Fiona Williams, *Social Policy: A Critical Introduction: Issues of Race, Gender and Class*. Polity Press/Basil Blackwell, Cambridge, 1989. 236 pp. £29.50, paper £7.95.

My own university department recommends six texts to our current first year social policy students. One is Fiona Williams' wide-ranging and innovative volume: the other five bear out her contention that such texts commonly acknowledge feminist critiques of social policy curiously, if at all, while making little or no acknowledgement of racism or race-related policies. Williams argues (p.xi) that race, gender and class 'as interrelated and specific issues are central to an understanding of the welfare state'. *Social Policy: A Critical Introduction*, offers a tripartite framework for the study of welfare drawn from feminism, the political economy of welfare and work on race and racism.

The book focuses first on social policy (alias social administration) as an academic discipline. Indeed, the story of how 'social administration' is being re-titled 'social policy' is encapsulated within Williams' account of the subject's development as a highly empirical area of study in the Fabian tradition to the point where mainstream social policy was roundly challenged in the 1970s by the re-emergence of other perspectives from Left and Right. Williams argues that for three decades following World War II the subject held to a tradition of empiricism and pragmatism, linked to an idealism which maintained that change could be brought about by the production of evidence and rational debate. Issues of race and gender were, however, missing from this agenda.

Williams examines in detail the different perspectives on social welfare which have come to transform social policy into a more theoretical discipline, if one which continues to marginalise a body of knowledge derived from feminism and work on race and racism. Using a wide variety of source material, Williams explains and analyses the emergence of a Marxist critique on the one hand and an anti-collectivist (New Right) perspective on the other, pointing out that contemporaneously (and largely unacknowledged by mainstream social policy) the women's movement was developing a feminist critique while (totally ignored) a 'powerful critique' of race relations policies was also emerging. She also illustrates how the Fabian tradition of social policy (replete with familial and nationalistic overtones in the earlier part of this century) began to fragment into distinct and differing strands in the 1970s.

The middle section of the book addresses feminist critiques of the welfare state, noting in detail the various approaches to feminism (libertarian to radical) which underpin such critiques, raising theoretical questions and social policy issues to challenge mainstream teaching and research in the discipline. There is an extended examination of the black feminist critique of white feminism which forms a useful preamble to a path-breaking chapter which sets out a prospectus for the development of an anti-racist critique of the welfare state. This addresses pertinent material which most accounts of social policy leave out and examines
