Rethinking the Individualism-Holism Debate Julie Zahle, Finn Collin, 2014-06-05 This collection of papers investigates the most recent debates about individualism and holism in the philosophy of social science The debates revolve mainly around two issues firstly whether social phenomena exist sui generis and how they relate to individuals This is the focus of discussions between ontological individualists and ontological holists Secondly to what extent social scientific explanations may and should focus on individuals and social phenomena respectively This issue is debated amongst methodological holists and methodological individualists In social science and philosophy both issues have been intensively discussed and new versions of the dispute have appeared just as new arguments have been advanced At present the individualism holism debate is extremely lively and this book reflects the major positions and perspectives within the debate This volume is also relevant to debates about two closely related issues in social science the micro macro debate and the agency structure debate This book presents contributions from key figures in both social science and philosophy in the first such collection on this topic to be published since the 1970s

The Witch Studies Reader Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars practitioners and scholar practitioners who examine witchcraft from a critical decolonial feminist perspective that decenters Europe and departs from exoticizing and pathologizing writing on witchcraft in the global South The authors show how witches are keepers of suppressed knowledges builders of new futures exemplars of praxis and theorists in their own right Throughout they account for the vastly different national political economic and cultural contexts in which the witch is currently being claimed and repudiated Offering a pathbreaking transnational feminist examination of witches and witchcraft that upends white supremacist colonial patriarchal knowledge regimes this volume brings into being the interdisciplinary field of feminist witch studies Contributors Maria Amir Ruth Asimwe Bernadette

Affectivity and the Social Bond offers a fresh and original perspective on the relationship between affectivity and transcendence in nineteenth and twentieth century French social theory Engaging in a conceptual analysis of the works of Comte Durkheim Bataille and Girard this book exposes a major transformation brought about by the sociological gaze in understandings of affectivity and its relationship to both sociality and transcendence in nineteenth century social thought the ambivalence between the transcendence of the social and the immanence of affective experience Revealing the manner in which questions of violence and economy are intertwined in the sociological analysis of affectivity Affectivity and the Social

Bond reflects upon the problem of controlling affectivity alongside the political implications and possible dangers of a sociological model which seeks the roots of the social bond first and foremost in the affective realm A rigorous engagement with the classics of French social theory their treatment of human affectivity and its relationship to social integration and regulation this book will appeal not only to sociologists and social theorists but also to those with interests in social and political philosophy and the history of ideas The Oxford Handbook of Émile Durkheim Hans Joas,Andreas Pettenkofer,2024 mile Durkheim remains one of the most controversial and one of the most deeply misunderstood classics of social theory The Oxford Handbook of mile Durkheim takes stock of the different recent debates on Durkheimian sociology and makes them accessible to a wide audience spanning various disciplines this includes crucial debates that due to language barriers are not easily accessible for an English reading public In doing so this volume is an important resource for all scholars and students looking to understand Durkheimian sociology *The New Individualists* Paul Leinberger,Bruce Tucker,1991 A study of the sons and daughters of the original organization men Americans born between 1946 and 1964 and reared in households headed by fathers who worked in large organizations These men and women of the babyboom are redefining both the organization and individualism with profound consequences for both **Religion and the American Experience: A Social and Cultural History, 1765-1996** Donald C. Green, 2025-09-23 An incisive study of the Western world's shift from institutional religion to more personal beliefs in the second half of the 19th century This is intellectual history at its most comprehensive and convincing Publishers Weekly starred review The late nineteenth century was an age of grand ideas and great expectations fueled by rapid scientific and technological innovation In Europe the ancient authority of church and crown was overthrown for the volatile gambles of democracy and the capitalist market If it was an age that claimed to liberate women slaves and serfs it also harnessed children to its factories and subjected entire peoples to its empires Amid this tumult another sea change was underway the religious revolution In *The Religious Revolution* Dominic Green charts this profound cultural and political shift taking us on a whirlwind journey through the lives and ideas of Ralph Waldo Emerson and Walt Whitman of L. L. Zola and Helena Blavatsky of Wagner and Nietzsche of Marx Darwin and Gandhi Challenged by the industrialization globalization and political unrest of their times these figures found themselves connecting with the religious impulse in surprising new ways inspiring others to move away from the strictures of religion and toward the thrill and intimacy of spirituality The modern era is often characterized as a time of increasing secularism but in this trenchant new work Green demonstrates how the foundations of modern society were laid as much by spirituality as by science or reason *The Religious Revolution* is a narrative tour de force that sweeps across several continents and five of the most turbulent and formative decades in history Threading together seemingly disparate intellectual trajectories Green illuminates how philosophers grifters artists scientists and yogis shared in a global cultural moment borrowing one another's beliefs and making the world we know today *Out of Darkness into*
