

SOCIOLOGICAL IMAGINATION

Sociological imagination refers to a way of seeing the world which transcends the individual and takes a sociological view of the world.

DEFINITION

Mills defined the sociological imagination as the ability to "grasp history and biography and the relations between the two within society." (Mills, 1959)

EXAMPLES

1. Recognizing the connections between our personal experiences (biography) and larger socio-historic forces (history).
2. Learning to identify when certain phenomena are the result of structural forces acting upon an individual.
3. Learning to isolate and identify all the social forces acting upon an individual.

Sociological Imagination Custom

Artemis Leontis

Sociological Imagination Custom:

The Reception of Jewish Tradition in the Social Imagination of the Early Christians John M.G. Barclay, Kylie Crabbe, 2021-08-26 The contributors to this volume take as their theme the reception of Jewish traditions in early Christianity and the ways in which the meaning of these traditions changed as they were put to work in new contexts and for new social ends. Special emphasis is placed on the internal variety and malleability of these traditions which underwent continual processes of change within Judaism and on reception as an active strategic and interested process. All the essays in this volume seek to bring out how acts of reception contribute to the social formation of early Christianity in its social imagination, its speech and thought about itself or in its social practices or both. This volume challenges static notions of tradition and passive ideas of reception, stressing creativity and the significance of strong readings of tradition. It thus complicates standard narratives of the parting of the ways between Christianity and Judaism, showing how even claims to continuity were bound to make the same different.

Blaise Pascal on Duplicity, Sin, and the Fall William Wood, 2013-07-04 Blaise Pascal's account of the cognitive consequences of the Fall is clearly set out by William Wood in the first book on Pascal's theology to appear in English in more than forty years. Wood's central claim is that for Pascal the Fall is a fall into duplicity. Pascal holds that as fallen selves in a fallen world, human beings have an innate aversion to the truth that is also at the same time an aversion to God. According to Pascal, we are born into a duplicitous world that shapes us into duplicitous subjects, and so we find it easy to reject God continually and deceive ourselves about our own sinfulness. Pascal's account of the noetic effects of sin has long been overlooked by theologians, but it is both traditional and innovative. It is robustly Augustinian with a strong emphasis on the fallen will, the darkened intellect, and the fundamental sin of pride. Yet it also embraces a view of subjectivity that seems strikingly contemporary. For Pascal, the self is a fiction constructed from without by an already duplicitous world. The human subject is habituated to deception because it is the essential glue that holds his world together. This book offers more than just a novel interpretation of Pascal's *Pensées*. Wood demonstrates by exegetical argument and constructive example that Pascalian theology is both possible and fruitful.

Managing Death: International Perspectives Gerry R. Cox, Neil Thompson, 2022-09-23 There is a huge collection of literature relating to death, grief, and bereavement, but one aspect that has received relatively little attention is that of death management practices, by which we mean the various ways of managing the circumstances of the death, ritually acknowledging it, and sensitively handling the disposal of the body, and so on. While ways of disposing of the dead and grief practices have been thought of as based upon individual responses, grief and bereavement practices can be understood not only by looking at psychological and medical frameworks but also by examining people as part of a complex structure of social arrangements, institutions, structures, and patterns. By examining the social and institutional structures of various groups around the world, we provide an international framework for a better understanding of the study of dying, death, and bereavement. This book highlights the significance of these matters in an

international context reflecting common themes and important differences It will highlight common themes across diverse cultures and national settings while also drawing attention to significant differences If professionals working in the field of death grief and bereavement are not aware of such differences their practice can be insensitive discriminatory and therefore ineffective if not actually counterproductive As such the book provides an invaluable resource for a wide variety of professionals and students including medicine and health care social work counselling and psychotherapy chaplaincy and pastoral work and of course those involved in the funeral industry In addition students of sociology psychology and anthropology will find much of interest here in terms of appreciating the diversity of ways in which funerals and other death management practices are managed and integrated into social life

