The Colors of Poverty Ann Chih Lin,David R. Harris,2008-08-14 Given the increasing diversity of the nation particularly with respect to its growing Hispanic and Asian populations why does racial and ethnic difference so often lead to disadvantage In The Colors of Poverty a multidisciplinary group of experts provides a breakthrough analysis of the complex mechanisms that connect poverty and race The Colors of Poverty reframes the debate over the causes of minority poverty by emphasizing the cumulative effects of disadvantage in perpetuating poverty across generations The contributors consider a kaleidoscope of factors that contribute to widening racial gaps including education racial discrimination social capital immigration and incarceration Mich le Lamont and Mario Small grapple with the theoretical ambiguities of existing cultural explanations for

poverty disparities They argue that culture and structure are not competing explanations for poverty but rather collaborate to produce disparities Looking at how attitudes and beliefs exacerbate racial stratification social psychologist Heather Bullock links the rise of inequality in the United States to an increase in public tolerance for disparity She suggests that the American ethos of rugged individualism and meritocracy erodes support for antipoverty programs and reinforces the belief that people are responsible for their own poverty Sociologists Darren Wheelock and Christopher Uggen focus on the collateral consequences of incarceration in exacerbating racial disparities and are the first to propose a link between legislation that blocks former drug felons from obtaining federal aid for higher education and the black white educational attainment gap Joe Soss and Sanford Schram argue that the increasingly decentralized and discretionary nature of state welfare programs allows for different treatment of racial groups even when such policies are touted as race neutral They find that states with more blacks and Hispanics on welfare rolls are consistently more likely to impose lifetime limits caps on benefits for mothers with children and stricter sanctions The Colors of Poverty is a comprehensive and evocative introduction to the dynamics of race and inequality The research in this landmark volume moves scholarship on inequality beyond a simple black white paradigm beyond the search for a single cause of poverty and beyond the promise of one magic bullet solution A Volume in the National Poverty Center Series on Poverty and Public Policy

Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

The Challenges of the New Social Democracy Raju J. Das, Jamie Gough, Aram Eisenschitz, 2023-07-10 Raju J Das Jamie Gough and Aram Eisenschitz provide a Marxist critique of new social democracy as the dominant contemporary strategy for local economic and social development In both the global North and South new social democracy seeks to develop social capital strengthen civil society build not for profit enterprises encourage self help and foster community ties It seeks participatory forms of local politics to achieve a local class consensus It promises to improve people's economic and social conditions in the face of neoliberal capitalism and to empower them The authors argue that this strategy is severely limited by and internalises its capitalist environment They show that social enterprise can be developed in socialist ways and contribute to a local politics based in class struggle But social capital cannot replace the struggle of the exploited and oppressed against capitalism and for a socialist society a strategy which the authors outline for the local scale
