Talking With God The Many Faces Of Religious Delusion:

Talking With God Robert Alfred Clark, 1994-01-01 *The Many Faces of Faith* Michael Taylor, 2009-12-02 Faith is one of the most critical aspects of the Christian life because it is the means by which we receive all that God has secured for us yet the nature of faith is one of the most misunderstood concepts of Christianity Some conceptualize faith as some mental state that one must reach before they are able to tap into God's resources Others view faith as some sort of incorporeal substance that is out there for which we must reach All of these concepts of faith are deficient if not heretical and yet all of them are found in the church Others view faith as a mere fantasy or hope with no basis in reality and thus religious claims are excluded from the arena of knowledge For a number of years my heart has been trilled over the doctrine of faith as it is received and taught among evangelical Christians everywhere Great emphasis is laid upon faith in orthodox circles and that is good but still I am troubled Specifically my fear is that the modern conception of faith is not the biblical one that when the teachers of our day use the word they do not mean what Bible meant when they used it I also share the same concerns with A W Tozer when he said the cause of my uneasiness are these 1 The lack of spiritual fruits in the lives of so many who claim to have faith 2 The rarity of a radical change in the conduct and general outlook of persons professing their new faith in Christ as their personal Savior 3 The failure of our teachers to define or even describe the thing to which the word faith is supposed to refer 4 The heartbreaking failure of multitudes of seekers is they are even so earnest to make anything out of the doctrine or to receive any satisfying experience through it 5 The real danger that a doctrine that is parroted so widely and received so uncritically by so many is false as understood by them 6 I have seen faith put forward as an escape from reality a refuge from the necessity of hard thinking a hiding place for weak character natural optimism emotional thrills and nervous tics

Therefore in the pages of this book I will endeavor to outline for your benefit the dynamics of faith What is faith How does faith work How to grow in faith The power of faith the Excellency of faith the demand of faith the perseverance of faith the challenges of faith the object of faith the effect of faith the response of faith the discipline of faith the necessity of faith and many more are discussed **Conversation with God** David C. Wilson, 2020-08-07 David Wilson didn't know where to turn when his wife Chris was in the depths of clinical depression brought on by chronic fatigue syndrome and anorexia In despair he entered an empty church and said a simple prayer I have no power to affect anything in my life but you have the power If you help me I will serve you From then on their lives began to change A prayer group contacted them and through the power of prayer Chris's condition began to improve At the same time she found herself developing remarkable gifts of prophecy The author embarked on a theology course enabling him to look at what had happened to him and to Chris with a new perspective Is there he wondered a link between depression and spiritual awareness The author looks at the lives of Elijah and other Old Testament prophets and notes how signs of depression coincided with spiritual insights This fascinating and thought provoking book is the story of a couple's spiritual journey as well as a profound meditation on the connection

between depression and prophecy Talking Seriously About God Asle Eikrem, Atle O. Søvik, 2016 Talk about God is often the source of controversy Theists and atheists are equally passionate when making their stand for or against belief in God In this book a wide range of philosophers of religion have come together to discuss how serious talk about God ought to be conducted for theists and atheists alike in what should be their common pursuit for truth The essays both address methodological questions and provide a range of concrete samples of serious God talk spanning from political religion and classical proofs of God's existence to the problem of evil Series Nordic Studies in Theology Nordische Studien zur Atheism Vol 4 Subject Religious Studies *God Talk* James Copenhaver, L. Rodney Sheffer, 2010-04 Since we as human beings are a part of the natural biota of the earth and the earth is a part of the natural universe the only thing we can really know about is the natural universe Therefore Nature is the only thing we can think or talk about To think or talk about things that are not about Nature is to think or talk about things about which we know nothing Extra natural or as some would say supernatural things are things about which we know nothing Therefore we cannot escape the conclusion that those theologians priests pastors and ministers who speak of extra natural supernatural things do not know what they are talking about If we pay any attention at all to people who don't know what they are talking about what does that say about us *C.S. Lewis—On the Christ of a Religious Economy*, 3.2 P. H. Brazier, 2014-01-16 C S Lewis On the Christ of a Religious Economy II Knowing Salvation opens with a discussion of the Anscombe Lewis debate the theological issues relating to revelation and reason Christ the Logos This leads into Lewis on the Church the body of Christ and his understanding of religion how is salvation enacted through the churches how do we know we are saved This concludes with for Lewis the question of sufferance and atonement substitution and election deliverance and redemption heaven hell resurrection and eternity Christ's work of salvation on the cross What did Lewis say of humanity in relation to God now Immanuel God with us incarnate crucified resurrected and ascended for humanity What of Lewis's own death and that of his wife What does this tell us about the triune God of Love who is Love This volume forms the second part of the third book in a series of studies on the theology of C S Lewis titled C S Lewis Revelation and the Christ The books are written for academics and students but also crucially for those people ordinary Christians without a theology degree who enjoy and gain sustenance from reading Lewis's work www.cslewisandthechrist.net **Calvin: Institutes of the Christian Religion** John Calvin, This is the definitive English language edition of one of the monumental works of the Christian church All previous editions in Latin French German and English have been collated references and notes have been verified corrected and expanded and new bibliographies have been added The translation preserves the rugged strength and vividness of Calvin's writing but also conforms to modern English and renders heavy theological terms in simple language The result is a translation that achieves a high degree of accuracy and at the same time is eminently readable Long recognized for the quality of its translations introductions explanatory notes and indexes the Library of Christian Classics provides scholars and students with modern English

