Adrian Salama,2019-12-25 This book is essentially a guide to personal growth a simple way of bringing together many topics that ultimately lead to the same goal to enjoy life to the fullest To do this as the title says with a bit of irony there is no recipe or list of steps to follow you just have to understand some concepts that seem very obvious but that sometimes we lose sight of It is told with a series of stories with which it is very easy to identify and with a sense of humor that is very pleasant for the reader It is a simple text to read but with a very deep content it shows a whole philosophy of life that balances all aspects that influence a person to enjoy life from the physical to the mental without passing through the emotional it is that the reader understands that you can achieve everything you want as long as you want it from the heart Going through Taoism

and Gestalt the book explains how important it is to live in the here and now to live in the PRESENT which makes a lot of sense since it is the only time you can live in there is no way to go back to the past nor to travel to the future to know what will happen How to start living in the here and now You have to understand that each person is born with the possibilities of having EVERYTHING he or she wants and that all things come at their own time so one of the first challenges that the book poses is to have patience and enjoy every moment because when we are running through life the obvious is the only thing that is not seen One of the questions the book answers very well is why do things happen to us in life Everything begins with thought everything outside is a projection of what we have inside so if a person has positive thoughts of harmony of love his environment begins to change immediately It is important to know that there are no coincidences but CAUSALITIES everything that happens to us is for a reason and from every situation you can learn

My best friend's teachings Adrian Salama,2020-01-14 Can we learn from our pets The answer is in this book My best friend's teachings Everything a child can learn from his pet is in this book It is a book that parents can read to their children and in that way create values and learning that will give them a better life as well as increase their emotional intelligence Foreword written in the book In truth it is a book creatively and intelligently written by Adrian who despite his young age or rather thanks to his youth gives us daily experiences combined with profound wisdom thanks to his inexhaustible scientific curiosity and attitudes of help to others It is a book to be read and reread many times since in each rereading new elements appear that provide us with peace and love in our daily life Few books can be read today with the fruitfulness with which I enjoyed reading them The author takes us by the hand in a graceful light inviting and simple prose to be more and more successful in our lives

Los Sueños en la Terapia Gestalt Evelyn Lowenstern Herrmann,2009-10-30 Todos so amos y en el remoto caso de que recordemos nuestros sue os emerge en nosotros una intensa necesidad de contarlos para averiguar sus mensajes ocultos En el fondo no es m s que descubrir algo que nos ayude a paliar las dificultades que se nos presentan en nuestra vida cotidiana Los sue os son mensajes de nuestro Yo profundo que se nos hacen conscientes despu s de dormir ellos se convierten en un aspecto importante y enigm tico de nuestra vida
