their Schwerpunkt toward the Volga and the Caucasus and again achieved some degree of success but the Red Army had grown much stronger and by November 1942 the Soviets were able to turn the tables at Stalingrad Robert Forczyk's incisive study offers fresh insight into how the two most powerful mechanized armies of the Second World War developed their tactics and weaponry during the critical early years of the Russo German War He uses German Russian and English sources to provide the first comprehensive overview and analysis of armored warfare from the German and Soviet perspectives His analysis of the greatest tank war in history is compelling reading Includes photos Army History ,1989 Air Force Magazine ,1990 *Dictionary of American Naval Fighting Ships: Historical sketches: Letters T through V.
