Tangled Tongue Jock A. Carlisle, 1985-01-01      *Tangled Tongue* Jock A. Carlisle, 1985      Knotted Tongues Benson Bobrick, 2011-01-11 A former stutterer Benson Bobrick here offers his perspective on the condition as well as an interesting history of how physicians have treated it Stuttering or stammering the terms are interchangeable clinically occurs four times more frequently in males and ranges from mild hesitation in speech to severe disability Hot irons were applied to stutterers lips in the Middle Ages and in the mid 19th century risky tongue operations were performed in failed attempts to effect a cure Bobrick discusses famous stutterers Charles Darwin Henry James Winston Churchill and Jimmy Stewart and he describes the adverse impact of their condition on their lives In this century psychological trauma has often been cited as the cause of stuttering but recent evidence points to a genetic disorder involving a disturbed auditory function Therapeutic practices differ but the author credits a voice feedback system with bringing his condition under control      *Living and Learning with a Child Who Stutters* Lise G. Cloutier-Steele, 1995-01-01 *Living Learning with a Child Who Stutters* from a parent s point of view      **Stuttering** Barry Guitar, 2013-01-29 *Stuttering An Integrated Approach to Its Nature* presents the most comprehensive textbook on the topic today providing an overview of the etiology and development of stuttering and details appropriate approaches to accurate assessment and treatment Exploring a variety of practice settings this core introductory book grounds all topics in a firm basis of the disorder s origin and nature This edition has been thoroughly updated to address all current methodologies      Neuropsychology of Stuttering Einer Boberg, 1993 Papers from seven internationally renowned scholars in the areas of neuropsychology and speech pathology are presented in this collection This book will be of major interest to graduate students researchers and clinicians in the fields of speech pathology psychology and neuropsychology      **Coping with Stuttering** Peter Louw, 1996      **Mental Illness in Popular Media** Lawrence C. Rubin, 2014-01-10 Whether in movies cartoons commercials or even fast food marketing psychology and mental illness remain pervasive in popular culture In this collection of new essays scholars from a range of fields explore representations of mental illness and disabilities across various media of popular culture Contributors address how forms of psychiatric disorder have been addressed in film on stage and in literature how popular culture genres are utilized to communicate often confusing and conflicted relationships with the mentally ill and how popular cultures around the world reflect mental illness and disability Analyses of sources as disparate as the Batman films Broadway musicals and Nigerian home movies reveal how definitions of mental illness mental health and of psychology itself intersect with discourses on race gender law capitalism and globalization Instructors considering this book for use in a course may request an examination copy here      *Literature, Speech Disorders, and Disability* Christopher Eagle, 2013-10-08 Examining representations of speech disorders in works of literature this first collection of its kind founds a new multidisciplinary subfield related but not limited to the emerging fields of disability studies and medical humanities The scope is wide ranging both in terms of national literatures and historical

periods considered engaging with theoretical discussions in poststructuralism disability studies cultural studies new historicism gender studies sociolinguistics trauma studies and medical humanities The book's main focus is on the development of an awareness of speech pathology in the literary imaginary from the late eighteenth century to the present studying the novel drama epic poetry lyric poetry autobiography and autopathography and clinical case studies and guidebooks on speech therapy The volume addresses a growing interest both in popular culture and the humanities regarding the portrayal of conditions such as stuttering aphasia and mutism along with the status of the self in relation to those conditions Since speech pathologies are neither illnesses nor outwardly physical disabilities critical studies of their representation have tended to occupy a liminal position in relation to other discourses such as literary and cultural theory and even disability studies One of the primary aims of this collection is to address this marginalization and to position a cultural criticism of speech pathology within literary studies
