The Descent Jeff Long,2001-11-01 We are not alone In a cave in the Himalayas a guide discovers a self mutilated body with the warning Satan exists In the Kalahari Desert a nun unearths evidence of a proto human species and a deity called Older than Old In Bosnia something has been feeding upon the dead in a mass grave So begins mankind s most shocking realization that the underworld is a vast geological labyrinth populated by another race of beings Some call them devils or demons But they are real They are down there And they are waiting for us to find them *Néron Models* Siegfried Bosch,Werner Lütkebohmert,Michel Raynaud,2012-12-06 N ron models were invented by A N ron in the early 1960s in order to study the integral structure of abelian varieties over number fields Since then arithmeticians and algebraic geometers have applied the theory of N ron models with great success Quite recently new developments in arithmetic algebraic geometry have prompted a desire to understand more about N ron models and even to go back to the basics of their construction The authors have taken this as their incentive to present a comprehensive treatment of N ron models This volume of the renowned Ergebnisse series provides a detailed demonstration of the construction of N ron models from the point of view of Grothendieck s algebraic geometry In the second part of the book the relationship between N ron models and the relative Picard functor in the case of Jacobian varieties is explained The authors helpfully remind the reader of some important standard techniques of algebraic geometry A special chapter surveys the theory of the Picard functor
