I.O.U. John Lanchester, 2010-01-05 For most people the reasons for the sudden collapse of our economy still remain obscure I O U is the story of how we came to experience such a complete financial disaster starting with the magical proliferation of credit that led to an explosion of lending on the global and local landscapes of banking and finance Viewing the crisis through the lens of politics culture and contemporary history from the invention and widespread misuse of financial instruments to the culpability of subprime mortgages Lanchester deftly draws conclusions on the limitations of financial and governmental regulation capitalism's deepest flaw and most important on the plain and simple facts of human nature where cash is concerned With newly updated superbly written reportage Lanchester delivers a shrewd perspective and a digestible comprehensive analysis that connects the dots for expert and casual reader alike Part economic primer part fiscal and historical analysis I O U is an eye opener of a book
