**Desert Armour** Robert Forczyk, 2023-10-12 Robert Forczyk covers the development of armoured warfare in North Africa from Rommel's Gazala offensive in 1942 through to the end of war in the desert in Tunisia in 1943 The war in the North African desert was pure mechanized warfare and in many respects the most technologically advanced theatre of World War II It was also the only theatre where for three years British and Commonwealth and later US troops were in constant contact with Axis forces World War II best selling author Robert Forczyk explores the second half of the history of the campaign from the Gazala offensive in May 1942 that drove the British forces all the way back to the Egyptian frontier and led to the fall of Tobruk through the pivotal battles of El Alamein and the final Allied victory in Tunisia He examines the armoured forces equipment doctrine training logistics and operations employed by both Allied and Axis forces throughout the period focusing especially on the brigade and regimental level of operations Fully illustrated throughout with photographs profile artwork and maps and featuring tactical level vignettes and appendices analysing tank data tank deliveries in theatre and orders of battle this book goes back to the sources to provide a new study of armoured warfare in the desert

*British Armoured Divisions and Their Commanders, 1939-1945* Richard Doherty, 2013-07-16 A total of eleven British armoured divisions were formed during the 1939-1945 war but as this highly informative book reveals just eight saw action In 1940 only 1st Armoured Division faced the German blitzkrieg and it was in the North African desert that armoured divisions came into their own The terrain was ideal and six such divisions of Eighth Army fought Rommel's Panzers into submission Three were disbanded prior to the invasion of Sicily and Italy The campaign from D Day onwards saw the Guards Armoured 7th Armoured the Desert Rats 11th and Percy Hobart's 79th Armoured Division in the thick of the action Of particular interest are the men who commanded these elite formations and the way their characters contributed to the outcome of operations While some such as Dick McCreery went onto greater heights others did not make the grade the stakes were high A number such as Pip Roberts were just perfectly suited in the role Written by a leading military historian this book describes many fascinating aspects of armoured warfare from its uncertain beginnings through the development of tactics and the evolving tank design Due to British deficiencies reliance had to be placed on US Grants and Shermans with the Comet coming late and the Centurion too late The combination of gripping historical narrative and well researched fact make this an invaluable and highly readable work on the contribution of British Armoured Divisions to victory in the Second World War

**El Alamein 1942** Richard Doherty, 2018-08-30 The Battle of El Alamein is well established as a pivotal moment of the Second World War Following the wildly fluctuating fortunes of the opposing sides there was a real risk that Rommel's Afrika Korps and his Italian allies would break through and seize Cairo with catastrophic strategic and political implications for the Allies That this never happened is of course well known but as this highly readable

yet authoritative work reveals there were moments of extreme peril and anxiety Churchills bold nay desperate decisions concerning key appointments Montgomerys stubborn refusal to be rushed Rommels chronic logistic problems and critical air superiority are all examined in expert detail The authors description of the actual fighting is brought to life by personal accounts as well as his complete grasp of the plan and tactics involved The result seventy five years on is a delightfully fresh and fascinating account of one of the iconic battles not just of the War but in military history Normandy 1944 Richard Doherty,2004 The greatest military operation in history the invasion of France on June 6 1944 has become immortalized as D Day or The Longest Day This massive land sea and air operation led to an 11 month campaign that concluded with the surrender of Hitler s Germany in May 1945 But nothing that came after D Day equaled the achievement of that day in terms of planning preparation and logistics It was an achievement that only four years before might have seemed like a flight of fancy Normandy 1944 looks at the planning and preparation for the invasion the launching of the greatest military operation of all time and the campaign that followed in the summer of 1944 until the Allied armies closed the Falaise Gap and the Germans began their retreat from France The book looks at the personalities involved the innovations employed and the experiences of those who fought in Normandy The greatest military operation in history the invasion of France on June 6 1944 has become immortalized as D Day or The Longest Day This massive land sea and air operation led to an 11 month campaign that concluded with the surrender of Hitler s Germany in May 1945 But nothing that came after D Day equaled the achievement of that day in terms of planning preparation and logistics It was an achievement that only four years before might have seemed like a flight of fancy Normandy 1944 looks at the planning and preparation for the invasion the launching of the greatest military operation of all time and the campaign that followed in the summer of 1944 until the Allied armies closed the Falaise Gap and the Germans began their retreat from France The book looks at the personalities involved the innovations employed and the experiences of those who fought in Normandy **The Sound of History** Richard Doherty,2002 The Eighth Army s victory at El Alamein in November 1942 was one of the pivotal points of the Second World War and significant as the first major victory for a British Army under sole British command The North African campaign had captured the public imagination in Britain and the victors of Alamein joined those of Agincourt and Waterloo in the ranks of British heroes This book looks at the background to the battle the preparations and the battle itself Doherty uses personal accounts war diaries official regimental and divisional histories and material from numerous archives to tell the story of this timely British victory Armoured Warfare in the British Army 1939-1945 Dick Taylor,2022-10-21 The second volume in Dick Taylor s three volume illustrated history of the evolution of armored maneuver warfare in the British army covers the period of the Second World War in which the tank came of age and developed into the principal land weapon of decision He describes how during the first half of the war the British army came close to disaster from the armored warfare perspective and how the bitter lessons of failure were learned in time to deliver success in 1944 and 1945 As well as providing a

fascinating overview of the tactical use of armor during the main campaigns he considers such much neglected aspects as the role of training and organization officer selection and recruitment and the mechanization of other arms His wide ranging book also features extensive well laid out tables giving key information about British armor during this period This expert account quotes heavily from the vivid recollections of soldiers who served in armor and is not afraid to criticize as well as praise

**View from the Turret** Bill Close, 2002-01 Now available in paperback this is the story of the exploits of the 3rd Battalion Royal Tank Regiment during World War II as seen through the eyes of one of its most experienced tank commanders The 3rd RTR had a remarkable war Its baptism of fire came in 1940 during the heroic defence of Calais where unfortunately after withstanding six days of continuous siege almost three quarters of its personnel were either killed wounded or put in the bag In November 1940 refitted and back to strength in personnel the battalion was sent to North Africa and figured in most of the desert battles In early 1941 just after starting out on General Wavell's first desert advance the battalion was withdrawn from the line and sent to Greece There after some four months of active service in the North where its tanks were neither strong enough or numerous enough to stop the onslaught of the German divisions the remnants finally collected themselves in the glades of Glichda and Daphne near Athens prior to evacuation All its tanks and vehicles were again lost and only some 200 officers and men of the battalion eventually landed back in Egypt after various adventures Once again made up to strength in both personnel and tanks the battalion played a considerable part in

the bloody fighting at Sidi Resegh Bir Hackeim and Knightsbridge It led in part the advances to Agedabia and Msus and back to Alamein It took part in the famous Left HOOK battle with the New Zealanders making a considerable contribution to the success of the battle and subsequent forcing of the Gabes Gap and the Mareth line and the entry into Tripoli Following the desert battles and marches through Agedabia for the second time and the ignominious retreat back to Alamein The battalion enjoyed a period of rest and recuperation in the Delta The battalion played its part in the El Alamein battle once again receiving heavy casualties but went on with success at Alam Halfa and Gazala and the final advance to Enfidaville Sadly the battalion is no more having been amalgamated with the 2nd Royal Tank Regiment **The Panzer Killers** Daniel P.
