Tank Wars Central Front Nato Vs Warsaw Pact:

Tank War Steven J. Zaloga, 1989-09-28 In the late 1980s with the Intermediate Nuclear Force Treaty in effect public attention turned to discussions of conventional weapons in Europe particularly tanks Though the importance of tanks had diminished since their heyday in the Second World War on the modern battlefield they remained the dominant weapon This text enhanced by colour plates and photographs examines the NATO and Warsaw Pact tank forces of that era focusing on tank firepower and crew training and speculates as to the possible outcome had a conventional land war been fought between them

Nato Versus Ussr André Geraque Kiffer, 2022-03-11 A simulation through a war game of what would have been a military confrontation between the forces of the North Atlantic Treaty Organization NATO and those of the Union of Soviet Socialist Republics USSR at the height of the Cold War Or also a projection of what a war between NATO and Russia could look like

Cold War Gone Hot Ambush Alley Ambush Alley Games, 2011-11-20 My fellow Americans I m pleased to tell you today that I ve signed legislation that will outlaw Russia forever We begin bombing in five minutes Ronald Reagan 1984 With these words spoken as a sound check to a radio broadcast President Reagan came dangerously close to igniting the long simmering Cold War Although Soviet forces were placed on alert following reports of this comment the full scale conflict between the West and the Soviet Bloc did not break out Cold War Gone Hot the latest companion volume for Force on Force looks at the 44 year history of the Cold War and asks what if With the orders of battle vehicle stats and missions included in this volume Force on Force players can simulate the advance of Soviet tanks across Western Europe a thrust into Alaska or any number of other plausible scenarios where history took a slightly different path

Checkpoint Charlie Iain MacGregor, 2020-11-10 A constantly captivating well researched and often moving The Wall Street Journal history of Checkpoint Charlie the famous military gate on the border of East and West Berlin where the United States confronted the USSR during the Cold War In the early 1960s East Germany committed a billion dollars to the creation of the Berlin Wall an eleven foot high barrier that consisted of seventy nine miles of fencing 300 watchtowers 250 guard dog runs twenty bunkers and was operated around the clock by guards who shot to kill Over the next twenty eight years at least five thousand people attempt to smash through it swim across it tunnel under it or fly over it In 1989 the East German leadership buckled in the face of a civil revolt that culminated in half a million East Berliners demanding an end to the ban on free movement The world s media flocked to capture the moment which perhaps more than any other signaled the end of the Cold War Checkpoint Charlie had been the epicenter of global conflict for nearly three decades Now in capturing the essence of the old Cold War MacGregor may just have helped us to understand a bit more about the new one The Times London the mistrust oppression paranoia and fear that gripped the world throughout this period Checkpoint Charlie is about the nerve wracking confrontation between the West and USSR highlighting such important global figures as Eisenhower Stalin JFK Nikita Khrushchev Mao Zedung Nixon Reagan and other politicians of the period He also includes never before heard interviews

with the men who built and dismantled the Wall children who crossed it relatives and friends who lost loved ones trying to escape over it military policemen and soldiers who guarded the checkpoints CIA MI6 and Stasi operatives who oversaw operations across its borders politicians whose ambitions shaped it journalists who recorded its story and many more whose living memories contributed to the full story of Checkpoint Charlie **Parameters** ,1985 Congressional Record United States. Congress,1982 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Fulda Gap** Volker Bausch,Dieter Krüger,2017-11-20 This edited collection examines the role of the Fulda Gap located at the border between East and West Germany in Cold War politics and military strategy The contributors analyze the strategic deliberations of the Warsaw Pact and NATO the balance of forces the role of the local peace movement and various other topics while weaving together the history of the Cold War at local European and global levels **Canada's Mechanized Infantry** Peter Kasurak,2020-02-01 Canada's Mechanized Infantry explores the largely ignored development of the infantry in the Canadian Army after the First World War Although many modern studies of technology and war focus on tanks and armour soldiers from the Second World War onward have discovered that success really depends on a combination of infantry armour and artillery to form combat teams Peter Kasurak demonstrates how the army implemented successful infantry vehicles and doctrine to ultimately further its military goals during the Second World War In the postwar period however progress was slowed by a top down culture and an unwillingness to abandon conventional thinking on the primacy of foot infantry and regimental organization This insightful book is the first to examine the challenges that have confronted the Canadian Army in transforming its infantry from First World War foot soldiers into a twenty first century combat force integrating soldiers vehicles weapons and electronics *Air Force Magazine* ,1988 *Turbulent Era, the Year of Europe in Retrospect, Florence, 1974* Benjamin S. Rosenthal,1974 *Nuclear Strategy in the Modern Era* Vipin Narang,2014-05-25 The world is in a second nuclear age in which regional powers play an increasingly prominent role These states have small nuclear arsenals often face multiple active conflicts and sometimes have weak institutions How do these nuclear states and potential future ones manage their nuclear forces and influence international conflict Examining the reasoning and deterrence consequences of regional power nuclear strategies this book demonstrates that these strategies matter greatly to international stability and it provides new insights into conflict dynamics across important areas of the world such as the Middle East East Asia and South Asia Vipin Narang identifies the diversity of regional power nuclear strategies and describes in detail the posture each regional power has adopted over time Developing a theory for the sources of regional power nuclear strategies he offers the first systematic explanation of why states choose the postures they do and under what conditions they might shift strategies Narang then

analyzes the effects of these choices on a state's ability to deter conflict. Using both quantitative and qualitative analysis, he shows that contrary to a bedrock article of faith in the canon of nuclear deterrence, the acquisition of nuclear weapons does not produce a uniform deterrent effect against opponents. Rather, some postures deter conflict more successfully than others. *Nuclear Strategy in the Modern Era* considers the range of nuclear choices made by regional powers and the critical challenges they pose to modern international security. **Policy Statement** British Information Services. Policy and Reference Division, 1968. **Soviet Disarmament Propaganda and the Strange Case of Marshal Grechko**, 1974. Defense, 1989. Annual Report to Congress - Arms Control and Disarmament Agency United States. Arms Control and Disarmament Agency, **Bulletin of the Atomic Scientists**, 1987-12. *Arms Control* United States. Arms Control and Disarmament Agency, 1973. *Annual Report to Congress* United States. Arms Control and Disarmament Agency, Armor, 1991. **Blueprints for Battle** Jan Hoffenaar, Dieter Krüger, Dieter Kruger, David T. Zabecki, 2012-09-04. While scholarship abounds on the diplomatic and security aspects of the Cold War, very little attention has been paid to military planning at the operational level. In *Blueprints for Battle*, experts from Russia, the United States, and Europe address this dearth by closely examining the military planning of NATO and Warsaw Pact member nations from the end of World War II to the beginning of the Cold War. Informed by material from recently opened archives, this collection investigates the perceptions and actions of the rival coalitions, exploring the challenges presented by nuclear technology, examining how military commanders' perceptions changed from the 1950s to the 1960s, and discussing logistical coordination among allied states. The result is a detailed study that offers much needed new perspectives on the military aspects of the early Cold War.
