Socialism And Morality:

Socialism and Morality David McLellan, Sean Sayers, 1990 What is the role of moral values in socialism Can socialism be scientific or is it essentially an ethical doctrine Is there any place for morality in Marxism These questions are central to much recent controversy on the Left *Socialism and Morality* contains a variety of original and important contributions to these debates by a distinguished group of philosophers and political theorists All the papers were specially written for this volume and make a lively wide ranging and valuable contribution to the current debate *Marxism and Morality* Steven Lukes, 1985 It is reported that the moment anyone talked to Marx about morality he would roar with laughter Yet plainly he was fired by outrage and a burning desire for a better world This paradox is the starting point for *Marxism and Morality* Discussing the positions taken by Marx Engels and their descendents in relation to certain moral issues Steven Lukes addresses the questions on which Marxist thinkers and actors have taken a number of characteristic stands as well as other questions personal relations and the moral virtues of the individual for example on which Marxism falls silent A provocative exploration of the gray area where Marxism and morality meet this book argues that Marxism makes a number of major moral claims and that its appeal has always been in large part a moral one *Socialist Humanism* Donald Clark Hodges, 1974 *Encyclopædia of Religion and Ethics: Sacrifice-Sudra* James Hastings, John Alexander Selbie, Louis Herbert Gray, 1920 Scope theology philosophy ethics of various religions and ethical systems and relevant portions of anthropology mythology folklore biology psychology economics and sociology *Our Destiny; the Influence of Nationalism on Morals and Religion* Laurence Gronlund, 1891 **The Ethics of Socialism** Ernest Belfort Bax, 1902 **The Ethics of Socialism** Bax, 1893 Socialism Correa Moylan Walsh, 1917 **Socialism as a moral movement** Dudley Julius Medley, 1884

After Socialism Ellen Frankel Paul, Fred Dycus Miller, Jeffrey Paul, 2003 In this collection twelve philosophers historians and political philosophers scholars with a diverse set of disciplinary and political leanings assess aspects of socialism in light of its recent reversals Some of the essays consider what made the socialist project seem compelling to its advocates examining the moral and political values that made socialism appealing to intellectuals Others evaluate whether there are aspects of socialism that ought to be preserved such as its quest for equality and community Some essays examine whether free market systems need to be further modified in response to ongoing socialist critiques Several others argue for the continuing validity of socialism in its social democratic incarnation suggesting ways in which socialism may still have a productive future Still others condemn the socialist project as inherently misguided in theory while also portraying really existing socialism as cataclysmic in practice
