Charles E. Curran

Social Justice Official Catholic Teachings:

Social Justice Vincent P. Mainelli, 1978 Official Catholic Teaching is a multivolume reference work composed of official documents of the Roman Catholic Church Jacket **Learning, Teaching and Social Justice in Higher Education** Noah Riseman, Sue Rechter, Ellen Warne, 2010 This book brings together a wide range of higher education practitioners from across disciplines Their chapters suggest innovative approaches to learning teaching and delivering a tertiary education experience that centres social justice as a core mission of universities The authors address the ways in which universities grapple with the challenges involved in the selection processes administration teaching and learning and student support associated with an increasingly large student population drawn from a broad range of socioeconomic and cultural backgrounds including many students who will be returning to live overseas Some of the specific challenges of these developments have included those of selection academic literacy independent learning student support and student engagement A second dimension is the traditional role of the universities as sources of independent intellectual and ethical critique of social institutions both in terms of research and public intellectual contribution to political and social policy debates and in terms of the formation of students in their capacities as critical ethical citizens and professionals This social ethical critique has traditionally been built into the humanities and the social science disciplines and the helping professions but has now found its way into other disciplines and professional areas such as business and engineering As well broader social policy and political discourse has more explicitly embraced social ethical agendas of inclusiveness and marginalisation of social groups recognition of the damage to the overall society of enduring and increasing social inequality BOOK JACKET *Official Catholic Teachings: Social Justice*, 1978 **Change in Official Catholic Moral Teachings** Charles E. Curran, 2003 This volume brings together previously published studies presenting the spectrum of opinion on the change in official Catholic moral teachings

Social Justice from Outside the Walls Ann Youngblood Mulhearn, 2023-12-15 Social Justice from Outside the Walls Catholic Women in Memphis 1950 1970 by Ann Youngblood Mulhearn examines the intersections of faith race and gender within the social justice movements in twentieth century Memphis Tennessee Weaving together the biographies of six Catholic women and drawing upon the activists own published writing and personal interviews this book disrupts assumptions that racial and social justice was primarily a Protestant concern Motivated by the tenets of their Catholic faith these women both Black and white used existing social political and religious organizations to further the causes of racial and social justice When these structures were not available the women created them transforming traditional women s organizations into vehicles of social and political activism As a small representation of progressive Catholics active in the South these six Catholic women redefined their perceptions and expectations of themselves both as women and Catholics In doing so they challenged contemporary gender norms as well as the patriarchal hierarchy of the Catholic Church Their intertwined stories highlight the significant contributions made by Catholics and Catholic theology to the civil rights

movement on the local level and further refine our understanding of larger national movements

Modern Catholic Social Teaching Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII s *Rerum Novarum* The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI s encyclical *Caritas in Veritate* and one on Pope Francis s encyclical *Laudato Si* An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching

Catholic Social Teaching, 1891-Present Charles E. Curran, 2002-03-30 Charles E Curran offers the first comprehensive analysis and criticism of the development of modern Catholic social teaching from the perspective of theology ethics and church history Curran studies the methodology and content of the documents of Catholic social teaching generally understood as comprising twelve papal letters beginning with Leo XIII s 1891 encyclical *Rerum novarum* two documents from Vatican II and two pastoral letters of the U S bishops He contends that the fundamental basis for this body of teaching comes from an anthropological perspective that recognizes both the inherent dignity and the social nature of the human person thus do the church s teachings on political and economic matters chart a middle course between the two extremes of individualism and collectivism The documents themselves tend to downplay any discontinuities with previous documents but Curran s systematic analysis reveals the significant historical developments that have occurred over the course of more than a century Although greatly appreciative of the many strengths of this teaching Curran also points out the weaknesses and continuing tensions in Catholic social teaching today Intended for scholars and students of Catholic social ethics as well as those involved in Catholic social ministry this volume will also appeal to non Catholic readers interested in an understanding and evaluation of Catholic social teaching

Spirituality, Social Justice and Language Learning David I. Smith, Terry Osborn, 2007-02-01 This book sets out to explore the intersections between matters not frequently yoked in academic discussions spirituality social justice and the learning of world languages The contributing authors contend not only that these intersections exist but that they are the site of issues and realities that require the attention of language educators and point to avenues of growth for the language teaching profession The essays included seek to indicate the possibilities of a neglected area of inquiry not only in terms of theory but also in terms of the practices of language education Given this aim of opening up fresh questions the book is arranged so as to show the relevance of the nexus of spirituality and social justice to teacher education chapters 3 and 4 language classroom

practices chapters 5 and 6 and the theoretical sources that inform scholarly discussion of language education chapters 7 and 8 The opening chapters place these explorations in a larger context by showing how they fit into existing social contexts and academic discussions

Catholic Social Teaching in Practice Andrew M. Yuengert, 2023-05-31 Although the virtues are implicit in Catholic Social Teaching they are too often overlooked In this pioneering study Andrew M Yuengert draws on the neo Aristotelian virtues tradition to bring the virtue of practical wisdom into an explicit and wide ranging engagement with the Church s social doctrine Practical wisdom and the virtues clarify the meaning of Christian personalism highlight the irreplaceable role of the laity in social reform and bring attention to the important task of lay formation in virtue This form of wisdom also offers new insights into the Church s dialogue with economics and the social sciences and reframes practical political disagreements between popes bishops and the laity in a way that challenges both laypersons and episcopal leadership Yuengert s study respects the Church s social tradition while showing how it might develop to be more practical By proposing active engagement with practical wisdom he demonstrates how Catholic Social Teaching can more effectively inform and inspire practical social reform

The Costa Rican Catholic Church, Social Justice, and the Rights of Workers, 1979-1996 Dana Sawchuk, 2006-01-01 Provides a new understanding of the relationship between Church and State in 20th century Costa Rica Understanding the relationship between religion and social justice in Costa Rica involves piecing together the complex interrelationships between Church and State between priests popes politics and the people This book does just that Dana Sawchuk chronicles the fortunes of the country s two competing forms of labour organizations during the 1980s and demonstrates how different factions within the Church came to support either the union movement or Costa Rica s home grown Solidarity movement Challenging the conventional understanding of Costa Rica as a wholly peaceful and prosperous nation and traditional interpretations of Catholic Social Teaching this book introduces readers to a Church largely unknown outside Costa Rica Sawchuk has carefully analyzed material from a multitude of sources interviews newspapers books and articles as well as official Church documents editorials and statements by Church representatives to provide a firmly rooted socio economic history of the experiences of workers and the Catholic Church s responses to workers in Costa Rica
