Johnson Mark, Haluk Soydan, Charlotte Williams, 2002-01-31 Social Work and Minorities examines the new challenges presented to Social Workers throughout Europe by the complex problems occasioned by increased migration and settlement and the growing awareness of the specific needs of refugees and asylum seekers Contributors use illustrative examples from throughout Europe to examine key concepts such as globalization assimilation visibility multi culturalism racism marginalization and social exclusion Social Work and Minorities will be an essential resource for social work students practitioners and educators working with migrant communities throughout Europe **Social Work in Europe** Charlotte Williams, Mekada Graham, 2013-09-13 It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed and indeed perceptively unsettled by increased migrations across nations and by the asserted presence of established minorities within their borders The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety Encounters with such diversity are part and parcel of the social work task and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions However the moral and political dimensions of the role scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe It extends the debates on inter cultural and race equality practice in social work through a stimulating and innovative collection of contributions This book was originally published as a special issue of the *European Journal of Social Work* European Social Work After 1989 Walter Lorenz, Zuzana Havrdová, Oldřich Matoušek, 2020-09-01 This book presents a unique analysis of the learning derived from East West contacts in social work and reflects on the discipline's inalienable trans national dimensions of high actuality in the face of the re emergence of nationalisms The fundamental transformations in Europe subsequent to the revolutions of 1989 had a profound impact on social work in terms of raising sharply the profession's relationship with politics The exchanges between western schools of social work and the emergent academic partner institutions in former Communist countries formed a valuable testing ground for the essential principles and competences of social work in terms of their universal scientific basis on the one hand and their regard for cultural and national values and contexts on the other The chapters in this contributed volume focus on lessons derived from fundamental social and political transformations highlighted by East West encounters and intra national divisions and thereby have important messages for mastering impending transformations in the light of the global COVID 19

health crisis They demonstrate how cultural and social divisions can be addressed constructively with direct implications for training and practice in dramatically changing contexts Lithuanian social work s claim to professional autonomy vs authoritarianism in popular and political culture Social work between civil society and the state lessons for and from Hungary in a European context When Europe s East West North and South meet learning from cross country collaboration in creating an international social work master programme Nordic Baltic cooperation in social work researcher education A Finnish perspective on the impact on scientific historical and linguistic similarities and differences Intra national similarities and differences in social work and their significance for developing European dimensions of research and education Social work political conflict and European society reflections from Northern Ireland European Social Work After 1989 East West Exchanges Between Universal Principles and Cultural Sensitivity is an invaluable resource for social work educators social work practitioners confronted with national and international divisions students of social work of social administration and policy and any policy researcher with a comparative focus *Social Work in a Diverse Society* Williams, Charlotte, Graham, Mekada J.,2016-04-13 Understanding how to work with racially and ethnically diverse populations is crucial to effective social work practice and planning and it will only become more so as society continues to become more diverse This textbook brings together academics and practitioners who draw on real life scenarios and detailed case studies to help social workers consider the many dimensions of working in a diverse society and to enable them to uncover innovative well tailored ways to ensure successful delivery of essential services Handbook of International Social Work Lynne M. Das, 2013-01-28 Divorce has become a form of family change in contemporary western societies spawning much research to investigate its causes and consequences Such research has promoted a sociological understanding of divorce impact on families and individuals as well as implications for public policy However research in this domain has been largely restricted to white populations in western contexts as well as adhering to quantitative research methodologies There is little understanding of the dynamics of minority ethnic families sometimes resulting in false assumptions and over generalizations about family structures stability and transitions in these communities The impact of this gap in knowledge leads to perspective blocks in terms of how minority ethnic families are conceived in the public sphere as well as in academia Similar to other minority ethnic groups there is little literature on divorce in South Asian families Though traditionally divorce rates within South Asian communities were low there is now an upward trend This is the first book to analyze the experiences of British Indian adult children of divorce and contextualize their experiences within the larger multi cultural polity of the UK It also discusses the value and implications of understanding the divorce phenomenon and how it is experienced within this community to present insights into what multi cultural social work and knowledge can mean This can also enhance support provision for all children and enable better coping of family transitions by acknowledging their specific contexts and needs
