Tall Ships on Puget Sound Chuck Fowler, Charles Roy Fowler, 2007 Tall sailing ships came to the Pacific Northwest beginning in the mid 1700s Met by native Salish people the ships brought Spanish British Russian and American explorers as well as settlers and entrepreneurs to the Puget Sound region Over the next two centuries during boom and bust periods these majestic vessels continued to ply the waters of Puget Sound Today the proud tall ships operate in a training and education rather than commercial context **The Romance of Tall Ships** Jonathan Eastland, 1991-06 Tall Ships

'76 American Sail Training Association, Cruising World Publications, Inc, 1976 *Tall Ships Down* Daniel S. Parrott, 2004 Technologically outmoded and once nearly swept from the seas tall ships have experienced a fifty year renaissance as sail training and passenger vessels and we are the richer for it After all what sight has more power to stir the soul than a tall ship under sail with its acres of canvas and miles of rigging But that resurgence has had a tragic side and professional mariner

and maritime scholar Dan Parrott explores it in *Tall Ships Down* a groundbreaking reconstruction of the losses of the 316 foot barque Pamir in 1957 the 117 foot brigantine Albatross in 1961 the 117 foot barque Marques in 1984 the 137 foot Pride of Baltimore in 1986 and the 125 foot brig Maria Asumpta in 1995 Together these disasters claimed 112 lives The stories of these majestic ships have been subject to mystery and distortion In some instances even the survivors could not explain what went wrong and in others the official inquiries failed to articulate the most critical lessons hidden in the sudden terrible catastrophes until now Parrott traces the history of each ship from its building and early career through subsequent owners modifications His vivid re creations of each final voyage dissect the circumstances of loss from forensic evidence expert testimony survivors memories and his own considerable experience Carefully examined the evidence shows that contrary to some official findings ignorance of and disregard for age old practices of seamanship were at least as responsible for the tragedies as acts of God In some instances the seeds of a ship s ultimate undoing were planted years before as ill considered structural changes rig modifications and mission creep eroded its stability and seaworthiness Cargo loose in holds hatches unsecured at sea freeing ports timbered shut failure to preserve proper sea room these and other factors emerge from Parrott s analysis as contributing factors Book Jacket **Cruising World** ,2000-01 *Cruising World* ,1985-07
