## **Taste Of Blood Spirit Possession In Brazilian Candomble:**

The Taste of Blood Jim Wafer, 2010-11-24 Enter the fascinating world of the Candomble regions of Brazil where interaction between spirits and human is considered an everyday occurrence Jim Wafer uncovers the social life rituals folklore and engaging personalities of the villagers of Jacari among whom trances sorcery and spirit possession demonstrate the coexistence of different kinds of reality This ethnography is intriguing not only because of the originality of its approach to the more enigmatic aspects of another culture but also because it uses insights gained from participation in that culture to reflect on the paradoxes inherent in the writer's own culture and in the human condition in general **The Taste of Blood** Jim Wafer, 1994 *Spirits and Trance in Brazil* Bettina E. Schmidt, 2016-06-16 Bettina E Schmidt explores experiences usually labelled as spirit possession a highly contested and challenged term using extensive ethnographic research conducted in S o Paulo the largest city in Brazil and home to a range of religions which practice spirit possession The book is enriched by excerpts from interviews with people about their experiences It focuses on spirit possession in Afro Brazilian religions and spiritism as well as discussing the notion of exorcism in Charismatic Christian communities *Spirits and Trance in Brazil* An Anthropology of Religious Experience is divided into three sections which present the three main areas in the study of spirit possession The first section looks at the social dimension of spirit possession in particular gender roles associated with spirit possession in Brazil and racial stratification of the communities It shows how gender roles and racial composition have adapted alongside changes in society in the last 100 years The second section focuses on the way people interpret their practice It shows that the interpretations of this practice depend on the human relationship to the possessing entities The third section explores a relatively new field of research the Western discourse of mind body dualism and the wide field of cognition and embodiment All sections together confirm the significance of discussing spirit possession within a wider framework that embraces physical elements as well as cultural and social ones Bringing together sociological anthropological phenomenological and religious studies approaches this book offers a new perspective on the study of spirit possession *Spirits with Scalpels* Sidney M Greenfield, 2016-09-17 The first time I witnessed a Spiritist surgery a young man named Jose Carlos Ribeiro inserted a used scalpel taken from a tray that I was holding and plunged it into the eye of an elderly man The patient did not move Decades of fieldwork later Sidney Greenfield presents a riveting ethnography of the complex world of religious healing in Brazil that challenges readers to grapple with the most fundamental concepts of anthropology and cross cultural experience In a major contribution to cultural biology he analyses the complex social economic and political landscape of Brazil to understand dramatic healing practices that seem to defy medical explanation This engrossing and provocative book will put students and scholars alike on the edge of their seats *Infectious Rhythm* Barbara Browning, 2013-06-17 Barbara Browning follows the trail of infectious rhythm from the ecstatic percussion of a Brazilian carnival group to the eerily silent video image of the LAPD beating a man like a drum Throughout she identifies the

metaphoric strain of contagion which both celebrates the diasporic spread of African culture and serves as the justification for its brutal repression The essays in this book examine both the vital and violent ways in which recent associations have been made between the AIDS pandemic and African diasporic cultural practices including religious worship music dance sculpture painting orature literature and film While pointing to the lengthy and complex history of the metaphor of African contagion Browning argues that in its politicized life affirming embodiment the figure might actually teach us to respond to epidemia humanely

**Competitive Spirits** R. Andrew Chesnut, 2003-08-07 For over four centuries the Catholic Church enjoyed a religious monopoly in Latin America in which potential rivals were repressed or outlawed Latin Americans were born Catholic and the only real choice they had was whether to actively practice the faith Taking advantage of the legal disestablishment of the Catholic Church between the late 1800s and the early 1900s Pentecostals almost single handedly built a new pluralist religious economy By the 1950s many Latin Americans were free to choose from among the hundreds of available religious products a dizzying array of religious options that range from the African Brazilian religion of Umbanda to the New Age group known as the Vegetable Union R Andrew Chesnut shows how the development of religious pluralism over the past half century has radically transformed the spiritual economy of Latin America In order to thrive in this new religious economy says Chesnut Latin American spiritual firms must develop an attractive product and know how to market it to popular consumers Three religious groups he demonstrates have proven to be the most skilled competitors in the new unregulated religious economy Protestant Pentecostalism the Catholic Charismatic Renewal and African diaspora religions such as Brazilian Candomble and Haitian Vodou have emerged as the most profitable religious producers Chesnut explores the general effects of a free market such as introduction of consumer taste and product specialization and shows how they have played out in the Latin American context He notes for example that women make up the majority of the religious consumer market and explores how the three groups have developed to satisfy women s tastes and preferences Moving beyond the Pentecostal boom and the rise and fall of liberation theology Chesnut provides a fascinating portrait of the Latin American religious landscape

Lorand Matory, 2009-02-09 Black Atlantic Religion illuminates the mutual transformation of African and African American cultures highlighting the example of the Afro Brazilian Candomblé religion This book contests both the recent conviction that transnationalism is new and the long held supposition that African culture endures in the Americas only among the poorest and most isolated of black populations In fact African culture in the Americas has most flourished among the urban and the prosperous who through travel commerce and literacy were well exposed to other cultures Their embrace of African religion is less a survival or inert residue of the African past than a strategic choice in their circum Atlantic multicultural world With counterparts in Nigeria the Benin Republic Haiti Cuba Trinidad and the United States Candomblé is a religion of spirit possession dance healing and blood sacrifice Most surprising to those who imagine Candomblé and other such religions as the products of anonymous folk memory is the fact that some of this religion's towering leaders and priests have been either well traveled writers or merchants whose stake in African inspired religion was as much commercial as spiritual Moreover they influenced Africa as much as Brazil Thus for centuries Candomblé and its counterparts have stood at the crux of enormous transnational forces Vividly combining history and ethnography Matory spotlights a so called folk religion defined not by its closure or internal homogeneity but by the diversity of its connections to classes and places often far away Black Atlantic Religion sets a new standard for the study of transnationalism in its subaltern and often ancient manifestations **Japanese Prayer Below the**

Ben Penglase, 2014-09-01 The residents of Caxambu a squatter neighborhood in Rio de Janeiro live in a state of insecurity as they face urban violence *Living with Insecurity in a Brazilian Favela* examines how inequality racism drug trafficking police brutality and gang activities affect the daily lives of the people of Caxambu Some Brazilians see these communities known as favelas as centers of drug trafficking that exist beyond the control of the state and threaten the rest of the city For other Brazilians favelas are symbols of economic inequality and racial exclusion Ben Penglase s ethnography goes beyond these perspectives to look at how the people of Caxambu themselves experience violence Although the favela is often seen as a war zone the residents are linked to each other through bonds of kinship and friendship In addition residents often take pride in homes and public spaces that they have built and used over generations Penglase notes that despite poverty their lives are not completely defined by illegal violence or deprivation He argues that urban violence

and a larger context of inequality create a social world that is deeply contradictory and ambivalent The unpredictability and instability of daily experiences result in disagreements and tensions but the residents also experience their neighborhood as a place of social intimacy As a result the social world of the neighborhood is both a place of danger and safety
