Social Welfare Policy W. Joseph Heffernan, 1992 **The Foundations of Social Work Knowledge** Frederic G. Reamer, 1994 Leading social work educators explain the essential components of the social work curriculum social work practice policy and services human behavior in the social environment research and evaluation field education ethics oppression and social injustice and diversity and populations at risk including ethnic minorities and people of color women lesbians and gays and people with disabilities *The Role of Gender in Practice Knowledge* Josefina Figueira McDonough, F. Ellen Netting, Ann Nichols Casebolt, 2018-10-24 Feminist critiques of the social sciences are based on the assumption that because the social sciences were developed for the most part by white middle class Western men the perspectives of women were ignored This book offers an approach for integrating gender related content into the social work curriculum The distinguished contributors discuss the shortcoming of dominant knowledge address the pressing need for a gender integrated curriculum consider the pedagogies consistent with the implementation of an integrate curriculum address specific areas in social work education assessing content and assumptions and discuss strategic issues for the implementation of curricular knowledge *Abstracts of Public Administration, Development, and Environment* , 1993

Australian National Bibliography: 1992 National Library of Australia, 1988 **Asian Mitigation: Insights, Mitigation Actions, Strategies And Policies For Asian Economies** Hongbo Duan, 2025-04-29 Asian countries play a significant role in emission mitigation which is one of the central pillars of the global effort to meet the 1.5 C and 2 C climate goals pledged in the Paris Agreement This book contains a series of essays that explore how Asian territories are contributing to substantial emission reductions by presenting in depth insights and fresh perspectives on optimal mitigation actions strategies and policies in Asian economies A set of quantitative models such as CGE models DSGE models LEAP models LCA approaches and input output methods are used and developed to examine roles of mitigation at different scales including climate governance on regional levels distributional effects at the sectoral level and policy effectiveness assessment on the firm level The studies included in the book make novel contributions to the existing literature about the implementation of the Paris Agreement goals and policy making at the regional scale in both Asian and non Asian economies **APAIS 1992:**

Australian public affairs information service , **The New Custodians of the State** Genieys, William, 2010 The New Custodians of the State uses contemporary France to reassess sociological theories of political and policymaking elites Based on detailed case studies drawn from social policy and national defense sectors it concludes that a new type of sectorally based elite has risen to prominence in France since the 1980s Genieys suggests that programmatic elites found in specific policy sectors made up of individuals linked both by common career paths and the resulting skills and expertise should be seen as new guardians of state power Like their technocratic predecessors programmatic elites maintain a high degree of independence with respect to electoral politics and to civil society like them they share an ideological commitment to protect

and expand the role of the state in French society Unlike them however these new guardians of the state are structured around specific policy programs and limited in scope to a given sector Competition among programmatic elites at the highest levels of the state emerges as the chief driving force behind innovation for social change The New Custodians of the State introduces programmatic elites both as real world actors and as an analytic category and highlights the limits of elite power by analyzing the defeat of reform efforts by the French Ministry of Defense This book presents a thought provoking critical case study that suggests that models presenting either a single unified state elite or those that herald or decry the demise of the state require modification The work will be of interest to students and scholars of France and its society and government as well as anyone interested in the policymaking process in other countries with respect to domestic policy or national defense Jacket **Clearinghouse Review** ,1978 **Choice** ,1992
