Lighting at Parsons The New School for Design inaugurated an annual international symposium series dedicated to the critical study of the interior Titled AfterTaste these yearly symposia offer expansive views of interior studies highlight emerging areas of research identify allied practices make public its under explored territory and attract future designers and scholars to the field Now in its fourth year AfterTaste has proven to be one of the very few venues internationally for critically exploring interior design The field of interior design is asymmetrically served by the current literature in the field Too frequently the current writing and making in interiors emphasize the ineffable the biographical and the social elite and promote a curiously unsubstantiated notion of connoisseurship as the principal basis for design Other attempts to construct an intellectual agenda for the study of the interior draw heavily from architectural theory ignoring the discipline s own specific and autonomous history AfterTaste the book is intended to adjust this imbalance by introducing interior design material that is theoretically and historically situated technically grounded demographically inclusive and aesthetically adventurous
