theories Part II links the subject to other disciplines Part III focuses on methods Part IV highlights applications and Part V examines the future of the field Defining the ongoing revolution in thinking about how the environment and psychology interact Handbook of Environmental Psychology is must reading for anyone coping directly with the attitudes beliefs and behaviors that are destroying our environment and putting our lives in jeopardy Topics include Healthy design Restorative environments Links to urban planning Contaminated environments Women s issues Environments for aging Climate weather and crime The history and future of disaster research Children s environments Personal space in a digital age Community planning Democracy and Technology Richard Sclove,1995-07-28 Intended for anyone interested in democracy and public policy social justice and empowerment political economy and business or the social consequences of technology and architecture **The Oxford Dictionary of Architecture** James Stevens Curl,Susan Wilson,2015-02-26 Containing over 6 000 entries from Aalto to Zwinger and written in a clear and concise style this authoritative dictionary covers architectural history in detail from ancient times to the present day It also includes concise biographies of hundreds of architects from history excluding living persons from Sir Francis Bacon and Imhotep to Liang Ssu ch eng and Francis Inigo Thomas The text is complemented by over 260 beautiful and meticulous line drawings labelled cross sections and diagrams These include precise drawings of typical building features making it easy for readers to identify particular period styles This third edition of The Oxford Dictionary of Architecture has been extensively revised and expanded with over 900 new entries including hundreds of definitions of garden and landscape terms such as Baroque garden floral clock hortus conclusus and Zen garden design Each entry is followed by a mini bibliography with suggestions for further reading The full bibliography to the first edition previously only available online has also been fully updated and expanded and incorporated into this new edition This is an essential work of reference for anyone with an interest in architectural and garden history With clear descriptions providing in depth analysis it is invaluable for students professional architects art historians and anyone interested in architecture and garden design and provides a fascinating wealth of information for the general reader Persuasive Imagery Linda M. Scott,Rajeev Batra,2003-04-02 This volume synthesizes and advances existing knowledge of consumer response to visuals Representing an interdisciplinary perspective contributors include scholars from the disciplines of communication psychology and marketing The book begins with an overview section intended to situate the reader in the discourse The overview describes the state of knowledge in both academic research and actual practice and provides concrete sources for scholars to pursue Written in a non technical language this volume is divided into four sections Image and Response illustrates the difficulty encountered even in investigating the basic influences processes and effects of mere exposure to imagery Image and Word presents instances in which the line between words and pictures is blurred such as the corporate logo which is often pictorial in nature but communicates on an abstract level usually attributed to words Image and the Ad contributes to our appreciation for the exquisite variations among advertising texts and the resultant variability in

response not only to different ads but among different viewers of the same ad Image and Object carries the inquiry of visual response over the bridge toward object interaction Having traveled a path that has gone from the precise working of the brain in processing visual stimuli all the way to the history of classical architecture readers of this volume will have a new respect for the complexity of human visual response and the research that is trying to explain it It will be of interest to those involved in consumer behavior consumer psychology advertising marketing and visual communication

Retrofitting the City Stefan Bouzarovski, 2015-11-25 Cities are responsible for three quarters of the world's energy consumption If we are to reduce our demands on the planet's resources how can we make our urban areas more energy efficient One way is to refit existing buildings with more thermally efficient building materials But such retrofitting involves significant issues of social acceptance and public participation Retrofitting the City provides an important corrective to the assumptions that have been made concerning the ability of people and places to cope with such residential transformation Drawing upon case studies from a number of European cities that have undergone far reaching change in their built environments the author shows that supposedly inadaptably people and places show a strong if often hidden degree of flexibility in responding to economic change and building transformation