Headhunting and the Social Imagination in Southeast Asia Jules de Raedt, Janet Hoskins, 1996 This book brings together material on headhunting from several Southeast Asia societies examines its cultural contexts and relates them to colonial history violence and ritual

Contemporary Sociological Theory Doyle Paul Johnson, 2008-04-23 This volume is designed as a basic text for upper level and graduate courses in contemporary sociological theory Most sociology programs require their majors to take at least one course in sociological theory sometimes two A typical breakdown is between classical and contemporary theory Theory is perhaps one of the broadest areas of sociological inquiry and serves as a foundation or framework for more specialized study in specific substantive areas of the field In addition the study of sociological theory can readily be related to various aspects of other social science disciplines as well From the very beginning sociology has been characterized by alternative theoretical perspectives Classical theory includes the European founding figures of the discipline whose works were produced during the later half of the nineteenth century and the first couple of decades of the twentieth century plus early American theorists For most of the second half of the twentieth century a fairly high consensus has developed among American sociologists regarding these major founders particularly with regard to the works of Durkheim and Weber in analyzing the overall society and of Simmel in analyzing social interaction processes Since the late 1960s and early 1970s the influence of Marx has also been recognized Recent decades have also witnessed an increased emphasis on the important contributions of several pioneering feminist perspectives in the early years of sociology

The Concealed Influence of Custom Jay L. Garfield, 2019 This volume provides a reading of Hume's Treatise as a whole foregrounding Hume's understanding of custom and its role in the Treatise It shows that Hume grounds his understanding of custom in its usage in English legal theory and that he takes custom to be the foundation for normativity in all of its guises whether moral epistemic or social The book argues that Hume's project in the Treatise is to provide a socially inflected cognitive science to understand how persons are constituted through an interaction of individual psychology and their social matrix and that custom provides the ligature that ties together Hume's naturalism and skepticism In doing so it shows that Hume is a consistent Pyrrhonian skeptic but that he takes the positive part of the skeptical program seriously showing not only that our practices have no foundation but that

they need none and that custom alone serves to explain and to justify our practices Resumen editorial *Folkways - A Study Of The Sociological Importance Of Usages, Manners, Customs, Mores And Morals* William Graham Sumner,2011-12-09 Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork *Social Life, Or, The Manners and Customs of Polite Society* Maud C. Cooke,1896 **Culture and Customs of Argentina** David William Foster,Melissa Lockhart,Darrell B. Lockhart,1998-11-24 Argentina one of the most dynamic societies in Latin America is known for its impressive level of cultural production This examination of the social and cultural institutions of Argentine society contains a series of comprehensive and informative essays that focus on the most important forms of cultural production in terms of major works major artists and major venues Students and interested readers will discover what is unique about Argentina s culture and customs in this thorough and engaging overview The authors describe the issues that have dominated Argentine society and place everything in its proper context by including a chronology of major historic events This volume also contains chapters on Religion Social Customs Broadcasting and Print Media Cinema Literature Performing Arts and Art including Sculpture Photography Architecture Painting **Culture and Customs of Greece** Artemis Leontis,2009-04-30 The Parthenon Plato Socrates and Aristotle Homer s epic poems Gods and goddesses lounging around indulging in pleasures on Mount Olympus All of these images bring to mind the traditional icons of Greece the cradle of Western Civilization But what do we know of modern Greece The answer to that question and more can be found in this comprehensive look at contemporary Greek culture This one stop reference source is packed with illustrative descriptions of daily life in Greece in the 21st century Ideal for high school students and even undergraduates interested in studying abroad this extensive volume examines topics such as religion social customs leisure life festivals language literature performing arts media and modern art and architecture among many other topics Woven into the text are beautiful and accurate vignettes of Greek life helping to illustrate how it is people live A crossroads between Europe Africa and the Middle East Greece is fighting to hold on to the culture of yesterday while still looking toward modernity Culture and Customs of Greece is a must have volume for all high school and public library shelves
