Under Colonial Rule Abdul Sheriff, Ed Ferguson, 1991 Zanzibar stands at the center of the Indian Ocean system s involvement in the history of Eastern Africa This book follows on from the period covered in Abdul Sheriff s acclaimed *Slaves Spices and Ivory in Zanzibar* The first part of the book shows the transition of Zanzibar from the commercial economy of the nineteenth century to the colonial economy of the twentieth century The authors begin with the abolition of the slave trade in 1873 that started the process of transformation They show the transition from slavery to colonial free labor the creation of the capitalist economy and the resulting social contradictions They take the history up to formal independence in 1963 with a postscript on the 1964 insurrection In the second part the authors analyze social classes The landlords and the merchants were dominant in the commercial empire of the nineteenth century and had difficulties in adjusting to the colonial condition At the same time the development of capitalist farmers and a fully proletarianized working class was hindered The conservative administration could not resolve the contradictions of colonial capitalism and the formation of a united nationalist movement was hampered This period culminated in the insurrection of 1964 but the revolution could not be consummated without mature revolutionary classes **Dar es Salaam. Histories from an Emerging African Metropolis**

James R. Brennan, Andrew Burton, Yusufu Qwaray Lawi, 2007 From its modest beginnings in the 1860s Dar es Salaam has grown to become one of Africa s most important urban centres A major political economic and cultural hub the city has also acted as a crucible of local social and cultural innovation exerting a powerful influence on wider Tanzanian society Reflecting important contemporary socio economic trends of urban Africa it has recently attracted the attention of a diverse range of scholars from several disciplines This collection draws on the best of this scholarship Book Jacket **Africa Under Colonial Domination 1880-1935** Unesco. International Scientific Committee for the Drafting of a General History of Africa, 1985 Africa was partitioned and colonized by the Europeans After military conquest came the commercial exploitation

of the wealth of Africa The intensity of resistance to colonization varied from one region to another but a new economic and social system linked with colonization was put in place bringing about unprecedented demographic and political change

Publisher's description **Memories of German Colonialism in Tanzania** Reginald Elias Kirey, 2023-08-21 German colonial history in today Tanzania Mainland is extensively documented but it has not been studied from its memory perspective despite it being widely remembered among the Tanzanians This book documents German colonial memories as shared cultural legacy that exists in forms of monuments archives and historical sites It also presents them as trans generational memory narratives that live in people's memories that are also commemorated in different ways like erection of war monuments The book analyzes memories of colonialism from the historical perspective showing how the collective memories like monuments and commemorations have undergone structural and institutional changes over time The study uses Michael Rothberg's multi directional theory together with other theoretical approaches to analyze various forms of German colonial memories in Tanzanian context The findings which are analyzed historically indicate that the collective memories of the Germans are cultural communicative commemorative functional and topographical They are also traumatic as well as nostalgic *The Routledge Companion to Postcolonial African Historiography* Thula Simpson, Immanuel R.

Harisch, 2025-05-09 *The Routledge Companion to Postcolonial African Historiography* explores history's fortunes in Modern Africa south of the Sahara from the discipline's Golden Age as a handmaiden in struggles against colonialism to difficult decades when its survival has been threatened by capricious political and economic conditions and the uncertain present where the continent's historians struggle to justify their value to frequently sceptical publics In exploring the discipline's practical role in past struggles for African emancipation the volume speaks directly to these challenging but changing circumstances The chapters feature contributions from leading experts on historiographical traditions of different regions of the continent They collectively demonstrate how the process of instrumentalizing the past to advance lay struggles has influenced the choices historians have made regarding sources methodology interpretation audiences and platforms This practical application has strongly shaped the diverse forms that African historiography has assumed as reflected in this book The themes discussed offer a platform for inserting Africa into comparative studies of global historiographical traditions whilst also contributing to contemporary debates on decolonization In offering accessible insights from leading historians this is an essential handbook for students and scholars of African history and historiography as well as all those interested in postcolonial studies **Ecological Imperialism, Development, and the Capitalist World-System** Mariko Lin

