Social Structure In Italy Crisis Of A System:

Social Structure In Italy Sabino Acquaviva, 2019-06-21 This book demonstrates that twentieth century social stratification and the distribution of political and economic power in Italy cannot be properly understood without carefully analyzing the historical dynamics of the development of Italian society This analysis is also needed to explain the woeful economic and governmental and administrative performance of the strata that finally reached the levers of power The Italian society and social and political system are in a crisis development is uneven and the bureaucratic structures are in shambles The roots of this crisis lie in the endemic underdevelopment typical of the second half of the nineteenth century Clearly they cannot be attributed to the historic failures of Fascism Democracy Catholicism or Marxism in Italy but they are the outcome of a long history of underdevelopment followed by extremely uneven regional evolution leading to tremendous cleavages between ultra modern and utterly antiquated phenomena the juxtaposition of flexibility and rigidity of optimistic enthusiasm and hidebound traditionalism of extreme wealth and abysmal poverty of high and low levels of earnings and of a maladjusted ill functioning uneasy combination of agricultural industrial and post industrial society All this is aggravated by the crisis in the church and by the North South situation in which many millions of people have migrated from the South to the North and by the ensuing struggle between a mass of lumpen proletarians and proletarian immigrants from the South who are exploited as a work force for the industrial development of the North

Trends in Social Systems: Quantitative Theories and Quantitative Models Antonio Maturo, Šárka Hošková-Mayerová, Daniela-Tatiana Soitu, Janusz Kacprzyk, 2016-08-26 The papers collected in this volume focus on new perspectives on individuals society and science specifically in the field of socio economic systems The book is the result of a scientific collaboration among experts from Alexandru Ioan Cuza University of Ia i Romania G d Annunzio University of Chieti Pescara Italy University of Defence of Brno Czech Republic and Pablo de Olavide University of Sevilla Spain The heterogeneity of the contributions presented in this volume reflects the variety and complexity of social phenomena The book is divided in four Sections as follows The first Section deals with recent trends in social decisions Specifically it aims to understand which are the driving forces of social decisions The second Section focuses on the social and public sphere Indeed it is oriented on recent developments in social systems and control Trends in quantitative theories and models are described in Section 3 where many new formal mathematical statistical tools for modelling complex social phenomena are presented Finally Section 4 shows integrative theories and models particularly it deals with the ethical cultural and political approaches to social science the pedagogical methods and the relationship between literature politics religion and society The book is addressed to sociologists philosophers mathematicians statisticians people interested in ethics and specialists in the fields of communication social and political sciences **The Impasse Of European Communism** Carl Boggs, 2019-07-11 The major Communist parties in Western Europe claim a commitment to a democratic road to socialism Often this is a genuine evolution of traditional Marxist Leninist ideology based on the assumption that political and economic power can be obtained through gradual change rather than revolution and through the utilization of democratic processes

How well is this strategy working Not very well concludes the author of this book Carl Boggs bases his analysis on a theoretical assessment of the historical and strategic development of Eurocommunism of those parties and movements notably in France Italy and Spain that seek a transition to socialism based on the democratization of existing political and economic structures the so called parliamentary road to socialism After examining the logic and premises of this conception he moves to a critique of the major Eurocommunist theoreticians e g Togliatti Berlinguer Ingrao Napolitano Carrillo Marchais Elleinstein Poulantzas and Claudin He concludes that their ideas fail to resolve the historic Marxist conflict between democratization and rationalization understood here in terms of the drive toward statism bureaucratization and further refinement of the social division of labor under capitalism In fact says Dr Boggs Eurocommunism will probably represent a sort of historical resolution of legitimation and production crises within Mediterranean capitalism that extends rather than overturns hierarchical social and authority relations the capitalist state and the social division of labor Such a resolution might broadly parallel the function of social democracy in Northern Europe in a previous phase of capitalist development
