

Social Context Of Theology A Methodological Enquiry

Robin Gill

Social Context Of Theology A Methodological Enquiry:

The Social Context of Theology Robin Gill, 1975 *Theology in a Social Context* Robin Gill, 2012 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology John Milbank dismissed the sociology of religion as a radically secularising discipline and championed an approach to theology now known as radical orthodoxy yet a decade later radical orthodoxy has lost a good deal of its support with critics arguing that it is too circular and enclosed within its own premises The time is now right to revisit the dialogue between theologians and sociologists prior to Milbank's intervention In this new trilogy on Sociological Theology Robin Gill makes a renewed contribution to mapping of three abiding ways of appropriately relating theology and interactionist sociology namely the social context of theology the social determinants of theology and the social significance of theology *The Social Context of Theology* Robin Gill, 1975 **Religion, spirituality and the social sciences** Basia Spalek, Alia Imtoul, 2008-09-03 A growing number of people are claiming or reclaiming a religious or spiritual identity for themselves Yet in contemporary Western societies the frameworks of understanding that have developed within the social science disciplines and which are used to analyse data are secular in nature and so may be inappropriate for investigating some aspects of religion spirituality and faith and how these intersect with individuals' lives This edited collection addresses important theoretical and methodological issues to explore ways of engaging with religion and spirituality when carrying out social science research Divided into three sections the book examines the notion of secularism in relation to contemporary western society including a focus upon secularisation explores how the values underpinning social scientific enquiry might serve to marginalise religion and spirituality and reflects on social science research methodologies when researching religion and spirituality With international contributions from key academics in the fields of religious studies cultural studies political science criminology sociology health and social policy this engaging book will provide social science students educators researchers and practitioners with an essential overview of key debates around secularism faith spirituality and social science research

Sociology and Theology David A. Martin, John O. Mills, W.S.F. Pickering, 2003-12-01 This study brings together two disciplines now more and more considered being conjuncted Both sociology and theology give an account of the human condition but the majority of sociologists and theologians have dismissed each other's views as irrelevant Updated reprint of the book with the same title published in 1980 by The Harvester Press Contributors John Orme Mills Eileen Barker Christopher Harris David Martin William Pickering W Donald Hudson Robin Gill Gregory Baum Timothy Radcliffe Antoine Lion Robert Towler **What is Social-scientific Criticism?** John Hall Elliott, Dan Otto Via, 1993 This book gives a clearly written authoritative introduction to social scientific criticism of the New Testament including the rise of this method its practitioners and the focal points of their work how the method is applied to the interpretation of the biblical text and the

presuppositions and procedures of the method Four appendices glossary two bibliographies **Second-Generation African Pentecostals in the West** Caleb Opoku Nyanni, 2021-01-11 The rise of African Pentecostal and Charismatic churches in the West has become a growing phenomenon and a starring feature in many social religious and political conversations Most of these discussions are generally centered on the first generation churches and their missionary attempt to evangelize the West In this book Caleb Nyanni offers a fresh insight into the African diaspora church from the perspective of the growing second generation members and their contributions to the life of the church He explores the changing nature of the African diaspora Pentecostalism by paying close attention to the Church of Pentecost in the United Kingdom which serves as a case study The book explores the frustrations challenges opportunities and culture of the second generation and examines what they bring to Pentecostalism in general Doing Contextual Theology Angie Pears, 2009-09-18 Christian theology like all forms of knowledge thinking and practice arises from and is influenced by the context in which it is done In Doing Contextual Theology Angie Pears demonstrates the radically contextual nature of Christian theology by focusing on five forms of liberation theology Latin American Liberation Theologies Black Theologies Feminist Informed Theologies Sexual Theologies Body Theologies Pears analyses how each of these asserts a clear and persistent link to the Christian tradition through The Bible and Christology and discusses the implications of contextual and local theologies for understanding Christianity as a religion Moreover she considers whether fears are justified that a radically contextual reading of Christian theologies leads to a relativist understanding of the religion or whether these theologies share some form of common identity both despite and because of their contextual nature Doing Contextual Theology offers students a clear and up to date survey of the field of contemporary liberation theology and provides them with a sound understanding of how contextual theology works in practice **The Letters of Paul** , 2011-09-01 The Interpreting Biblical Texts series presents a concise edition covering the seven undisputed epistles of Paul In this volume Charles Cousar is primarily concerned not with the man Paul and his life and work but with his surviving letters Part 1 introduces methods in reading the Pauline letters Part 2 attends to the critical themes emerging in the letters the decisiveness of Jesus Christ and old versus new life Part 3 discusses the other six letters bearing Paul s name that appear in the New Testament Revelation and Concealment of Christ Saeed Hamid-Khani, 2021-03-16 The elusive disposition of John s language has been noted by biblical scholars throughout the history of New Testament studies The Fourth Gospel is seen as so simple to grasp and yet often pointing beyond itself and beckoning the reader to read deeper Various socio linguistic studies have explained this feature as the reflection of the sectarian tendencies in the Johannine Christianity In his study Saeed Hamid Khani questions these approaches as inadequate In turn he examines John s language within an exegetical and theological framework He argues that the Sitz im Leben of Johannine language was an environment in which the Hebrew Scriptures were the dominant conceptual force for both the Jews and the Christians In this context he argues that the essential function of John s enigmatic language is wedded to the

Evangelist's purpose in writing the Gospel namely a steadfast focus upon setting forth that Jesus is the Christ according to the witness of Israel's Scriptures. It is here in these echoes and thematic allusions to the Scriptures that we find the answer to the function and significance of John's unique language i.e. Jesus is the Messiah the Saviour of the world and he is the visible image of the invisible God the embodiment of the self-revelation of God according to the Scriptures. However these truths are concealed from the undiscerning and are only revealed by the spirit of God to those who are born of God.

Social Context Of Theology A Methodological Enquiry Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Social Context Of Theology A Methodological Enquiry**," published by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
