Memoria de la comunicación Héctor Schmucler, 1997

Borges, Second Edition Lisa Block de Behar, 2014-03-11 Borges cites innumerable authors in the pages making up his life's work and innumerable authors have cited and continue to cite him More than a figure then the quotation is an integral part of the fabric of his writing a fabric made anew by each reading and each re-citation it undergoes in the never ending throes of a work in progress Block de Behar makes of this reading a plea for the very art of communication a practice that takes community not in the totalized and totalizable soil of pre-established definitions or essences but on the ineluctable repetitions that constitute language as such and that guarantee the expansiveness through etymological coincidences of meaning

through historical contagions through translinguistic sharings of particular experiences of a certain index of universality This edition includes a new introduction by the author and three entirely new chapters as well as updated images and corrections to the original translation Sobre la imposibilidad de la traducción Dámaso López García,1991 **Walter Benjamin** Marcelo Expósito,2013 **Awake, Emerging, and Connected** Victoria Turner,2024-07-31 Millennials and Gen Zers have been characterized as individualistic capitalist consumers as politically unengaged and spiritually selfish or only interested in identity politics This edited collection by bringing together younger generations of theologians activists campaigners artists and those working in politics academia the church economics or community work offers a new narrative of justice one that is globally aware and actively intersectional Bringing together powerful young voices with a wealth of contextually grounded experiences of faith and justice spreading over Mexico India Nagaland Germany Wales Ecuador South Africa Palestine Brazil Canada Indonesia Scotland England and the Pacific the chapters in this book imagine daring new possibilities Together the chapters reveal a generation who face a burning politically and religiously right leaning egotistical world and who know clearly that the legacies of Empire which continue white hegemony patriarchy heterosexuality normalized cisgender identities the class war colonial debts Western epistemology and ecological extraction must be overcome and replaced by a transnational solidarity of resistance and reimagination **The Archives of Critical Theory** Isabelle Aubert,Marcos Nobre,2023-09-30 On the occasion of the 100th anniversary of the foundation of the Institute for Social Research in Frankfurt am Main in 1923 this book aims at shedding light on the archives of some of the key thinkers of Critical Theory of Society also well known as Frankfurt School To pay homage to this current of thought this contributed volume aims to make the archives speak for themselves to show the public the quantity of unpublished material still existing by the authors of the Critical Theory which are now in funds in different parts of the world in Germany in Italy or in the United States and to show that Critical Theory remains alive 100 years after its inception The volume starts by presenting the archives of Karl Marx and Friedrich Engels the thinkers who inspired Critical Theory and the archives of the Institute for Social Research itself Then it dedicates separate sections to the archives of Walter Benjamin Max Horkheimer Theodor W Adorno Friedrich Pollock Herbert Marcuse Leo L wenthal and Jürgen Habermas The book is composed of chapters written by researchers and editors who worked in the different fonds as well as chapters written by or interviews with researchers who were or are in charge of some of the archives or who are especially familiar with the material The Archives of Critical Theory will be an invaluable tool for researchers in many disciplines working with Critical Theory of Society such as Sociology Anthropology Political Science Philosophy History Education Law and Cultural Studies among others Readers will find information about the content of each archive and the history of its constitution The various contributions present many ways in which the materials may be explored and explain how such explorations affected or may yet affect the state of the research **Theodor W. Benjamin's Passages

Alexander Gelley, 2014-12-15 In transposing the Freudian dream work from the individual subject to the collective Walter Benjamin projected a macrosocial journey of the individual sleeper to the dreaming collective which through the arcades communes with its own insides Benjamin's effort to transpose the dream phenomenon to the history of a collective remained fragmentary though it underlies the principle of retrograde temporality which it is argued is central to his idea of history The passages are not just the Paris arcades They refer also to Benjamin's effort to negotiate the labyrinth of his work and thought Gelley works through many of Benjamin's later works and examines important critical questions the interplay of aesthetics and politics the genre of The Arcades Project citation language messianism aura and the motifs of memory the crowd and awakening For Benjamin memory is not only antiquarian it functions as a solicitation a call to a collectivity to come Gelley reads this call in the motif of awakening which conveys a qualified but crucial performative intention of Benjamin's undertaking

Changes, Conflicts and Ideologies

in Contemporary Hispanic Culture Teresa Fernandez Ulloa, 2014-06-02 This book is formed by various chapters studying the manner in which conflicts changes and ideologies appear in contemporary Hispanic discourses The contributions analyze a wide variety of topics related to the manner in which ideological and epistemological changes of the 19th 20th and 21st centuries are reflected in and shape Spanish language literature and other cultural expressions in both Spain and Latin America The 19th century was conducive to various movements of independence while in Europe radical changes of different types and in all contexts of life and knowledge occurred Language was certainly affected by these changes resulting in new terminology and discourse strategies Likewise new schools of thought such as idealism dialectic materialism nihilism and nationalism among others were established in addition to new literary movements such as romanticism evocative of r

evolution individualism and realism inspired by the social effects of capitalism Scientific and technological advances continued throughout the 20th century when the women s liberation movement consolidated The notion of globalization also appears simultaneously to various crises despotism wars genocide social exclusion and unemployment Together these trends give rise to a vindicating discourse that reaches large audiences via television The classic rhetoric undergoes some changes given the explicit suasion and the absence of delusion provided by other means of communication The 21st century is defined by the flood of information and the overpowering presence of mass communication so much so that the technological impact is clear in all realms of life From the linguistic viewpoint the appearance of anglicisms and technicalities mirrors the impact of post modernity There is now a need to give coherence to a national discourse that both grasps the past and adapts itself to the new available resources with the purpose of conveying an effective and attractive message to a very large audience Discourse is swift since society does not seem to have time to think but instead seeks to maintain interest in a world filled with stimuli that in turn change constantly Emphasis has been switched to a search for historical images and moments that presumably explain present and future events It is also significant that all this restlessness is discussed and explained via new means such as the world wide web The change in communication habits e mail chats forums SMS and tools computers mobile phones that was initiated in the 20th century has had a net effect on the directness and swiftness of language

Kafka Gilles Deleuze,1986 In Kafka Deleuze and Guattari free their subject from his mis intepreters In contrast to traditional readings that see in Kafka s work a case of Oedipalized neurosis or a flight into transcendence guilt and subjectivity Deleuze and Guattari make a case for Kafka as a man of joy a promoter of radical politics who resisted at every turn submission to frozen hierarchies

The Emblem and its Variations Paulette Choné,Marie Chaufour,Jean-Jacques Chardin,2025-07-22 An emblem is a combination of images and texts that flourished in the early modern period The book presents the culture of the emblem and its influences and adaptations in various art forms from the late sixteenth century to the 1930s It also looks at the production of emblem books the symbolism of certain recurring motifs in emblem collections and printed emblems as objects of religious devotion The emblem requires the deciphering of images whose meaning often remains obscure and the book aims to remind twenty first century readers living in a world where iconographic motifs are ubiquitous that understanding images is as demanding today as it was in the early modern period The book will be of interest to specialists in the history of art and early modern culture as well as to readers wishing to familiarize themselves with the art of reading images
