TANKS OF THE WORLD

1915-1945

Tanks Of The World 1915 1945

George Bradford

Tanks Of The World 1915 1945:

Tanks of the World, 1915-1945 Peter Chamberlain, Chris Ellis, 2002 It s the essential source book on tanks an extensive pictorial history with unmatched technical illustrations and data throughout Over 1000 photographs with development notes show all the tanks produced for military service by the major arms producing countries during this crucial period Even prototypes and experimental models appear Arranged chronologically from the early days of World War One to the Russian and German heavy tanks used in 1945 the entry for each vehicle has notes on design production and performance Invaluable for the enthusiast and collector A Selection of the Military Book Club *Pictorial History of Tanks of the World 1915-1945* Peter Chamberlain, Chris Ellis, 1972 *1914-1938 Armored Fighting Vehicles* George Bradford, 2010-09-20 George Bradford s latest collection of scale drawings of armored fighting vehicles focuses on the years from World War I to the eve of World War II a period of fast paced AFV development around the world The volume is filled with detailed diagrams of more than 100 vehicles from Britain Czechoslovakia France Germany Italy Japan Poland Romania the Soviet Union and the United States including Whippet medium tank Britain Renault R35 light tank France Panzer I light tank Germany T 35 multiturreted tank Soviet Union T3 Christie tank United States And many more Tanks Spencer C. Tucker, 2004-10-25 This expert study discusses the development and evolution of the tank and the tactics behind its employment covering both its capabilities as a weapons system and its strategic use on the battlefield **Tanks An Illustrated History of the Their Impact** follows the development of tracked and armored fighting vehicles across the 20th century from the world wars to the Cold War battlefields of Korea and Vietnam and from Arab Israeli conflicts to the Persian Gulf The book describes the distinctive characteristics and capabilities of each new generation of tank as well as the formulation of armored doctrines and deployment strategies in France Britain Germany the Soviet Union the United States Japan Israel and the Arab nations It is an expert introduction to how the role of the tank has changed over time a story of technological innovation strategic daring desperate battles Stalingrad Kursk and charismatic commanders like Erwin Rommel and George S Patton who defeated Rommel s division by following a plan from the Desert Fox s own book **The Tank Killers** Harry Yeide, 2020-01-10 A fantastic read Whether your interest is armour or history I would highly recommend this book **Military Modelling The tank destroyer** was a bold though some would say flawed answer to the challenge posed by the seemingly unstoppable German Blitzkrieg The TD was conceived to be light and fast enough to outmaneuver panzer forces and go where tanks could not At the same time the TD would wield the firepower needed to kill any German tank on the battlefield Indeed American doctrine stipulated that TDs would fight tanks while American tanks would concentrate on achieving and exploiting breakthroughs of enemy lines **The Tank Killers** follows the men who fought in the TDs from the formation of the force in 1941 through the victory over the Third Reich in 1945 It is a story of American flexibility and pragmatism in military affairs Tank destroyers were among the very first units to land in North Africa in 1942 Their first vehicles were ad hoc affairs

halftracks and weapons carriers with guns no better than those on tanks thin armor affording the crews considerably less protection Almost immediately the crews began adapting to circumstances along with their partners in the infantry and armored divisions By the time North Africa was in Allied hands the TD had become a valued tank fighter assault gun and artillery piece The reconnaissance teams in TD battalions meanwhile had established a record for daring operations that would continue for the rest of the war The story continues with the invasion of Italy and finally that of Fortress Europe on June 6 1944 By now the brass had decreed that half the force would convert to towed guns a decision that dogged the affected crews through the end of the war The TD men encountered increasingly lethal enemies ever more dangerous panzers that were often vulnerable only to their guns while American tank crews watched in frustration as their rounds bounced harmlessly off the thick German armor They fought under incredibly diverse conditions that demanded constant modification of tactics and their equipment became ever more deadly By VE Day the tank destroyer battalions had achieved impressive records generally with kill loss rates heavily in their favor Yet the army after the war concluded that the concept of a separate TD arm was so fundamentally flawed that not a single battalion existed after November 1946 The Tank Killers draws heavily on the records of the tank destroyer battalions and the units with which they fought as well as personal stories from veterans of the force

World War II Spencer C. Tucker,2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war Its introductory overview essays and cross referenced A Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world The coverage addresses the individuals campaigns battles key weapons systems strategic decisions and technological developments of the conflict as well as the diplomatic economic and cultural aspects of World War II The five volume set provides comprehensive information that gives readers insight into the reasons for the war s direction and outcome Readers will understand the motivations behind Japan s decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war s outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents volume represents a valuable repository of additional information for student research

