Social Work Interventions Helping People Of Color:

Social Work Interventions George Henderson, 1994-08-30 This book provides a holistic study of the physical and mental health conditions that predominate among people of color. By presenting a thorough review of Third World cultural values, beliefs, and behaviors centering on health care, Henderson lays a firm foundation for understanding traditional non-Western cultures. Since immigrants, women, and people of color will be 85% of the net growth in the work force by the year 2000, human services professionals who assist people of color in state, county, and municipal agencies, nonprofit organizations, hospitals, and nursing homes will be challenged to provide assistance to an increasing number of culturally diverse clients.

Social Work Practice and People of Color Doman Lum, 2004 This text offers a practical and well-defined five-stage model of social work practice with culturally diverse communities. While the book specifically looks at practice with persons of color—African American, Asian American, Latino, and First Nations people—it is intended to be relevant for culturally and ethnically sensitive practice with any individual or population.

Social Work Practice & People of Color Doman Lum, 1992

A HUMAN RELATIONS APPROACH TO MULTICULTURALISM IN K-12 SCHOOLS George Henderson, 2013-06-01

Explicit in this book is the author's belief that it is not enough to say that Americans live in culturally diverse and stratified communities in which educational opportunities are not distributed fairly, nor is it enough to reiterate that most educational opportunities are not based solely on students' academic abilities. Rather, elementary and secondary school personnel must be involved in abating these problems. The book is not meant to be read passively by teachers and teacher candidates; it is intended to be a dialogue that encourages discussion and, when possible, action. Explicit throughout each chapter is the belief that how teachers teach a course matters as much as what is taught. Each chapter is written to achieve four major objectives: 1) to discuss key societal factors that positively or negatively affect the quality of instruction students receive in elementary and secondary schools; 2) to discuss selected racial and ethnic groups' beliefs, attitudes, and behaviors that characterize teaching personnel, students, and parents; 3) to present seminal research studies and their implications for educating elementary and secondary students; and 4) to provide practical suggestions for abating or preventing selected human relations problems in schools. Chapters include: Challenges for Educators; Human Relations in Education; Caring About All Students; Teachers as Professional Helpers; Stress, Anxiety, and Coping; Parents Are People Too; and Student Teachers. In addition, the

text seeks to 1 discuss educational reforms that served well in the past but must be altered or abandoned to fit current educational imperatives 2 discuss a wide variety of issues problems and strategies for change that offer readers a balanced view of challenges affecting administrators teachers counselors students and parents 3 employ a scaffolding or spiral approach to topics and 4 offer special attention to the effects of race ethnicity gender sexual orientation nationality and family income on students their parents and teachers Although the book is written primarily for students interested in pursuing careers as elementary or secondary school teachers it should also be of value to experienced teachers as well as school administrators counselors parents and policy makers The text may also complement and supplement other textbooks used in university courses focused on human relations related topics

Case-Based Learning for Group Intervention in Social Work Jacqueline Corcoran,2020 Case Based Learning for Group Intervention in Social Work provides essential information on planning and facilitating groups in a clear and easy to understand format To develop student competency the volume uses a contemporary pedagogy case based learning as a teaching tool for analysis application and decision making By working through cases students gain exposure to the considerable range of populations that can be served by social work group intervention

Psychosocial Aspects of Disability George Henderson,Willie V. Bryan,2004 Cultural Diversity. Inclusion and Justice George Henderson,2020-05-18 This book is not an impersonal academic treatise on social justice activism but instead the author s description of what social justice activism has looked like through the prism of his eyes The methods of the book are straightforward using historical current and personal data all of which were inextricably entwined The text focuses on the truth that bigotry is perpetuated by countless white black and brown people More important than academic debates about bigotry the book is about negating or preventing bigotry The author reviews historical incidents and also tells portions of his own life stories His goal is to help readers know his perceptions of bigotry and then compare and contrast his perceptions with their own The text is organized in major topics Beginnings of Bigotry Creation of a Nation Migrants Immigrants and Slaves Quest for Civil Rights Women s Rights Movement Disability Rights Movement Elder Rights Movement LGBTQ Rights Movement Social Class Matters and Going Forward This book is written to be actively read and to initiate meaningful conversations about social justice The primary audiences for the text are college students who are majoring in social and behavioral sciences social work and health care The book will also be a valuable resource to teachers community activists and other persons who want to enhance their knowledge of racism sexism homonegativity ableism ageism xenophobia and classism

My Mother's Dream George Henderson,2024-07-31 From the Preface The primary audience for this book is first generation college students Whether they are in two year or four year colleges I give the readers an example of the power of a parent s dream the positive and negative outcomes of a student s hard work the stuff caring teachers and supportive school administrators are made of and the significance of resilience tenacity and self growth Hopefully my story will give those who read this book a dose of what stick to itiveness means up close and personal My

foremost message to first generation and other generation students is to ask for help when you are stumped seize whatever opportunities to help you improve and do your best work Secondly this book is written for teachers school counselors nurses and other personnel who help students during their educational journeys Their assistance can be helpful or hurtful to whatever generation of students they are helping What they do to students and how they do it matters hugely Thirdly this book is written for professional helpers who are not school related but who want to become better helpers in other careers Lastly this book is written for people who are not professional helpers but are curious about the travails and struggles of poverty stricken people like me and my family I have had a long tedious journey from illiteracy to literacy from segregation to desegregation from poverty to affluence and from disliking people who came from cultures different from my own to loving them Nonviolent theories and behavior were like a river flowing through my life slowly during my childhood and adolescence and rapidly after I enrolled in college The Civil Rights Movement is the name of that river It was the foremost foundation upon which I built my philosophy of helping other people So of course the Reverend Dr Martin Luther King Jr was my hero role model and guide His words and strategies of change are generously sprinkled throughout the later chapters of this book
