Target Europe:

The EU's Target for Renewable Energy Great Britain. Parliament. House of Lords. European Union Committee, 2008 This is the 27th report from the European Union Committee HLP 175 I ISBN 9780104013656 and examines the European Union target for renewable energy Known as the 20 20 package the European Commission wishes to reduce greenhouse gas emissions by 20% as well as increasing the proportion of final energy consumption from renewable sources to 20% both by 2020 Each Member State will be given a national target based on their existing renewable generation their GDP and a flat increase for all The Committee believes that achieving the 20% increase of energy via renewable resources will be extremely challenging and states that further research is required in this area Further the Commission s objective of creating a standardised Guarantee of Origin GoO where Member States could meet part of their targets by counting energy generated in another country for which they have bought a GoO certificate is seen by the Committee as potentially undermining efforts to increase renewable generation domestically The starting point for the Government is a reduction of the absolute level of final energy consumption through energy efficiency and saving measures Further the Government needs to commit more fully to increasing the level of renewable heat in the UK and should increase grants for microgeneration along with support to bring emerging technologies such as wind power to a commercially viable state The Committee also highlights the barriers of meeting its targets in respect of the access given to renewable generators to the electricity grid and believes the generators should be allowed to connect ahead of grid capacity upgrades The Committee believes that the 20 20 targets are unachievable unless the Government take quick and decisive action on all fronts including large scale generation microgeneration and energy efficiency Meeting the target will increase energy costs for consumers but offers a way forward in moving away from the use of fossil fuels in the future

Europe and Iran Cornelius Adebahr, 2017-04-21 The EU s approach to Iran has emerged as one of the few successes of European foreign policy Still its role in international negotiations from 2003 as much as its broader approach to Iran are generally poorly appreciated by policy makers in Europe the United States and around the world This book aims to explain the specifics of the EU s approach to Iran taking into account both the complexity of European foreign policy in particular within transatlantic relations and Iran s aspired place in the international order It informs the reader about the special negotiation format that included a number of world powers as well as multilateral bodies such as the International Atomic Energy Agency IAEA and the UN Security Council Furthermore it provides an outlook on European post nuclear deal strategies and offers conclusions on the effectiveness of Europe s multilateral approach to foreign policy By looking at the EU s diplomatic activities towards Iran over more than a decade the book focuses on Europe s actorness in international politics This text will be of key interest to scholars students and practitioners involved or interested in the European Union Iran U S foreign policy as well as Foreign and Security policy including sanctions policy and more broadly to European Politics Middle East studies and international relations

Visions

of America and Europe Christina V. Balis, Simon Serfaty, 2004 Antologi indeholder en undersøgelse af de transatlantiske forbindelser siden terrorangrebene d 11 september 2001 i USA samt den efterfølgende krig i Irak Bogen søger at identificere de grupper som skaber politiken og offentlighedens opfattelse af relationerne på begge sider af Atlanten Ligeledes forsøger den at spore oprindelsen til den opståede splid efter 11 september samt at belyse de nuværende og fremtidige udfordringer til de bilaterale relationer og forholdet generelt mellem USA og Europa Perspektiverne belyses ved fem europaiske bidragydere med fokus primært på England Frankrig Tyskland Italien og Rusland og suppleret med tre amerikanske bidragydere **Global Monitoring Report 2015/2016** World Bank; International Monetary Fund, 2015-11-02 The Global Monitoring Report 2015 2016 produced by the World Bank Group in partnership with the International Monetary Fund comes at an inflection point in both the setting of global development goals and the demographic trends affecting those goals This year marks the end of the Millennium Development Goals MDGs and the launching of the Sustainable Development Goals SDGs while the World Bank Group has in parallel articulated the twin goals of sustainably ending extreme poverty and sharing prosperity This report presents the latest global poverty numbers based on the 2011 purchasing power parity PPP data and examines the pace of development progress through the lens of the evolving global development goals The special theme of this year's report examines the complex interaction between demographic change and development With the number of children approaching a global ceiling of two billion the world's population is growing slower It is also aging faster with the share of people of working age starting a decline in 2013 But the direction and pace of these trends vary starkly across countries with sizeable demographic disparities between centers of global poverty marked by high fertility and drivers of global growth marked by rapid aging These demographic disparities are expected to deeply affect the pursuit of the post 2015 agenda accentuating existing challenges and creating new opportunities International Terrorism, 2001-02 Examines international terrorist activity Provides a factual basis for understanding terrorists behavior and developments Designed to serve as a one volume reference tool which bridges the gap between theory and real world events Each event is described in terms of both a structured framework and a narrative summary Emphasis is on actual description of the events not on any particular policy preference comparative concept or research bias Key criteria are the date and place of the attack the tactics and weapons used the identity of the perpetrator's the principal target victim info international action taken if any and the fate of the terrorists *Renewable Energy in Europe* European Renewable Energy Council, 2010-08-12 How can the European Union meet its binding 20% renewable energy target in final energy consumption by the year 2020 Which sources offer the best prospects for realizing this goal These are the questions answered by this key book which analyses the current situation of renewable energy in Europe examines the latest technological financial and economic developments and outlines ways in which the renewable energy market can be developed The book is divided into sections examining the integration of renewable energy electricity heating and cooling as well as biofuels All the main technologies are covered with exploration of