The Era of World War II Louise A. Arnold-Friend,1979 **Armor** ,1973 [American Military Vehicles of World War I](#) Albert Mroz,2009-10-21 In World War I the American motor vehicle industry was tested by the sudden appearance of vast transport challenges The nation s immense manufacturing capabilities and abundant natural

resources combined with increased standardization and mass production to enable the industry to meet the military's needs. Motor vehicles and aircraft were quickly cemented as the most influential military tools of the early twentieth century. This book both describes the development and use of a wide range of specialized motor vehicles during World War I and analyzes how their advent indelibly altered modern warfare and transportation. Marine Tank Battles In Pacific Oscar E. Gilbert, 2007-10-09 No previous book has been devoted to Marine Corps armor in World War II. Gilbert's gripping narrative combines exhaustive detail on Marine armor and combat with moving eyewitness accounts never before published of what it was actually like to be a Marine tankerman in action in the Pacific. Special Bibliography, 1978 **The Infantry's Armor** Harry Yeide, 2010-02-17 Tanks, amphibian tanks and amphibian tractors in action in all theaters from Africa and Europe to the Pacific. How the battalions fought the war, often in the tankers' own words. Crystal clear maps. The U.S. Army's separate armored battalions fought in obscurity by comparison with the flashy armored divisions but they carried the heavier burden in the grim struggle against the Axis in World War II. The battalions participated in every armored amphibious assault that the army conducted. They did most of the bloody work in Italy, made vital contributions in France and constituted the entire effort in the Pacific. **The Roots of Blitzkrieg** James S. Corum, 1992 Following Germany's defeat in World War I, the Germans signed the Versailles Treaty, theoretically agreeing to limit their war powers. The Allies envisioned the future German army as a lightly armed border guard and international security force. The Germans had other plans. **World War I** Spencer C. Tucker, 2014-10-28 Offering exhaustive coverage, detailed analyses and the latest historical interpretations of events, this expansive five-volume encyclopedia is the most comprehensive and detailed reference source on the First World War available today. One hundred years after the beginning of World War I in 1914, this conflict still stands as perhaps the most important event of the 20th century. World War I toppled all of the existing empires at the time, transformed the Middle East and vaulted the United States to becoming the world's leading economic power. Its effects were profound and lasting and included outcomes that led to World War II. This multivolume encyclopedia provides a wide-ranging examination of World War I that covers all of the important battles, key individuals, both civilian and military, weapons and technologies, and diplomatic, social, political, cultural, military, and economic developments. Suitable as a reference tool for high school and undergraduate students as well as faculty members and graduate-level researchers, *World War I: The Definitive Encyclopedia and Document Collection* offers accessible, in-depth information and up-to-date analyses in a format that lends itself to quick and easy use. The set comprises alphabetically arranged, cross-referenced entries accompanied by further reading selections as well as a comprehensive bibliography. A fifth volume provides chronologically arranged documents and an A-Z index.

The Extraordinary Rise of the Russian Empire Arthur C. Hasiotis, Ph.D., 2018-02-22 *The Extraordinary Rise of the Russian Empire* By Arthur C. Hasiotis, Ph.D. Political and cultural biases must not be allowed to misrepresent historical writings and an accurate representation of the truth. Otherwise, generations of citizens and leaders will lack the record and

guidelines of what actually happened With this fundamental principle underlying the effort Arthur C Hasiotis Ph D gives us an impressive study of Russian history from its beginnings to the present day emphasizing Russia s relationship of confrontation and cooperation engagement and constraint with the great Western powers Challenging points in the standard historiography this book presents a powerful reinterpretation of important movements and events As such it is far from a dry history but dives into a number of topical controversies and key geopolitical questions which will keep readers both piqued and informed Comes with an extensive subject ordered bibliography and thorough panoply of documentation

The Western European and Mediterranean Theaters in World War II Donal Sexton, 2011-10-06 The Western European and Mediterranean Theaters in World War II is a concise comprehensive guide for students teachers and history buffs of the Second World War With an emphasis on the American forces in these theaters each entry is accompanied by a brief annotation that will allow researchers to navigate through the vast amount of literature on the campaigns fought in these regions with ease Focusing on all aspects surrounding the U S involvement in the Western European and Mediterranean theaters including politics religion biography strategy intelligence and operations this bibliography will be a welcome addition to the collection of any academic or research library Routledge Research Guides to American Military Studies provide concise annotated bibliographies to the major areas and events in American military history With the inclusion of brief critical annotations after each entry the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency Comprehensive concise and current Routledge Research Guides to American Military Studies are an essential research tool for any historian

Weapons of the Tankers Harry Yeide, 2006 Allied Armored Fighting Vehicles 1:72 Scale George Bradford, 2009-08-12 Filled with 1 72 scale drawings of armored vehicles from the U S Britain Canada and Russia including M4 Sherman medium tank U S T1E3 Aunt Jemima mine exploder U S M18 Hellcat tank destroyer U S Mk VI Crusader cruiser tank Britain Crocodile flamethrower Britain Ram I cruiser tank Canada T 34 medium tank Russia SU 100 tank destroyer Russia And dozens more

Special Bibliographic Series US Army Military History Research Collection, 1978 Blood, Sweat and Arrogance Gordon Corrigan, 2012-11-29 Why the British forces fought so badly in World War II and who was to blame Gordon Corrigan s Mud Blood and Poppycock overturned the myths that surround the First World War Now he challenges our assumptions about the Second World War in this brilliant caustic narrative that exposes just how close Britain came to losing He reveals how Winston Churchill bears a heavy responsibility for the state of our forces in 1939 and how his interference in military operations caused a string of disasters The reputations of some of our most famous generals are also overturned above all Montgomery whose post war stature owes more to his skill with a pen than talent for command But this is not just a story of personalities Gordon Corrigan investigates how the British who had the biggest and best army in the world in 1918 managed to forget everything they had learned in just twenty years The British invented the tank but in 1940 it was the Germans who

showed the world how to use them After we avoided defeat but the slimmest of margins it was a very long haul to defeat Hitler s army and one in which the Russians would ultimately bear the heaviest burden

Tanks Of The World 1915 1945: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have enthralled audiences this year. Tanks Of The World 1915 1945 : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
