Narrowing the Achievement Gap Susan J. Paik, Herbert J. Walberg, 2007-06-04. The subject of minority children's learning has long been the concern of civic leaders, parents, scholars and educators. The federal legislation No Child Left Behind emphasizes the concern even more. It specifically requires assessing the academic achievement of minority students, particularly in economically disadvantaged areas, and holding schools accountable for their progress. Schools that fail to attain Adequate Yearly Progress face the real possibility of being forced to close if they continually fail to perform. Unlike the past, these are increasingly high stakes consequences for educators, parents, students and the schools that serve them. This book is timely and relevant because it addresses these issues and recommends solutions for Latino, Black and Asian students. This book also has implications for the problems the nation faces in helping all students to learn well, particularly those that lag in academic achievement. In considering the broad problems and in recommending solutions, the book provides breadth, concision and unique organization. As the introductory chapter makes clear, the book

simultaneously considers not only the three most visible minority groups in the U S but draws upon the perspectives of anthropology education ethnic studies psychology and sociology From these several perspectives this book is organized within three broad sections 1 culturally diverse families and schooling 2 issues of immigration and schooling experiences and 3 socio cultural perspectives on teaching learning and development Within each section the authors marshal research literature regarding each ethnic minority group
