

YOUNG REPUBLICAN NATIONAL FEDERATION

“ We shouldn't let the action in our markets from the past week pass us by as fleeting news. We saw a coordinated attack against retail investors, small business owners, and working Americans the likes of which we've never seen before.

As Republicans, we should unambiguously condemn blatant market manipulation by Wall Street, Robinhood and others in an attempt to prop up billionaire hedge funds at the expense of the little guy. Cancel culture has no place in the market. We call on state, local and federal governments, where appropriate, as well as Wall Street itself to cease these distortions that deny average Americans their chance.

We want young people in the market. We want Redditors to have the same power as Wall Street if that's where the market leads. Our party is building a broad coalition of young people of all backgrounds – and if we stay silent here, we're going to lose a bunch of people who are already cynical about the political process and the American dream. ”

The Declaration Of A Young Republican:

"Young" Republican ,1944 **Protest in the Long Eighteenth Century** Yvonne Fuentes,Mark R. Malin,2021-05-18

This edited collection of essays focuses on the topic of protest during the Enlightenment of the long eighteenth century roughly 1670 1833 Resistance in the eighteenth century was extensive and the act of protest to foment meaningful societal change took on many forms from the circulation of ballads swearing of oaths to riots and work stoppages or the composition of essays novels posters caricatures political cartoons as well as theater and opera The contributors to this volume examine the causes of protest as well as the broad ways in which common artifacts such as poles trees drums conchs and songs acted as flashpoints for conflict and vehicles of protest Rather than approaching the topic with strict geographical temporal and structural limitations this book focuses on the time period from an international perspective and an interdisciplinary scope Because of its wide scope this book is an important contribution to the subject that will be of interest to both faculty and students of the history of protest resistance and the changes that these forces bring as it also reminds us that the protests of today are rooted in historical resistances of the past **Congressional Record** United States. Congress,1995 To Make Men Free Heather Cox Richardson,2014-09-23 From the New York Times bestselling author of Democracy Awakening the most comprehensive account of the GOP and its competing impulses Los Angeles Times When Abraham Lincoln helped create the Republican Party on the eve of the Civil War his goal was to promote economic opportunity for all Americans not just the slaveholding Southern planters who steered national politics Yet despite the egalitarian dream at the heart of its founding the Republican Party quickly became mired in a fundamental identity crisis Would it be the party of democratic ideals Or would it be the party of moneyed interests In the century and a half since Republicans have vacillated between these two poles with dire economic political and moral repercussions for the entire nation In To Make Men Free celebrated historian Heather Cox Richardson traces the shifting ideology of the Grand Old Party from the antebellum era to the Great Recession revealing the insidious cycle of boom and bust that has characterized the Party since its inception While in office progressive Republicans like Teddy Roosevelt and Dwight Eisenhower revived Lincoln s vision of economic freedom and expanded the government attacking the concentration of wealth and nurturing upward mobility But they and others like them have been continually thwarted by powerful business interests in the Party Their opponents appealed to Americans latent racism and xenophobia to regain political power linking taxation and regulation to redistribution and socialism The results of the Party s wholesale embrace of big business are all too familiar financial collapses like the Panic of 1893 the Great Depression in 1929 and the Great Recession in 2008 With each passing decade with each missed opportunity and political misstep the schism within the Republican Party has grown wider pulling the GOP ever further from its founding principles Expansive and authoritative To Make Men Free is a sweeping history of the Party that was once America s greatest political hope and time and time again has proved its greatest disappointment *Report of the National Executive Committee of*

Republicans and Independents National committee of Republicans and Independents. Executive committee, 1885 *The Republican Campaign Text Book for 1880 ...* Republican Congressional Committee, 1880 *American Heritage History of Young America: 1783-1860* Francis Russell, 2018-01-03 Young America is a star spangled account of the perilous exuberant dissension filled first six decades of the United States The book opens with George Washington's triumphant journey to New York City for his inauguration as first president of the United States It ends with Abraham Lincoln's solemn farewell to Springfield as he takes a train to Washington to become the sixteenth and almost the last president of a country torn by the secession of seven of its states In between historian Francis Russell vividly details the events that first molded the American way of life and gave the young nation the will and ability to survive **Legislating Racism** Thomas Adams Upchurch, 2014-10-17 The Civil War and Reconstruction were characterized by two lasting legacies the failure to bring racial harmony to the South and the failure to foster reconciliation between the North and South The nation was left with a festering race problem as a white dominated society and political structure debated the proper role for blacks At the national level both sides harbored bitter feelings toward the other which often resulted in clashes among congressmen that inflamed rather than solved the race problem No Congress expended more energy debating this issue than the Fifty First or Billion Dollar Congress of 1889 1891 The Congress debated several controversial solutions provoking discussion far beyond the halls of government and shaping the course of race relations for twentieth century America **Legislating Racism** proposes that these congressional debates actually created a climate for the first truly frank national discussion of racial issues in the United States In an historic moment of unusual honesty and openness a majority of congressmen newspaper editors magazine contributors and the American public came to admit their racial prejudice against not only blacks but all minority races If the majority of white Americans not just those in the South harbored racist sentiments many wondered whether Americans should simply accept racism as the American way Thomas Adams Upchurch contends that the Fifty First Congress in trying to solve the race problem in fact began the process of making racism socially and politically acceptable for a whole generation inadvertently giving birth to the Jim Crow era of American history **The Biafran War and Postcolonial Humanitarianism** Lasse Heerten, 2017-09-28 In the summer of 1968 audiences around the globe were shocked when newspapers and television stations confronted them with photographs of starving children in the secessionist Republic of Biafra This global concern fundamentally changed how the Nigerian Civil War was perceived an African civil war that had been fought for one year without fostering any substantial interest from international publics became Biafra the epitome of humanitarian crisis Based on archival research from North America Western Europe and Sub Saharan Africa this book is the first comprehensive study of the global history of the conflict A major addition to the flourishing history of human rights and humanitarianism it argues that the global moment Biafra is closely linked to the ascendance of human rights humanitarianism and Holocaust memory in a postcolonial world The conflict was a key episode for the re structuring of the

relations between the West and the Third World **Beyond the Founders** Jeffrey L. Pasley, Andrew W. Robertson, David Waldstreicher, 2009-11-04 In pursuit of a more sophisticated and inclusive American history the contributors to *Beyond the Founders* propose new directions for the study of the political history of the republic before the Civil War In ways formal and informal symbolic and tactile this political world encompassed blacks women entrepreneurs and Native Americans as well as the Adamses Jeffersons and Jacksons all struggling in their own ways to shape the new nation and express their ideas of American democracy Taking inspiration from the new cultural and social histories these political historians show that the early history of the United States was not just the product of a few founding fathers but was also marked by widespread and passionate popular involvement print media more politically potent than that of later eras and political conflicts and influences that crossed lines of race gender and class Contributors John L Brooke The Ohio State University Andrew R L Cayton Miami University Ohio Saul Cornell The Ohio State University Seth Cotlar Willamette University Reeve Huston Duke University Nancy Isenberg University of Tulsa Richard R John University of Illinois at Chicago Albrecht Koschnik Florida State University Rich Newman Rochester Institute of Technology Jeffrey L Pasley University of Missouri Columbia Andrew W Robertson City University of New York William G Shade Lehigh University David Waldstreicher Temple University Rosemarie Zagarri George Mason University
