Targeting Success From A Woman's Point Of View:

Targeting Success Margaret Christie, 1986 Becoming a Top Woman Manager Leonie V. Still, 2016-12-19 An increasing number of women are claiming the careers and the success which are rightfully theirs. This book first published in 1988 demonstrates that the way to the top consists of a series of steps and strategies. It outlines these steps and provides practical advice based on Australian research on the challenges to be faced in achieving career goals. Handbook of Research on Innate Leadership Characteristics and Examinations of Successful First-Time Leaders Guah, Matthew Waritay, 2021-02-05 For hundreds of years different leadership theories have been explored to try to explain exactly how and why certain people become great leaders. Research spans a discussion of personality traits, the characteristics of the situation at hand and qualifications of the leader to try to determine what causes people to become more likely than others to take charge. This can be in various settings: CEOs, presidents and prime ministers, managing directors, governors, senators, head coaches and more. Through the examination of first time leadership, new theories and ideas on leadership are explored. The *Handbook of Research on Innate Leadership Characteristics and Examinations of Successful First Time Leaders* is a comprehensive reference source that focuses on what qualities distinguish first time leadership from traditional leaders while furthering leadership theories that look at other variables such as situational factors, knowledge base, skill levels, etc. It reviews the various approaches used by first time leadership and how each of them uniquely approaches effective leadership, key outcomes and the strengths and weaknesses of each approach. Furthermore, it distinguishes between the traditional route for leadership, the gradual moving up of an individual over time to higher positions, and a first time leadership in which an individual begins right away in a position without climbing the professional ladder. This book will attempt to draw lessons from existing first time leadership experience and provide evidence for the appropriateness of such a route to leadership. Topics highlighted include transformational leadership, political leaders, ethical and unethical leadership, and leadership development. This book is ideal for young professionals, leaders, executives, managers, graduate students, practitioners, government officials, researchers, academicians and students.

Women and Media in the Middle East Nahed Eltantawy, 2017-10-02 The traditional image of the Middle Eastern woman as portrayed by the Western media has tended to be one of a woman oppressed by men and religion. Developing the Right to Social Security - A Gender Perspective Beth Goldblatt, 2016-06-10 The right to social security found in international law and in the constitutions of many nations contributes to the alleviation of poverty globally. Social security and its articulation as a human right have received increased attention in recent years both in response to austerity cuts to welfare in developed countries and as a means of lifting millions out of poverty in developing countries. Women disproportionately affected by poverty in all parts of the world stand to gain from a right to social security that takes cognisance of gender discrimination and disadvantage. This book interprets and redefines the right to social security from a gender perspective. Drawing on feminist theory the book formulates a conceptual approach and a set of principles for a substantively equal gendered right to social security. In so doing it challenges the relationship between the right to social security and traditional conceptions of work that exclude women's labour including their caring roles. It argues that the right must have application at the transnational level if it is to address the changing nature of women's work due to globalisation. The book applies the framework and principles it develops to a study of international law focusing on the work of key United Nations human rights bodies. It also demonstrates the value of this framework in its analysis of three countries' social security programmes: South Africa, Australia and India. In combining feminist thought on the nature of work and care with equality theories in developing the right to social security from a gender perspective, this book expands the capacity of the right to advance gender equality and address gendered poverty.

The Perspective of Women's Entrepreneurship in the Age of Globalization Mirjana Radović Marković, 2007-09-01 This book The perspective of women's entrepreneurship in the Age of Globalization addresses the issue of female entrepreneurship development in the context of globalization. The authors take the position that entrepreneurship serves as a catalyst of economic development and globalization process has progressively reduced barriers to entrepreneurship and increased competition in the global market. Namely, important settings of inter-country cooperation in our times are the emergence of the phenomenon of globalization. Like an oncoming vehicle, globalization cannot be stopped. However, we can influence its direction and we can prepare to use it as an instrument for improving the conditions of the greater majority of people all over the world. The recognition of the capacity of women entrepreneurs in our global community is no longer a matter for debate. It is our reality that Female Entrepreneurship has been the major factor contributing to the development of many countries. This book brings together a large amount of information on various women entrepreneurship opportunities from different points of view and from different countries and regions. The special value of this volume is the networking of researchers, scientists and other professionals and experts all over the world and their participation with the articles based on research undertaken specifically for the book. *Australian Books in Print*, 1989.