Frame, 2022-10-13 Two major trends are currently challenging the sustainability of human civilization extreme inequality and the ecological crisis This book argues that these are intrinsically linked by further exploring the complex relationships between global ecological crises neoliberal globalization orthodox development policies and imperialism Drawn from extensive theoretical historical policy and empirical research as well as fieldwork in Africa and Asia this book examines the

crucial characteristics of the capitalist world system and how it enables and drives ecological imperialism Neoliberal globalization has allowed for capital's unfettered access to and exploitation of Nature across the planet and neoliberal development policies have reinforced a contemporary form of ecological imperialism where the environments of the Global South are enclosed and exploited and local communities are dispossessed of their land and livelihoods Simultaneously resources from the Global South are funneled to the Global North in the form of consumer goods and ecologically unequal exchange while the profits from those resources are siphoned away to transnational corporations financiers and government elites This work traces the historical development of free market policies while also paying special attention to the role of Northern international financial institutions emerging economies the semi periphery and the often hidden role of international finance in ecological imperialism This volume will be of keen interest to scholars and students of political economy critical development studies environmental sociology and political ecology

Islam and Muslim Politics in Africa B. Soares, R. Otayek, 2007-10-01 Political liberalization and economic reform the weakening of the state and increased global interconnections have all had profound effects on Muslim societies and the practice of Islam in Africa The contributors to this volume investigate and illuminate the changes that have occurred in Africa through detailed case studies

The East African Revival Mr Kevin Ward, Ms Emma Wild-Wood, 2013-06-28 From the 1930s the East African Revival influenced Christian expression in East Central Africa and around the globe This book analyses influences upon the movement and changes wrought by it in Uganda Rwanda Burundi Kenya Tanzania and Congo highlighting its impact on spirituality political discourse and culture A variety of scholarly approaches to a complex and changing phenomenon are juxtaposed with the narration of personal stories of testimony vital to spirituality and expression of the revival which give a sense of the dynamism of the movement Those yet unacquainted with the revival will find a helpful introduction to its history Those more familiar with the movement will discover new perspectives on its influence

Lethal Aid Severine Mushambampale Rugumamu, 1997 Despite massive infusions of financial and technical assistance from the northern hemisphere Africa is worse off today economically societally and environmentally than it was 30 years ago But were economic development poverty alleviation and democracy ever actually the objectives of either donor or recipient states in the first place To what extent was the limitless potential of the self reliance strategy foreclosed by the corrupting power of foreign aid As much as military power propaganda or diplomacy aid is realistically and essentially one of the economic instruments of statecraft and as such has historically been used as a policy tool for various attempts at influence While policies and strategies on both sides of the aid process may give primacy of place to development actual practice almost invariably reveals the opposite as donor and recipient alike employ aid resources to pursue their respective national class or even regime interests Through the Tanzanian experience of Big Brother's helping hand the author examines the true role of foreign aid in the development process and exposes certain widely held myths about that role

A New History of Tanzania N. Kimambo, H.

Maddox,2017-12-29 Tanzania the land and the people have been subject of a great deal of historical research but there remains no readily accessible and concise history of the country The aim of this volume is to fill that void A New History of Tanzania takes its name from a lecture series introduced at the University of Dar es Salaam by Professor Isaria Kimambo in 2002 Prior to that a book titled A History of Tanzania had been published in 1969 by East African Publishing House in Nairobi for the Tanzania Historical Association That book is currently out of print and this is not a reprint In this book Prof Kimambo has been joined by two other colleagues Prof Gregory H Maddox of Texas Southern University Houston USA and Salvatory S Nyanto a Tanzanian Lecturer at the University of Dar es Salaam and a Ph D candidate at the University of Iowa USA together they have produced an outline history of Tanzania that covers all important aspects from antiquity to the present that is different from and richer than its predecessor Sources from the fields of archaeology anthropology biology genetics and oral tradition have been used to produce this excellent book From Dar es Salaam to Bongoland Bernard

