Socialist Economics Selected Readings Penguin Education:

Socialist Economics Alec Nove, Domenico Mario Nuti, 1974 *Socialist Economics* Alec Nove, 1976 **The Contradictions of "Real Socialism"** Michael A. Lebowitz, 2012-08-01 What was real socialism the term which originated in twentieth century socialist societies for the purpose of distinguishing them from abstract theoretical socialism In this volume Michael A Lebowitz considers the nature tendencies and contradictions of those societies Beginning with the constant presence of shortages within real socialism Lebowitz searches for the inner relations which generate these patterns He finds these in particular in what he calls vanguard relations of production a relation which takes the apparent form of a social contract where workers obtain benefits not available to their counterparts in capitalism but lack the power to decide within the workplace and society While these societies were able to claim major achievements in areas from health care to education to popular culture the separation of thinking and doing prevented workers from developing their capacities as fully developed human beings The relationship within real socialism between the vanguard as conductor and a conducted working class however did not only lead to the deformation of workers and those elements necessary for the building of socialism it also created the conditions in which enterprise managers emerged as an incipient capitalist class which was an immediate source of the crises of real socialism As he argued in *The Socialist Alternative Real Human Development* Lebowitz stresses the necessity to go beyond the hierarchy inherent in the relation of conductor and conducted and beyond the vanguard Marxism which supports this to create the conditions in which people can transform themselves through their conscious cooperation and practice i e a society of free and associated producers *Socialist Economics* Alec Nove, D. M. Nuti, 1972

Economies in Transition Allan E. Young, Ivan Teodorovi?, Peter Koveos, 2002 To date the record of economic transition has decidedly been mixed The worldwide political climate is still in favor of economic reform and the process continues to have considerable momentum On the other hand this process now faces a number of formidable obstacles There appears to be general agreement that in many countries the promise of a better standard of living which economic transition offers to the mass of the citizenry has failed to produce the rapid and dramatic results hoped for There is an increasing conflict of interest between multinational firms and the national business community Moreover many transition economies have experienced a slowing of economic growth in real terms and social services have been severely cut This book deals with the development of those forces that have played a major role in the successes and failures of economic transition Its distinctive feature is that it does this from the perspective of economic political and social analysis taking into account both theoretical constructs and economic realities for those countries which have attempted the grand experiment with economic transition

The Legacy of Janos Kornai Mehrdad Vahabi, 2025-08-03 This book examines the intellectual legacy of economist Janos Kornai and explores his unique contribution to economics It addresses the key themes within Kornai's work and shows how his ideas relate to the leading figures within economics After highlighting the influence of Marx and Hayek on Kornai his

major contribution to comparative economics and analysis of capitalist and socialist economic systems is examined How they fed into his conceptualization of hard and soft budget constraints and complemented his work on economic theory in particular debates around Walrasian and Marshallian equilibrium theory is also discussed This book offers insight into the work of Janos Kornai and his impact upon economics It will be of relevant to students and researchers interested in the history of economic thought and comparative economics

Historians of Economics and Economic Thought Steven G Medema, Warren J. Samuels, 2001-08-16 This collection summarizes the work of key historians of economics and attempts to quantify their impact The collection is authored by an impressive list of contributors many of whom are themselves well known in this field

Central Europe Lonnie Johnson, 1996 Throughout the ages small nations struggled valiantly against a series of imperial powers Ottoman Turkey Habsburg Austria imperial Germany czarist Russia Nazi Germany and the Soviet Union and they lost regularly Johnson's account is present minded in the best sense in describing actual historical events he illustrates the ways they have been remembered and how they contribute to the national assumptions that still drive European politics today

Chinese Business Under Socialism Dorothy J. Solinger, 1987

Vietnamese Society in Transition John Kleinen, 2001 In this bilingual publication English and French academics from various disciplines and countries including Vietnam have been brought together to discuss agricultural engineering economic development religion education and gender in colonial and post colonial Vietnam Most of them are taking an insiders position The emphasis of the book lies on the postwar societal and cultural transformations in the country A better understanding of new social and cultural ways in contemporary Vietnam entails excursions into the past and sound comparison For the first time in the history of Vietnamese studies chapters are devoted to the position of women in colonial and post colonial settings and on the legitimacy of state intervention in women's bodies under different regimes on the one hand and on religion and religious revival on the other What makes this book special is the way the authors stemming from such heterogeneous domains provide an in depth analysis of the development of this modern socialist state Their approach and analysis of Vietnamese society can only be called unparalleled
