The Tall Stones Moyra Caldecott, 2001-04-01 Book One of The Guardians of the Tall Stones The first of four novels set in Bronze Age Britain a society focused around the great circles of Sacred Stones scattered across the landscape It tells the story of a community threatened by the evil designs of Wardyke a corrupt and ambitious priest and its only defence the courageous young psychic Kyra But to defend her community Kyra must enter the forbidden circle of stones and call upon its unseen mystical powers This book has been called one of the great esoteric novels of the 20th century

The Language of Landscape Anne Whiston Spirn, 1998-01-01 This eloquent and powerful book combines poetry and pragmatism to teach the language of landscape Anne Whiston Spirn author of the award winning The Granite Garden Urban Nature and Human Design argues that the language of landscape exists with its own syntax grammar and metaphors and that we imperil ourselves by failing to learn to read and speak this language To understand the meanings of landscape our habitat is to see the world differently and to enable ourselves to avoid profound aesthetic and environmental mistakes Offering examples that range across thousands of years and five continents Spirn examines urban rural and natural landscapes She discusses the thought of renowned landscape authors Thomas Jefferson Frank Lloyd Wright Frederick Law Olmsted Lawrence Halprin and of less well known pioneers including Australian architect Glenn Murcutt and Danish landscape artist C Th S rensen She discusses instances of great landscape designers using landscape fluently masterfully and sometimes cynically And in a probing analysis of the many meanings of landscape Spirn shows how one person s ideal landscape may be another s nightmare how Utopian landscapes can be dark There is danger when we lose the connection between a place and our understanding of it Spirn warns and she calls for change in the way we shape our environment based on the notions of nature as a set of ideas and landscape as the expression of action and ideas in place

The Old Stones of Scotland Andy Burnham, 2019-01-01 Where to start with Scotland From what amounts to a stone circle showroom at Machrie Moor on Arran in the southwest up to Orkney in the far north where some of Britain's most spectacular prehistoric remains can be found there are amazing sites of all types up and down the country Some settings are unexpected Balfarg one of Scotland's largest henge monuments is situated in the centre of a 1980s housing estate in Fife while the stone circle of Craighead Badentoy in Aberdeenshire is surrounded by huge industrial containers If you don't have long then the Isle of Arran or Kilmartin Valley Argyll are good choices as both are reachable in a day from Glasgow and contain a wealth of prehistoric monuments If you have longer then consider visiting Orkney or Western Isles such as Lewis and Harris for world famous sites as well as hundreds of lesser known treasures The Old Stones of Scotland is part of a series covering the megalithic and other prehistoric sites of Britain and Ireland The series is published together as **The Old Stones A Field Guide to the Megalithic Sites of Britain and Ireland** available as a book and an ebook **Guide Stone Monuments in All Countries** James Fergusson, 2023-03-24 Reprint of the original first published in 1872 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost Night Stone Rick

The Megaliths of Northern Europe Magdalena Midgley, 2008-07 The North European megaliths are among the most enduring structures built in prehistory they are imbued with symbolic meanings which embody physical and conceptual ideas about the nature of the world inhabited by the first Northern farmers The Megaliths of Northern Europe provides a much needed up to date synthesis of the material available on these monuments incorporating the results of recent research in Holland Germany Denmark and Sweden This research has brought to light new data on the construction of the megaliths and their role in the cultural landscape and Magdalena Midgley offers a fascinating interpretation of the symbolism of megalithic tombs within the context of early farming communities This wealth of new evidence suggests the Northern European megaliths were important foci in the wider north west European context The construction of dolmens and passage graves using huge glacial boulders demanded both great communal effort and considerable skill In addition to this technical expertise the master builders also made use of their esoteric knowledge of rituals This was expressed in the use of exotic building materials and special architectural features and in the placement of tombs within the natural and cultural landscapes creating new metaphors and images Fully illustrated this book will be of interest to both undergraduate and postgraduate students of European Prehistory Archaeology and Prehistoric Anthropology as well as architects who study ancient architecture and social anthropologists who study modern megaliths