benefits and applications costs and prices markets and installed capacity policy instruments key countries and success stories targets and long term potential This will be essential reading for policy decision makers at all levels and to all those involved in the development of the renewable energy industry *The Brussels Effect* Anu Bradford,2020 The Brussels Effect offers a novel account of the EU by challenging the view that it is a declining world power Anu Bradford explains how the EU exerts global influence through its ability to unilaterally regulate the global marketplace without the need to engage in neither international cooperation nor coercion

Sustainable Development Research Advances Barton A. Larson,2007 Sustainable development has been defined as balancing the fulfilment of human needs with the protection of the Natural environment so that these needs can be met not only in the present but in the indefinite future The term was used by the Brundtland Commission which coined what has become the most often quoted definition of sustainable development as development that meets the needs of the present without compromising the ability of future generations to meet their own need The field of sustainable development can be conceptually broken into four constituent parts environmental sustainability economic sustainability social sustainability and political sustainability This new book presents the latest research in the field

Does EU Membership Facilitate Convergence? The Experience of the EU's Eastern Enlargement - Volume II Michael Landesmann,István P. Székely,2021-02-11 This edited volume analyses the channels through which EU membership contributed to the convergence process of member countries in the Baltics Central Eastern and South Eastern Europe These channels include trade investment finance labour and laws and institutions Global integration has certainly played an important role A large part of FDI flows and financial integration in the world have been persistent features of globalization Have these countries experienced more intensive integration through these channels because of EU membership with its much tighter institutional and political anchorage than their fundamentals and global trends would suggest Contributions by lead researchers of the area address different aspects of this question *Hearings* United States. The Russia Trap George Beebe,2019-09-03 A must read for anyone who cares about our nation s security in these cyber serious hair trigger times Susan Eisenhower Every American president since the end of the Cold War has called for better relations with Russia But each has seen relations get worse by the time he left office Now the two countries are facing off in a virtual war being fought without clear goals or boundaries Why Many say it is because Washington has been slow to wake up to Russian efforts to destroy democracy in America and the world But a former head of Russia analysis at the CIA says that this misunderstands the problem George Beebe argues that new game changing technologies disappearing rules of the game and distorted perceptions on both sides are combining to lock Washington and Moscow into an escalatory spiral that they do not recognize All the pieces are in place for a World War I type tragedy that could be triggered by a small unpredictable event The Russia Trap shows that anticipating this danger is the

most important step in preventing it **Contentious Europeans** Douglas R. Imig, Sidney G. Tarrow, 2001 Is the process of European integration shifting the targets of social movements from the national arena to the European Union level Does the EU remain isolated from the reach of national democratic politics Or are social movements responding to the transnational issues posed by the European Union but continuing to do so by treading the traditional pathways of nation specific contentious politics Addressing these key but hitherto unexplored questions this groundbreaking volume explores how European citizens are responding to the growing policymaking power of the EU The contributors argue that the emergence of a supranational realm of European government offers new opportunities and constraints for domestic social actors In this new transnational realm groups such as environmentalists students and trade unionists can not only undertake traditional domestic forms of contentious action but also link together across national borders At the same time the volume cautions against rushing to herald a new era of transnational mobilization as significant barriers remain to launching contentious action in the transnational realm national governments continue to play a primary role in policymaking before the EU and tried and true routines of collective action and institutions attach citizens to their national political systems At the heart of the book is a newly developed theoretical framework which is rigorously tested against the evidence offered by the editors longitudinal and cross national database on contentious political action as well as by a series of sector specific case studies The combination of theory and original research will make this an important reference for scholars as well as a valuable supplement in courses on comparative politics Western Europe and social movements Religion and Violence Jeffrey Ian Ross, 2015-03-04 First Published in 2015 Daily newspaper headlines talk radio and cable television broadcasts and Internet news web sites continuously highlight the relationship between religion and violence These media contain stories about such diverse incidents as suicide attacks by Islamic fundamentalists in Afghanistan Iraq Israel Pakistan and elsewhere and assassinations of doctors who perform abortions by white American Christian true believers in the United States How does one make sense of the role of religion in violence and of perpetrators of violence who cite religion as a motivation This encyclopedia includes a wide range of entries biographies of key figures historical events religious groups countries and regions where religion and violence have intersected and practices rituals and processes of religious violence Green Energy and Environment Eng Hwa Yap, Andrew Huey Ping Tan, 2020 Energy is a vital element in sustaining our modern society but the future of energy is volatile uncertain complex and ambiguous especially when facing a continuous drive to ensure a sustained and equitable access as well as mounting pressures to reduce its emissions Traditional approaches in developing energy technologies have always been in isolation with distinct and unique contexts However we cannot afford to work in silos any longer Future energy systems and their relationship with the society and the environment will have to be conceived designed developed commissioned and operated alongside and within contemporary geo political ethical and socio economic contexts This has posed an unprecedented volatility uncertainty complexity and ambiguity VUCA where systemic