The Congregationalist and Christian World ,1902 **Kierkegaard and the Concept of Religious Authorship** Keith H. Lane,2010 Keith H Lane examines Soren Kierkegaard s concept of religious authorship and argues for Kierkegaard s status as a religious author He elucidates how such authorship may have similarities to philosophical authorship particularly philosophy as envisioned by Ludwig Wittgenstein and wherein the two differ Starting with Kierkegaard s Concluding Unscientific Postscript and giving special attention to The Point of View and other later writings Lane investigates aspects of thought and expression that may be unique to religious authorship and explores the particular constraints challenges and opportunities for one who writes from within a framework of religious belief and commitment including such issues as protectionism apologetics persuasion and the tension between certainty and uncertainty that attends religious authorship

Religion and Psychiatry Peter Verhagen,Herman M. Van Praag,Juan José Lopez-Ibor,John Cox,Driss Moussaoui,2012-02-27 Religion and spirituality is very much alive and shapes the cultural values and aspirations of psychiatrist and patient alike as does the choice of not identifying with a particular faith Patients bring their beliefs and convictions into the doctor patient relationship The challenge for mental health professionals whatever their own world view is to develop and refine their vocabularies such that they truly understand what is communicated to them by their patients Religion and Psychiatry provides psychiatrists with a framework for this understanding and highlights the importance of religion and spirituality in mental well being This book aims to inform and explain as well as to be thought provoking and even controversial Patiently and thoroughly the authors consider why and how when and where religion and spirituality are at stake in the life of psychiatric patients The interface between psychiatry and religion is explored at different levels varying from daily clinical practice to conceptual fieldwork The book covers phenomenology epidemiology research data explanatory models and theories It also reviews the development of DSM V and its awareness of the importance of religion and spirituality in mental health What can religious traditions learn from each other to assist the patient Religion and Psychiatry discusses this as well as the neurological basis of religious experiences It describes training programmes that successfully incorporate aspects of religion and demonstrates how different religious and spiritual traditions can be brought together to improve psychiatric training and daily practice Describes the relationship of the main world religions with psychiatry Considers training policy and service delivery Provides powerful support for more effective partnerships between psychiatry and religion in day to day clinical care This is the first time that so many psychiatrists psychologists and theologians from all parts of the world and from so many different religious and spiritual backgrounds have worked together to produce a book like this one In that sense it truly is a World Psychiatric Association publication Religion and Psychiatry is recommended

Speak Your Healing from the Homosexual Deception Bonnie M. Egglehand,2014-10-08 The lies of homosexuality dissipate because a life of purity in Christ Jesus decidedly removes the homosexual deception Each step toward Jesus brings us closer to His image and we are changed We emerge free to be exactly whom Father God created us to be Leaving all secrets with honesty and transparency before God and man forgiving ourselves and all abusers we emerge in our true identity with a heterosexual desire This desire for the opposite sex is as natural as apple pie Leaving the judgments the facades the sins and all idols the stark truth remains Our true identity is found in Jesus Christ alone **Religion and Science: A Beautiful Friendship?** Robert W. Fuller,1900 Although grievances leap to mind when we consider making peace with an old foe ultimate success depends on identifying not where each side is wrong but where each is right Seeing some good in others doesn't mean blinding ourselves to what's wrong and harping on the latter is no way to make peace Current attacks on religion are ignoring the fact that it got some very big things right However religion must acknowledge that its spokesmen have repeatedly failed to distinguish between its great discoveries and its mistakes Not only have some religious leaders ignored compelling evidence but they like the leaders of secular institutions have all too often failed to live up to the standards of behavior they espouse Paradoxically science makes even more mistakes than religion but it saves itself by being quicker to recognize and correct them Niels Bohr the father of atomic physics ascribed his breakthroughs to making my mistakes faster than others The difference between science and religion is not that one has babies in its bath water and the other doesn't The difference is that science drains its dirty bath water faster leaving its gleaming babies for all to admire Science gives us reason to think we can vanquish famine disease and poverty Religion heralds peace on Earth goodwill toward men Neither of these venerable institutions can deliver on its promise without help from the other but together there is reason to hope that they can **The Christian Union** ,1887 **The Christian Advocate** ,1929
