Targets Of Hatred Anti Abortion Terrorism:

Targets of Hatred Patricia Baird-Windle, Eleanor J. Bader, 2015-02-10 *Targets of Hatred* charts the development of the anti abortion movement in North America Beginning in the years preceding the 1973 Roe vs Wade decision that legalized abortion the book examines the roles played by the Catholic Church Fundamentalist Protestants and Republican and Democratic parties and assesses points of overlap and divergence The voices of more than 190 providers in the United States and Canada clinic owners doctors nurses technicians and their families give readers an in depth look at what it means to work in a field in which arson bombings harassment and killing are routine Filled with dramatic eye witness accounts of anti abortion terrorism the book demonstrates law enforcement s failure to stem the violence and is a call to arms for concerned individuals

Catholics and Political Violence in the Twentieth Century Lucia Ceci, 2024-10-14 *Catholics and Political Violence in the Twentieth Century* presents a historical reconstruction of the ways in which Catholics have justified the recourse to political violence during the twentieth century a period marked by major wars nationalisms decolonization ideological clashes and episodes of genocide Legitimation processes are particularly complex when this violence is not endorsed by the state and perhaps used against it Depending on perspective the protagonists of this radical form of collective action may be seen as terrorists or freedom fighters Written by a leading historian of contemporary Catholicism this book examines a series of case studies from different parts of the world selected because of the central role played by the Catholic religion They range from Northern Ireland to the Basque Country from the Philippines to Colombia and from Mexico to Rwanda It highlights how theological sources paradigms of martyrdom and symbols of the Christian tradition have provided a catalogue of reasons to give moral value to violence and promote it in the name of God By looking at the history of Catholicism in global terms and adopting a transnational perspective *Catholics and Political Violence in the Twentieth Century* sheds a critical light on the themes that are crucial to understanding the relationship between religion and violence It will appeal to scholars and students working and studying in the fields of Modern and Contemporary History Religious Studies Terrorism Studies Cultural and Global Studies Intellectual History and the History of Political Thought

Roe v. Wade Deirdre Cooper Owens, Fiona de Londras, Alicia Gutierrez-Romine, Johanna Schoen, Salamishah Tillet, Karin Wulf, 2024-08-15 Just over fifty years ago on January 22 1973 the United States Supreme Court decision on *Roe v Wade* assured millions of women that abortion was a protected constitutional right due to a woman s

right to privacy In the context of the burgeoning women s rights movement it seemed like an inalienable victory women might become equal to men in their right to determine what would happen to their bodies This was a hard won fight that reached back to colonial America and slavery but on June 24 2022 the decision was shockingly reversed by the Supreme Court in Dobbs v Jackson Women s Health Organization What happened What transpired socially politically legally in religious institutions and in popular culture in the half century when the right to choose led to this stunning transformation in American society Roe v Wade Fifty Years After coedited by Rhae Lynn Barnes and Catherine Clinton for the History in the Headlines series brings together a team of world renowned scholars prizewinning historians and Pulitzer Prize winning public intellectuals who specialize in reproductive history They assembled at Harvard University in the weeks following the Dobbs decision to talk through the centuries long history of abortion in what became the United States how its representation changed in the law and popular culture and how a wellspring of social movements on both the right and left led to a fifty year showdown over some of the most outstanding human questions What is life When does it begin Who has the right to end it Who has the right to determine what happens to someone else s body How can the law define and restrict women s reproductive health And how have race class geography sexuality and other factors shaped who gets to be a part of answering these questions The international impact of the struggles for reproductive freedom for women within the United States comes into sharp focus within this important volume shedding light on past present and future dimensions of reproductive freedom for all Americans

Religion and Political Violence Jennifer L. Jefferis, 2009-09-10 This book uses the theory of social movements and first hand interviews to create a new analysis of religiously motivated political violence in the modern world Examining the movement to restore Sharia law to a dominant place in the Egyptian government the movement to make abortion illegal in the United States and the religious effort to secure territory in Israel the author contends that religion becomes violent not because of ideology or political context alone but because of the constantly evolving relationship between them The ebb and flow of opportunities for political access ensures that secularization and religion although polar opposites depend on each other to define themselves As a result while their respective degrees of influence will inevitably undulate over time both will remain a part of the political process for some time Thus a full understanding of both is critical to a meaningful understanding of the political process Much work has been done to understand secular social movements as part of the political process and consequentially researchers now know a great deal about the motivations resources and timing of secular social movements Considerably less research has been done in the field of religious social movements and this book fills that gap in the literature This book will be of great interest to students of political violence religion sociology and Politics and International Relations in general Jennifer Jefferis is Assistant Professor in the Department of Government Regent University USA and has a PhD in Political Science from Boston University

Bale,Tamir Bar-On,2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism the radical right the alt right white supremacism populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations **Religion and Politics in America** Frank J. culture popularized the idea that legal abortion is a harbinger of apocalypse By the 1990s Mason asserts even the movement's mainstream had taken up the call narrating abortion as an apocalyptic battle between so called Christian and anti Christian forces Pro life violence of the 1990s signaled a move away from protest and toward retribution she writes Pro life retribution is seen as a way to restore the order of God In this light the phenomenon of killing for life is revealed not as an oxymoron but as a logical consistency and a political manifestation of religious retribution Mason's scrutiny of primary sources direct mail internal memoranda personal letters underground manuals and pro life films magazines and novels draws attention to elements of pro life millennialism Killing for Life is a powerful indictment of pro life ideology as a coherent mass produced narrative that does not merely condone violence but anticipates it as part of God's plan Future Active Graham Meikle, 2014-02-04 The revolution will not be televised But will it be online instead When the Internet first took off we heard a lot about its potential for social change We heard it would revitalize democracy We heard it would empower us We heard we would all be publishers working together to create a new public sphere Future Active tests such claims With fierce intelligence and wit Graham Meikle takes us behind the digital barricades and into the heart of Internet activist campaigns In the first in depth look at this global phenomenon the author talks to key players in the Indymedia movement and introduces us to the activists behind gwbush.com the website that provoked the President to declare there ought to be limits to freedom The founder of Belgrade radio station B92 explains how they used the net to thwart Milosevic's censorship while McLibel trial defendant Dave Morris talks about the role of the McSpotlight website And pioneer hacktivists the Electronic Disturbance Theater introduce us to virtual sit ins and electronic civil disobedience while US military analysts offer a different perspective on this kind of information warfare Future Active is an accessible comprehensive and supremely readable introduction to the world of online activism This book is essential reading for anyone interested in how hackers culture jammers and media activists have not only incorporated recent technology as a tool for change but also redefined what counts as activism Culture Wars Roger Chapman, 2015-03-17 The term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today
