The Detective As Historian:

The Detective as Historian Ray B. Browne, Lawrence A. Kreiser, Jr, 2013-02 Readers of detective stories are turning more toward historical crime fiction to learn both what everyday life was like in past societies and how society coped with those who broke the laws and restrictions of the times The crime fiction treated here ranges from ancient Egypt through classical Greece and Rome from medieval and renaissance China and Europe through nineteenth century England and America Topics include Ellis Peter's Brother Cadfael Umberto Eco's Name of the Rose Susanna Gregory's Doctor Matthew Bartholomew Peter Heck's Mark Twain as detective Anne Perry and her Victorian era world Caleb Carr's works and Elizabeth Peter's Egyptologist adventurer tales

The Detective as Historian Ray Broadus Browne, Lawrence A. Kreiser, 2000 The Detective as Historian Ray Browne, Lawrence Kreiser, 2009-03-26 Deeper understanding of history is enhanced by encasing it in art and interest Crime fiction is one of the widest and most rapidly growing forms of literature Historical crime fiction serves effectively the double purpose of entertaining while it teaches The truth of the narrative account the editors of this volume believe is dependent on the understanding of human nature reflected in the author who writes the narrative Historical crime fiction the editors of this volume write has an obligation and a golden opportunity It must bring the past up to the present through the device of timeless crime and it must take the reader into the world about which is being written so that the characters are alive and the events interesting and challenging Professional writers of fiction need to be more effective than mere authors of dates and assumed motivations Therefore they can fill in human motivations and drives where no records exist and can aid the professional historians in what historian David Thelen calls the challenge of history which is to recover the past and interpret it for the present The essays in this volume accept the challenge and make major accomplishments for meeting it

The Historian as Detective Robin W. Winks, 1969 Essays by noted historians of the past and present on the problems of investigation offer a series of intriguing case studies in the relationship between historical research and detective fiction

Sensing Law Sheryl Hamilton, Diana Majury, Dawn Moore, Neil Sargent, Christiane Wilke, 2016-11-25 A rich collection of interdisciplinary essays this book explores the question what is to be found at the intersection of the sensorium and law's empire Examining the problem of how legal rationalities try to grasp what can only be sensed through the body these essays problematize the Cartesian framework that has long separated the mind from the body reason from feeling and the human from the animal In doing so they consider how the sensorium can operate variously as a tool of power or as a means of countering the exercise of regulatory force The senses it is argued operate as a vector for the implication of subjects in legal webs but also as a powerful site of resistance to legal definition and determination From the sensorium of animals to technologically mediated perception the ways in which the law senses and the ways in which senses are brought before the law invite a questioning of the categories of liberal humanism And as this volume demonstrates this questioning opens up the both interesting and important possibility of

imagining other sensual subjectivities The Novel as Investigation JoAnn Cannon,2006-01-01 Detective fiction is a universally popular genre stories about the investigation of a crime by a detective are published all over the world and in hundreds of languages Detective fiction provides more than entertainment however it often has a great deal to say about crime and punishment justice and injustice testimony and judgment The Novel as Investigation examines a group of detective novels by three important Italian writers Leonardo Sciascia Dacia Maraini and Antonio Tabucchi whose conviction about the ethical responsibility of the writer manifests itself in their investigative fiction Jo Ann Cannon explores each writer s denunciation of societal ills in two complementary texts These investigative novels shed light on pressing social ills which are not particular to Italian society of the late twentieth century but are universal in scope Sciascia focuses on abuses of power and the death penalty Maraini on violence against women Tabucchi on torture and police brutality In addition each of these texts self reflexively explore the role of writing in society Sciascia Maraini and Tabucchi all use their fiction to defend the power of the pen to address il male del mondo The Novel as Investigation will be of interest to a broad audience of readers including those interested in Italian and comparative literature Italian social history and cultural studies **Writing Academic Texts Differently** Nina Lykke,2014-06-27 This edited volume combines cutting edge research on feminist and intersectional writing methodologies with explorations of links between academic and creative writing practices Contributors discuss what it means for academic writing processes to explore intersectional in between spaces between monolithic identity markers and power differentials such as gender race ethnicity class sexuality and nationality How does such a frame change academic writing How does it make it pertinent to explore new synergies between academic and creative writing In answer to these questions the book offers theories methodologies political and ethical considerations as well as reflections on writing strategies Suggestions for writing exercises developed against the background of the contributors individual and joint teaching practices will inspire readers to engage in alternative writing practices themselves *The Historian as Detective* Robin W.