and holistic approaches are often warranted This book aims to focus on the VUCA of addressing the future of energy and environment by considering contemporary issues and insights from diverse contexts viewed as a system and anchored upon emerging and smart energy technologies The Euro, The Dollar and the Global Financial Crisis Miguel

Otero-Iglesias,2014-09-19 This book analyses how financial elites in key dollar holding emerging markets perceive the contest between the euro and the dollar for global currency status It also assesses how far the Eurozone has gone in challenging US hegemony in monetary affairs through the prism of these elites Drawing on Chartalist and Constructivist theories of money the author provides a systematic approach to studying global currency dynamics and presents extensive original empirical data on financial elites in China Saudi Arabia the UAE and Brazil The author demonstrates amongst other things how the gradual ascendance of a structurally flawed currency like the euro has highlighted the weaknesses of the dollar and how the euro has demonstrated that sovereignty sharing in monetary affairs is possible and that the international monetary system can be a multicurrency and multilateral system In this highly innovative and important book Otero Iglesias shows the importance of studying financial elites in Brazil China and the GCC countries in order to understand the full impact material and ideational of the euro in the transformation of the IMS It will be vital reading for students and scholars of International Political Economy International Economics International Finance Economic History Economic Sociology International Relations Comparative Political Economy and Comparative Politics **World Development Indicators 2015**

European Dept.,2022-06-24 Bulgaria Selected Issues Family Multinationals Christina Lubinski,Jeffrey Fear,Paloma Fernández Pérez,2013-07-18 In contrast to widespread assessments that family enterprises lack sufficient resources and capabilities to go global many family companies are competing successfully in an increasingly globalized business environment Worldwide a large number of thriving multinationals are still family owned and or under family control While there is abundant literature on the phenomenon of globalization from many different disciplines neither the literature on multinationals nor the growing field of family business studies have systematically investigated family multinationals yet This volume is one of the first to deal explicitly with family multinationals and the role of the family in internationalization It situates itself at the crossroads of internationalization studies on the one hand and family business research on the other Why do families continue to play such a large role in some of the most prominent firms in emerging and mature economies How did they manage to maintain ownership control yet divest of unrelated business ventures How did they internationalize yet maintain control This book identifies the idiosyncratic strategies and structures of family multinationals in different countries and at different points in time A comparative historical and case study approach allows us to explore the role of the family through the firms various internationalization pathways and understand long term developments and path dependencies *Fighting Poverty and Social Exclusion in the EU* Matteo Jessoula,Ilaria Madama,2018-06-14 In the field of anti poverty policies the interplay between the Europe 2020 overarching strategy and the Semester have marked major discontinuity vis vis the Open Method of Coordination for social protection and social inclusion Social OMC of the Lisbon phase This book therefore asks whether and how Europe matters in the fight against poverty and social exclusion by assessing the emergence and possible institutionalisation of a European multi level multi stakeholder and integrated policy arena in the new institutional framework Supranational developments multi level interactions as well as the strategy effects at the national level are analysed in six European countries Belgium Germany Italy Poland UK and Sweden with the aim to identify the key factors affecting the implementation of the Europe 2020 anti poverty strategy This book will be of key interest to students scholars and practitioners in social policy political science and European governance and more broadly to European Union politics European integrations studies sociology and economics
