The Deep North:

The Narrow Road to the Deep North Richard Flanagan, 2015-04-14 Winner of the Man Booker Prize Nothing since Cormac McCarthy's *The Road* has shaken me like this The Washington Post In *The Narrow Road to the Deep North* Richard Flanagan displays the gifts that have made him one of the most acclaimed writers of contemporary fiction Moving deftly from a Japanese POW camp to present day Australia from the experiences of Dorrigio Evans and his fellow prisoners to that of the Japanese guards this savagely beautiful novel tells a story of the many forms of love and death of war and truth as one man comes of age prospers only to discover all that he has lost **The Deep North** Fanny Howe, 1988 *Ocean* Wolf H. Berger, 2009-05-06 The past one hundred years of ocean science have been distinguished by dramatic milestones remarkable discoveries and major revelations This book is a clear and lively survey of many of these amazing findings Beginning with a brief review of the elements that define what the ocean is and how it works from plate tectonics to the thermocline and the life within it Wolf H Berger places current understanding in the context of history Essays treat such topics as beach processes and coral reefs the great ocean currents off the East and West Coasts the productivity of the sea and the geologic revolution that changed all knowledge of the earth in the twentieth century **Initial Reports of the Deep Sea Drilling Project**, 1984 **Earth's Climate** William F. Ruddiman, 2001 Earth's Climate Past and Future works as either a nonmajors introduction to Earth system science or climate change or as a majors graduate level overview of the processes and techniques in climate science Written from a multidisciplinary perspective by a researcher instructor in the field the text summarizes the major lessons to be learned from 550 million years of climate changes as a way of evaluating the climatological impact on and by humans in this century The book also looks ahead to possible effects during the next several centuries of fossil fuel use **Dynamics of Nonlinear Cross-equatorial Flow in the Deep Ocean** Christopher Andrew Edwards, 1996 The transformation of potential vorticity within and stability of nonlinear deep western boundary currents in an idealized tropical ocean are studied using a shallowwater model Observational evidence indicates that the potential vorticity of fluid parcels in deep western boundary currents must change sign as they cross the equator but this evidence is otherwise unable to clarify the process A series of numerical experiments investigate this transformation in a rectangular basin straddling the equator A mass source located in the northwestern corner feeds fluid into the domain where it is constrained to cross the equator to reach a distributed mass sink Dissipation is included as momentum diffusion The Reynolds number defined as the ratio of the mass source per unit depth to the viscosity determines the nature of the flow and a critical value Re_c divides its possible behavior into two regimes For $Re < Re_c$ **Full Metal Apache** Takayuki Tatsumi, 2006 *DIV* Compares modern science fiction and the avant garde pop scene in America and Japan **Haiku, Other Arts, and Literary Disciplines** Toru Kiuchi, Yoshinobu Hakutani, 2022-01-28 *Haiku Other Arts and Literary Disciplines* investigates the genesis and development of haiku in Japan and determines the relationships between haiku and other arts such as essay

writing painting and music as well as the backgrounds of haiku such as literary movements philosophies and religions that underlie haiku composition By analyzing the poets who played major roles in the development of haiku and its related genres these essays illustrate how Japanese haiku poets and American writers such as Emerson and Whitman were inspired by nature especially its beautiful scenes and seasonal changes Western poets had a demonstrated affinity for Japanese haiku which bled over into other art mediums as these chapters discuss Metaphors of Confinement Monika

Fludernik,2019-08-13 Metaphors of Confinement The Prison in Fact Fiction and Fantasy offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of imprisonment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods *Masterworks of Asian Literature in Comparative Perspective: A Guide for Teaching* Barbara Stoler Miller,2016-09-16 This is a collection of 46 essays by specialists in Asian literature who offer a wide range of possibilities for introducing Asian literature to English speaking students It is intended to help in promoting multicultural education
