Sociology and Development David Hulme, Mark M. Turner, 1990 **Sociology and Development** David Hulme, Mark M. Turner, 1990-01-01 *Governance, Management and Development* David Hulme, Mark Turner, Willy McCourt, 2015-07-20 This fully revised edition of the same authors *Governance Administration and Development* is the ideal introduction to public management and the policy process in developing countries With a new chapter on issues of law and order it also covers current debates on civil society aid and intervention and the relationship of states and markets Cultivating Transformative Reconciliation Line Merethe Skum, John Klaasen, Bernd Krukpa, Ray Aldred, 2024-10-29 Are Truth and Reconciliation Commission processes enough to achieve reconciliation This volume discusses issues that arise once the task of reconciliation emanates from the limited scope of a specific Truth and Reconciliation Commission and into the larger society and political system that originated it Scholars spanning several research fields from law to history to theology discuss how transformative reconciliation can be cultivated in a society using decolonization and other perspectives along three lines by specifying transformative issues and processes in law and politics by criticizing historical perspectives on the past and its concepts as deliberations of the status quo and by instilling the inherent dynamics of truth and reconciliation processes as permanent features within broader society The volume embarks on an investigation of the Norwegianization policy a historical framework that brought injustices upon minority groups such as the Sami and Kvens Norwegian Finns in Norway and parallel groups in Sweden and Finland It extends its exploration to analogous unjust policies in South Africa Canada and various other contexts Within the complex web of cultural social political and economic struggles stemming from colonial policies the roles of religion politics research institutions and civil society are critically examined **Psychology and the Developing World** Stuart C. Carr, John F. Schumaker, 1996-04-18 Previous leading commentators on the development of psychology in the Third World have conceived of three major stages an attempt to assimilate Western psychology with predictably negative results the study of indigenous constructs with more relevant applications and finally transcending stage one and stage two to choose theories and methods on their applied merit alone *Psychology and the Developing World* has been assembled to document how close psychology has come to researching that stage Contributors were carefully selected to provide a unique overview of the latest applications of the discipline as a whole Their work reveals how psychology is being applied to educational needs management needs and health needs This book shows how development studies and allied disciplines cannot ignore psychology s potential for the Third World **The Political Economy of Investment in Syria** Linda Matar, 2016-02-26 Linda Matar examines Syria s failure to promote employment generating investment prior to the uprising Tackling the thorny issue of the inapplicability of modern investment theory to a developing country she situates the analysis of investment in Syria in its historical context and examines the socioeconomic structure and political preconditions that set the course of

capital accumulation Matar argues that the class in charge of development which oversaw the allocation of resources during the Hafiz and Bashar Assad regimes precipitated a crisis of capital accumulation Difficult to access data and information compiled from fieldwork reveal how neoliberal reforms failed to build productive capacity and instead enriched a few through short term speculative and mercantile ventures Productive investment in Syria prior to the uprising lurched downward and the key related socio economic variables followed These deteriorating conditions contributed to the social explosion in 2011 Exploring the poor quality and quantity of investment this study probes how the cant of the free market served as a veneer behind which the institutional decisions distorted income distribution in a way that would inevitably lead to collapse
