Love, Heterosexuality and Society Paul Johnson,2007-04-11 Heterosexuality is a largely silent set of practices and identities it is assumed to be everywhere and yet often remains unnamed and unexplored Despite recent changes in the theoretical understanding and representation of sexuality heterosexuality continues to be socially normative Forging a new agenda for the study of heterosexuality this in depth volume the first research monograph to focus on heterosexuality and society presents an empirical study of the construction negotiation and enactment of heterosexual sexuality Using detailed interview data it investigates how heterosexuality as both an identity and a set of practices is accomplished through love relationships Rather than assuming that romantic love is an outcome or expression of a pre defined sexuality Johnson explores how sexuality is brought to life through love Situated in the ongoing theoretical debates concerning the relationship between gender and sexuality Paul Johnson's book shows how ways of loving are interwoven with the construction practice regulation and government of heterosexuality Excellently written this important book also looks at gender in society and explores such areas as heterosexual subjectivities and the borders of desire As such the research it contains will be valuable for all students of sociology and gender studies **Space, Difference, Everyday Life** Kanishka Goonewardena,Stefan Kipfer,Richard Milgrom,Christian Schmid,2008-02-19 In the past fifteen years Henri Lefebvre's reputation has catapulted into the stratosphere and he is now considered an equal to some of the greats of European social theory Bourdieu Deleuze Harvey In particular his work has revitalized urban studies geography and planning via concepts like the social production of space the right to the city everyday life and global urbanization Lefebvre's massive body of work has generated two main schools of thought one that is political economic and another that is more culturally oriented and poststructuralist in tone *Space Difference and Everyday Life* merges these two schools of thought into a unified Lefebvrian approach to contemporary urban issues and the nature of our spatialized social structures Total Freedom Chris Matthew Sciabarra,2000 Building

upon his previous books about Marx Hayek and Rand Total Freedom completes what Lingua Franca has called Sciabarra's epic scholarly quest to reclaim dialectics usually associated with the Marxian left as a methodology that can revivify libertarian thought Part One surveys the history of dialectics from the ancient Greeks through the Austrian school of economics Part Two investigates in detail the work of Murray Rothbard as a leading modern libertarian in whose thought Sciabarra finds both dialectical and nondialectical elements Ultimately Sciabarra aims for a dialectical libertarian synthesis highlighting the need not sufficiently recognized in liberalism to think of the totality of interconnections in a dynamic system as the way to ensure human freedom while avoiding totalitarianism such as resulted from Marxism *Appearance and Reality in Politics* W. Dreams in Chinese Fiction Johannes D. Kaminski, 2024-06-07 This book considers the contemporary political formula of the Chinese Dream in the light of the treatment of dreams in Chinese literary history since antiquity Sinic literary and philosophical texts document an extensive spectrum of dream possibilities starting with Zhuangzi's eminent butterfly dream an early example of the inversion of the dreamer's reality through to confusing visions of the spiritual realm In classical dramas novels and ghost stories dreams see the earthly realm enter into conflict with higher realms of existence They indulge the dreamer's quest for sensual pleasures but then spiritual beings relentlessly harvest the dreamer's life energy Dreams promise spiritual enlightenment only to abandon the dreamer in a state of utter confusion In the early twentieth century traditional dream knowledge is abandoned in favour of Freudian episodes of sexual repression In this context the collective national dream emerges as an unexpected vehicle of the pained individual's hope for national rejuvenation [Women in Developing Countries](#) Kathleen A Staudt, Jane S Jaquette, 2013-05-13 Here is an insightful volume on the integration of women in the modernization process of developing countries with research studies on women and development in Guatemala Tanzania Indonesia and several other countries Drawing from theory and practice authorities examine how development in any kind of economy marginalizes women illustrate the existence of a feminist awareness among impoverished rural women demonstrate the importance of understanding the policy and program implementation institutions within which any transition toward more women sensitive change is to occur and suggest the kind of research that would be useful and credible to policymakers Each of the controversial chapters reflects a new phase in women and development research and each is a reminder that the fundamental issue women's subordination remains key to theory and practice in development [Globalization and Culture](#) John Tomlinson, 2013-07-03 Globalization is now widely discussed but the debates often remain locked within particular disciplinary discourses This book brings together for the first time a social theory and cultural studies approach to the understanding of globalization The book starts with an analysis of the relationship between the globalization process and contemporary culture change and goes on to relate this to debates about social and cultural modernity At the heart of the book is a far reaching analysis of the complex ambiguous lived experience of global modernity Tomlinson argues that we can now see a general pattern of the dissolution between cultural experience and

territorial location The uneven nature of this experience is discussed in relation to first and third world societies along with arguments about the hybridization of cultures and special role of communications and media technologies in this process of deterritorialization Globalization and Culture concludes with a discussion of the cultural politics of cosmopolitanism Accessibly written this book will be of interest to second year undergraduates and above in sociology media studies cultural and communication studies and anyone interested in globalization

Ollman, T. Smith, 2008-02-27 This anthology contains some of the more important Marxist thinkers now working on dialectics As a whole the book is an unusual Introduction to Dialectics a systematic restatement of what it is and how to use it a survey of most of the main debates in the field and a good picture of the current state of the art of dialectics **Dance of the Dialectic** Bertell Ollman, 2003 Bertell Ollman has been hailed as this country's leading authority on dialectics and Marx's method by Paul Sweezy the editor of *Monthly Review* and dean of America's Marx scholars In this book Ollman offers a thorough analysis of Marx's use of dialectical method Marx made extremely creative use of dialectical method to analyze the origins operation and direction of capitalism Unfortunately his promised book on method was never written so that readers wishing to understand and evaluate Marx's theories or to revise or use them have had to proceed without a clear grasp of the dialectic in which the theories are framed The result has been more disagreement over what Marx really meant than over the writings of any other major thinker In putting Marx's philosophy of internal relations and his use of the process of abstraction two little studied aspects of dialectics at the center of this account Ollman provides a version of Marx's method that is at once systematic scholarly clear and eminently useful Ollman not only sheds important new light on what Marx really meant in his varied theoretical pronouncements but in carefully laying out the steps in Marx's method makes it possible for a reader to put the dialectic to work in his or her own research He also convincingly argues the case for why social scientists and humanists as well as philosophers should want to do so
