Doing Sociology Jammie Price, Roger Straus, Jeff Breese, 2009-08-16 This successor to the well known Using Sociology covers standard topics found in any sociology textbook Doing Sociology walks lay readers through the steps of doing real life sociological practices as conducted by experts in the field The contributors to this volume range from university and college faculty government sociologists and practitioners from the private sector Each of the chapters is by intention and design a personal statement a case study illustrating how the authors practice sociology in their own words and style giving readers a clearer understanding of what sociologists do outside of teaching in universities And most importantly an understanding of what they could do with sociology Readable relevant and accessible Doing Sociology is an invaluable resource as a stand alone course reader or as a supplement to a traditional textbook

Sociological Practice Derek Layder, 1998-09-04 In this textbook Derek Layder offers a better understanding of the links between theory and research and provides an analysis of the relationship between the two He develops clear usable strategies to encourage theory development in the practical context of social research and introduces a new approach adaptive theory which can be used to generate new theory as well as develop existing theory in conjunction with empirical research Layder concludes by providing an outline of new rules of sociological method that show how adaptive theory can be put into practice

Sociological Practice John G. Bruhn, Howard Rebach, 2007-11-15 This second edition of a classic text in the field has been revisited by its authors and extensively reworked It incorporates new case studies based on the authors experiences as well as one completely new chapter The first edition of Clinical Sociology was published in 1996 Its goal was to explore various approaches to problem solving at the micro meso and macro levels of social complexity

Making a Difference Irwin Deutscher, 2018-01-16 Emphasis on measurement techniques can interfere with understanding how well particular social programs in their field work In Making a Difference The Practice of Sociology Irwin Deutscher links traditional sociological concerns with applied sociology in an effort to overcome this problem He contributes to the debate over the extent to which health educational and social programs initiated by the Roosevelt Kennedy and Johnson administrations have been successful in intimate human terms Deutscher believes that the introduction of a sociological perspective can provide a positive element to interdisciplinary pursuits This belief as well as his fresh perspectives on both the strengths and limitations inherent in applied sociology offer the field a revitalising lift As such this highly informative thought provoking volume will be of interest to sociologists and policy makers in health education crime welfare and housing
