*Mediterranean Muscapes in Contemporary Spain* Kiko Mora, 2024-09-05 This volume focuses on the muscapes that contest critique and rethink Mediterraneanness in Contemporary Spain and understands it as a fluid and elusive sociological cultural and artistic category The volume argues that since the 1990s we have witnessed a shift in which the mythical image of Mediterranean harmony has been superseded by the net a figure that represents the linking of urban nodes and trans governmental networks migratory movements and cultural fluidity Further this book assesses how Mediterranean became within the realm of music the site and sign of a diverse array of social issues such as the formulation of Catalan Valencian Andalusian and Mallorcan national identities with the 2017 Catalan Independence process taking center stage Using diverse methodologies data driven sociological approaches ethnographic and anthropological tools feminist and gender theories the authors also address the rapidly changing social landscape that started in the 1980s due to global migrations as well as the dismantling of traditional gender dynamics Following Franco Duncan Wheeler, 2020-10-15 The transition to democracy that followed the death of Spanish dictator Francisco Franco in 1975 was once hailed as a model of political transformation But since the 2008 financial crisis it has come under intense scrutiny Today a growing divide exists between advocates of the Transition and those who see it as the source of Spain's current socio political bankruptcy This book revisits the crucial period from 1962 to 1992 exposing the networks of art media and power that drove the Transition and continue to underpin Spanish politics in the present Drawing on rare archival materials and over three hundred interviews with politicians artists journalists and ordinary Spaniards including former prime minister Felipe Gonzalez 1982-96 Following Franco unlocks the complex and often contradictory narratives surrounding the foundation of contemporary Spain *The Rise of Ethnic Politics in Latin America* Raúl L. Madrid, 2012-03-26 The Rise of Ethnic Politics in Latin America explores why indigenous movements have recently won elections for the first time in the history of the region Raúl L. Madrid argues that some indigenous parties have won by using inclusive populist appeals to reach out to whites and mestizos Indigenous parties have managed to win support across ethnic lines because the long history of racial mixing in Latin America blurred ethnic boundaries and reduced ethnic polarization The appeals of the indigenous parties have especially resonated in the Andean countries because of widespread disenchantment with the region

s traditional parties The book contains up to date qualitative and quantitative analyses of parties in seven countries including detailed case studies of Bolivia Ecuador and Peru