Calas,2010-11-01 The name Dar es Salaam comes from the Arabic phrase meaning house of peace A popular but erroneous translation is haven of peace resulting from a mix up of the Arabic words dar house and bandar harbour Named in 1867 by the Sultan of Zanzibar the town has for a long time benefitted from a reputation of being a place of tranquility The tropical drowsiness is a comfort to the socialist poverty and under equipment that causes an unending anxiety to reign over the town Today for the Tanzanian the town has become Bongoland that is a place where survival is a matter of cunning and intelligence bongo means brain in Kiswahili Far from being an anecdote this slide into toponymy records the mutations that affect the links that Tanzanians maintain with their principal city and the manner in which it represents them This book takes into account the changes by departing from the hypothesis that they reveal a process of territorialisation What are the processes envisaged as spatial investments which by producing exclusivity demarcations and exclusions fragment the urban space and its social fabric Do the practices and discussions of the urban dwellers construct limited spaces appropriated identified and managed by communities in other words territories Dar es Salaam is often described as a diversified relatively homogenous and integrating place However is it not more appropriate to describe it as fragmented As territorialisation can only occur through frequenting management and localised investment it is therefore through certain places first shelter and residential area then the school daladala station the fire hydrant and the quay that the town is observed This led to broach the question in the geographical sense of urban policy carried out since German colonisation to date At the same time the analysis of these developments allows for an evaluation of the role of the urban crisis and the responses it brings In sum the aim of this approach is to measure the impact of the uniqueness of the place on the current changes On one hand this is linked to its long term insertion in the Swahili civilisation and on the other to its colonisation by Germany and later Britain and finally to the singularity of the post colonial path This latter is marked by an alternation of Ujamaa with Structural Adjustment Plans applied since 1987 How does this remarkable political culture take part in the emerging city today This

book is a translation of De Dar es Salaam Bongoland Mutations urbaines en Tanzanie published by Karthala Paris in 2006

Give and Take Nitsan Chorev, 2019-12-10 Give and Take looks at local drug manufacturing in Kenya Tanzania and Uganda from the early 1980s to the present to understand the impact of foreign aid on industrial development While foreign aid has been attacked by critics as wasteful counterproductive or exploitative Nitsan Chorev makes a clear case for the effectiveness of what she terms developmental foreign aid Against the backdrop of Africa's pursuit of economic self sufficiency the battle against AIDS and malaria and bitter negotiations over affordable drugs Chorev offers an important corrective to popular views on foreign aid and development She shows that when foreign aid has provided markets monitoring and mentoring it has supported the emergence and upgrading of local production In instances where donors were willing to procure local drugs they created new markets that gave local entrepreneurs an incentive to produce new types of drugs In turn when donors enforced exacting standards as a condition to access those markets they

gave these producers an incentive to improve quality standards And where technical know how was not readily available and donors provided mentoring local producers received the guidance necessary for improving production processes Without losing sight of domestic political economic conditions historical legacies and foreign aid s own internal contradictions Give and Take presents groundbreaking insights into the conditions under which foreign aid can be effective *Refugees, Self-Reliance, Development* Evan Easton-Calabria,2022-06-10 Evan Easton Calabria s critical history of refugee self reliance assistance brings new dimensions to refugee and international development studies The promotion of refugee self reliance is evident today yet its history remains largely unexplored with good practices and longstanding issues often missed Through archival and contemporary evidence this book documents a century of little known efforts to foster refugee self reliance including the economic political and social motives driving this assistance With five case studies from Greece Tanzania Pakistan Uganda and Egypt the book tracks refugee self reliance as a malleable concept used to pursue ulterior interests It reshapes understandings of refugee self reliance and delivers important messages for contemporary policy making The first chapter is available Open Access under CC BY NC ND licence *Ecology, Civil Society and the Informal Economy in North West Tanzania* Charles David Smith,2017-03-02 Based on a decade of first hand experience and secondary research this richly detailed study follows daily life in four villages in Tanzania Funded by the Social Sciences and Humanities Research Council this comprehensive account examines the regional economy determinants of civil society and implications for democratization AIDS population growth refugees crops and goods and implications for development Charles David Smith brings together well over 200 interviews and his own experience of everyday events providing a constructive critique of current initiatives and a potent new direction that has so far been under explored by existing bodies An essential text for all serious students and researchers interested in development **The Rise and Fall of Modern Empires, Volume I** Owen White,2017-03-02 This collection brings together twenty one articles that explore the diverse impact of modern empires on societies around the world since 1800 Colonial expansion changed the lives of colonised peoples in multiple ways relating to work the environment law health and religion Yet empire builders were never working with a blank slate colonial rule involved not just coercion but also forms of cooperation with elements of local society while the schemes of the colonisers often led to unexpected outcomes Covering not only western European nations but also the Ottomans Russians and Japanese whose empires are less frequently addressed in collections this volume provides insight into a crucial aspect of modern world history
