C. Gunzburg,1973-01      *Learning About Learning Disabilities* Bernice Wong,2011-10-13 Bernice

Wong's Learning about Learning Disabilities was the first text to give equal attention to the intellectual conceptual and practical aspects of learning disabilities. The Third Edition of this popular title presents 80% new material keeping the chapters up to date in this fast moving field. With new contributors and seven new chapters coverage is both comprehensive and thorough with three sections encompassing the research aspects of learning disabilities, the instructional aspects of learning disabilities and the issues germane to different age ranges of the learning disabled children, adolescents and adults. Chapters summarizing research on learning disabilities include coverage of ADHD, memory, language processing, social competence, self regulation and brain structures as they apply to learning disabilities. Chapters focusing on instructional aspects of learning disabilities include coverage of teaching literacy, reading comprehension, writing and mathematics. Readers will find Learning About Learning Disabilities Third edition suitable for use as a reference source for researchers or a graduate level text. Reviews from previous editions: An undergraduate text that strikes a careful balance between the intellectual, psychological and practical aspects of learning disabilities. BOOK NEWS INC: This text provides a balanced focus on both the conceptual and practical aspects of learning disabilities. Its research coverage is more comprehensive and of greater depth than any other LD textbook and it is distinctive in its treatment of such important areas as consultation skills and service delivery. CHILD ASSESSMENT NEWS: Learning About Learning Disabilities provides a broad overview of some important issues in relation to the education and development of pupils with learning disabilities. Wong has succeeded in providing detailed descriptions and comments within a book which covers a broad range of topics. Without exception the chapters are clearly written and accessible and many provide the reader with challenging ideas and practical suggestions. BRITISH JOURNAL OF SPECIAL EDUCATION: Provides a balanced focus on both the conceptual and the practical aspects of learning disabilities. Research coverage more comprehensive and of greater depth than any other textbook about learning disabilities. The work is distinctive in its treatment of such important areas as consultation skills and service delivery.

**Habilitation of the Handicapped** Marvin Rosen, Gerald R. Clark, Marvin S. Kivitz, 1977      **Quality of Life for Handicapped People** Roy I. Brown, 2021-06-30. First published in 1988. Quality of Life for Handicapped People examines developments and innovations in research and practice concerning the quality of life for those with disabilities. The book centres on the topic of rehabilitation education with a particular focus on issues relating to quality of life including what is meant by quality of life and the measures and systems required to assess the variables involved. It highlights the significance of rehabilitation education in underlining the key issue of how individuals feel about themselves and how they perceive the services available to them for the purpose of rehabilitation. It considers the importance of environment and the improvement of environment in increasing quality of life and examines a range of vocational and social programmes from a variety of perspectives. Quality of Life for Handicapped People will be of use to those with an interest in the history and development of rehabilitation education.      Models for Effective Service Delivery in Special Education Programs Epler, Pam, 2014-12-31

Educators today are challenged with the task of designing curricula and standards for students of varying abilities While technology and innovation steadily improve classroom learning teachers and administrators continue to struggle in developing the best methodologies and practices for students with disabilities Models for Effective Service Delivery in Special Education Programs brings together case studies and academic research on successful classroom models and practices to provide rewarding learning environments for students with disabilities This publication is an essential reference source for special education teachers supervisors directors and administrators as well as academicians and researchers interested in developing special education programs within school districts and classrooms

**Spatial Orientation** Herbert Pick, 2012-12-06 How do people know where in the world they are How do they find their way about These are the sort of questions about spatial orientation with which this book is concerned Staying spatially oriented is a pervasive aspect of all behavior Animals must find their way through their environment searching efficiently for food and returning to their home areas and many species have developed very sophisticated sensing apparatus for helping them do this Even little children know their way around quite complex environments They remember where they put things and are able to retrieve them with little trouble Adults in societies across the world have developed complex navigational systems for helping them find their way over long distances with few distinctive landmarks People across the world use their languages to communicate about spatial orientation in problems of simple direction giving and spatial descriptions as well as problems of long range navigation

*Psychology and Education of Slow Learners* Roy I. Brown, 2017-09-13 Originally published in 1976 this introductory text for those intending to work with slow learners was concerned with the practical implications of recent British and North American research in the field of psychology and education at the time Slow learners are young people who for a variety of reasons continuously or for long periods under function in terms of intelligence educational attainment and social skills This book offers a clear analysis of the problems facing slow learners their psychology and the types of education open to them Dr Brown reassesses the needs of disabled children and adults in the context of their families with the emphasis on the practical level of activity and training possible for them The aim is the integration of the disabled person in society and the belief is that services for the disabled should be integrated with no professional person working on an isolated basis but as part of a multidisciplinary professional team Design for individuals entering the field of teaching particularly those concerned with special education training and rehabilitation programmes the book should also be of value to social workers psychologists and other professional people working in the field as well as to parents of disabled children
