**The Ugandan Dairy Sub-Sector: Targeting Development Opportunities**, Targeting Regional Economic Development Stephan J. House. Committee on Merchant Marine and Fisheries. Subcommittee on Oceanography, 1980 **Re-envisioning Sovereignty** Trudy Jacobsen, Professor Charles Sampford, Professor Ramesh Thakur, 2013-02-28 Sovereignty as a concept is in a state of flux In the course of the last century traditional meanings have been worn away while the limitations of sovereignty have been altered as transnational issues compete with domestic concerns for precedence This volume presents an interdisciplinary analysis of conceptions of sovereignty Divided into six overarching elements it explores a wide range of

issues that have altered the theory and practice of state sovereignty such as human rights and the use of force for human protection purposes norms relating to governance the war on terror economic globalization the natural environment and changes in strategic thinking The authors are acknowledged experts in their respective areas and discuss the contemporary meaning and relevance of sovereignty and how it relates to the constitution of international order City Choices Kenneth K. Wong,1990-07-05 *City Choices* argues that both economic concerns and political factors can be synthesized in a new framework in city policymaking This synthesis is based on a systematic empirical study of policymaking in two large cities Using numerous governmental documents and conducting extensive interviews with local state and federal officials the author examines how the two cities have implemented both federal redistributive and development programs in education and housing The author uses three models in explaining city choices economic constraint clientele participation and institutional diversity and concludes by offering his political choice perspective which identifies specific sets of local political forces that are likely to alter the city's rational choices in development and redistributive issues *Guidelines to increase the resilience of agricultural supply chains* Food and Agriculture Organization of the United Nations,2023-05-05 The effects of the COVID 19 pandemic on food and agriculture have been felt all over the world As the pandemic unfolded considerable attention began to be paid to the resilience of agricultural supply chains to COVID 19 related shocks as well as to natural and human induced shocks more generally These Guidelines to increase the resilience of agricultural supply chains are intended for policymakers and other stakeholders who need a broad grasp of the concepts issues and possible approaches involved Efforts to strengthen resilience to risks need to be based on a thorough analysis of the exposure and vulnerability of supply chains to them and on a cost benefit assessment of damages versus interventions In addition not all decisions can be based on commercial and economic considerations as political priorities will also play a role Governments may take the lead in setting policy priorities based on assessments of risk and resilience capacities but it is actors throughout the supply chain who are directly affected and who need to consider business strategies and interventions to be able to adapt and transform for the future Governments play an essential role by supporting the efforts of supply chain businesses and by building general resilience through establishing an appropriate policy and institutional environment and through the investments they make in physical infrastructure in putting social protection in place and in facilitating and promoting collaboration and cooperation Enhancing general resilience against future risks is important as new risks emerge and the frequency and intensity of known risks grow with climate change and increasing pressure on natural resources Financing Municipal Needs United States. Congress. Joint Economic Committee. Subcommittee on Economic Growth and Stabilization,1977 *Hearings, Reports and Prints of the Joint Economic Committee* United States. Congress. Joint Economic Committee,1977 *Social Uses And Radio Practices* Lucila Vargas,2019-06-21 This book is about the social value of participatory or communityoriented radio and stresses how the politics of race ethnicity class and gender shape the extent and quality of
