

RELATIONAL DIALECTICS THEORY

Relational dialectics theory explains human interactions. The 4 key features of RDT are: contradiction, totality process and praxis. Below are the 4 key assumptions.

CONTRADICTION

Relationships are always in 'contradiction' because they have inbuilt tensions.

TOTALITY

The theory believes that you should look at the 'totality' of the contradictions in a relationship to see the challenges that exist and how to address them.

PROCESS

Relationships also are constantly in a 'process of change' so they never stay the same.

PRAXIS

'Praxis' is a word that explains how we act in a relationship: we can either accept and accommodate the other person's needs, or act out negatively when tensions occur.

The Dialectics Of Representation:

The Dialectics of Representation Susan Wells, 1985

This book examines how the democratic form and the struggle for democracy reflects influences and shapes the struggle for social emancipation In the context of increased exploitation rising inequality and intensified struggle for social justice in the aftermath of the economic crisis the channelling of populism through liberal democratic institutions has had contradictory effects giving rise to both Corbyn and Brexit Sanders and Trump Syriza and the Golden Dawn to name but a few How can we make sense of these developments In response this book approaches the idea of democracy from a socialist constitutionalist standpoint and explores institutional forms and principles that challenge and aim at the transformation of the extant social order This process involves the challenging of well established ideas of the liberal viewpoint as well as an unwavering focus on the issue of class rule which enables the highlighting of limitations of not only mainstream but also heterodox contemporary approaches to constitutionalism and democracy Ultimately democracy is conceived as a process of struggle for creating the conditions material as well as intellectual for its actualisation This significant work of legal and political theory will be of considerable interest to those working in these areas to make sense of contemporary developments and to further the causes of social justice and social emancipation

Hegel, Deleuze, and the Critique of Representation

Henry Somers-Hall, 2012-02-14 Hegel Deleuze and the Critique of Representation provides a critical account of the key connections between twentieth century French philosopher Gilles Deleuze and nineteenth century German idealist G W F Hegel While Hegel has been recognized as one of the key targets of Deleuze s philosophical writing Henry Somers Hall shows how Deleuze s antipathy to Hegel has its roots in a problem the two thinkers both try to address getting beyond a philosophy of judgment and the restrictions of Kant s transcendental idealism By tracing the development of their attempts to address this problem Somers Hall offers an interpretation of the sweep of nineteenth and twentieth century philosophy providing a series of analyses of key moments in the history of thought including the logics of Aristotle and Russell Kant s own philosophy of judgment and the philosophy of Bergson He also develops a novel interpretation of Deleuze s philosophy of difference and situates his philosophy in relation to the broader post Kantian tradition In addition to Deleuze s relation to Hegel the book makes important contributions to the study of Deleuze s philosophy of mathematics as well as to the study of several underappreciated areas of Hegel s own philosophy

Tillie Olsen and the Dialectical Philosophy of Proletarian

Literature Anthony Dawahare, 2018-10-19 Contrary to previous studies of Tillie Olsen s writing Tillie Olsen and the Dialectical Philosophy of Proletarian Literature analyzes the impact of one of the most important philosophies of the last century dialectical materialism on the form and content of Olsen s fiction By revealing the unconceptualized dialectics of Olsen s work and its appreciation by scholars and casual readers this study achieves a dialectical synthesis that incorporates and extends the insights of and about Olsen in terms of dialectical materialism By foregrounding Olsen s dialectical approach

it explains and largely resolves apparent contradictions between her Marxism and feminism her depictions of class race and gender the literature of her earlier and later periods and her use of realist and modernist literary forms and techniques Consequently this project makes a case for the importance of Olsen s Marxist education during the Red Decade of the 1930s and within the U S proletarian literary movement

The Philosophical Foundations of Ecological Civilization Arran Gare,2016-08-05 The global ecological crisis is the greatest challenge humanity has ever had to confront and humanity is failing The triumph of the neo liberal agenda together with a debauched scientism has reduced nature and people to nothing but raw materials instruments and consumers to be efficiently managed in a global market dominated by corporate managers media moguls and technocrats The arts and the humanities have been devalued genuine science has been crippled and the quest for autonomy and democracy undermined The resultant trajectory towards global ecological destruction appears inexorable and neither governments nor environmental movements have significantly altered this or indeed seem able to The Philosophical Foundations of Ecological Civilization is a wide ranging and scholarly analysis of this failure This book reframes the dynamics of the debate beyond the discourses of economics politics and techno science Reviving natural philosophy to align science with the humanities it offers the categories required to reform our modes of existence and our institutions so that we augment rather than undermine the life of the ecosystems of which we are part From this philosophical foundation the author puts forth a manifesto for transforming our culture into one which could provide an effective global environmental movement and provide the foundations for a global ecological civilization

Doran, S.J.,1990-06-01 In this challenging work Robert M Doran explores the basis of systematic theology in consciousness and goes on to consider the practical role of such theology in establishing and fostering communities with an authentic way of life This way of life would counteract the distortions and deformations of humanity that are exemplified by both late capitalism and Marxism Theology positions and interpretations today argues Doran must be stated in the categories of a theory of history The first part of the book outlines the horizon required for such categories The second third and fourth parts incrementally derive the categories expressing a theory of history in terms of the reciprocal relations among subjects cultures and social structures The final part on hermeneutics oresents an argument for the pertinence of what has preceded for interpreting the words and deeds of others Doran draws extensively on the thought of Bernard Lonergan and the work develops Lonergan s methodological insights It issues a call to persona genuineness and authenticity informed by religious moral intellectual affective and psychic conversions by interior differentiation of one s consciousness and by Christian faith on the parts of theologians who aspire to arrest effectively the course of cultural decline
